## PARR TRACKS PURCHASED BY S. P. CO.

Mayor Davis Reports to City Council That Railroad Has Secured Terminal Lines and 300 Acres of Land

Prompt Action Is Urged For Extension of 9th, 14th and 18th Sts. to Government Bulkhead; Oakland Rights

Mayor Davis today announced to the city council that the Southern Pacific Company has acquired the trackage of the Parr Terminal Company and 300 acres of valuable waterfront land.

Following this announcement, the city council adopted a resolution directing the city engineer to prepare plans to extend Ninth, Fourteenth and Eighteenth streets from their present terminals to the government bulkhead line.

The extension of these streets, according to the mayor, will give Oakland access to its waterfront no matter what improvement or expansions are desired by the railroad company.

**ACTION WILL GUARD FUTURE STREET RIGHTS.**

The purpose of the railroad in acquiring these assets was not disclosed, the mayor simply stating that he has "been informed" of the transaction. He thereupon demanded that the city take action to guard its future street rights.

Fourteenth street is already being extended. The city dredges are pumping a fill for Fourteenth street across the West Oakland mud flat. Ninth street, however, is far inland, and so is Eighteenth street.

In introducing the matter before the council, Mayor Davis announced that he was "informed" that the Southern Pacific company has purchased the trackage and switches of the Parr Terminal company, together with about 300 acres of land formerly owned by the Syndicate and Tractor company interests, lying east of the Union Construction company and between the Sixteenth street station and the city's waterfront property.

**FEARS HAMPERING OF DEVELOPMENT.**

The mayor, in a written communication to the council, charged that this is part of the railroad's alleged policy to "hamper the development of the Oakland waterfront."

For years the policy of the Southern Pacific has been to discourage the development of Oakland's harbor, and I believe that the purchase of this property by that company is but another step in the attempts to hamper the development of our harbor frontage and to prevent competition by any other transportation company.

Since 1915 I have devoted every effort toward the development of our magnificent harbor, and at every step the administration has been hampered either directly or indirectly by the Southern Pacific. The city has had to bring suit against the company for the collection of over \$150,000 in dockage and tolls for traffic moved over municipal property. At the expiration of the company's franchise for the ground occupied by the old "Long Wharf," every pressure was brought to bear upon the city for a renewal of that franchise. The members of this council are familiar with the difficulties which the city encountered in the removal of Long Wharf. It was only through the co-operation of Director General McAdoo of the United States Railroad Administration during the war that this removal was finally accomplished.

It was also under the Railroad Administration that the Southern Pacific was compelled to permit use of their passenger terminal and Oakland Mole by the Santa Fe and Western Pacific, and shortly after the close of the war the Southern Pacific ordered the Santa Fe and Western Pacific to discontinue further use of these terminals. I filed a complaint with the State Railroad Commission of California and the Interstate Commerce Commission to permit continued use of the terminals by the Santa Fe, and that case has not yet been finally decided.

**Missing Magnate**  
JOHN C. BRITTAIN, wealthy San Francisco hardware dealer, and resident of Piedmont, who mysteriously disappeared in San Francisco yesterday and is being sought

**BAY MILLIONAIRE MISSING IN S. F.**

John C. Brittain, Wholesale Dealer, Disappears; Thought Victim of Amnesia.

An exhaustive police search was made throughout the bay region and the northern part of the state today for John C. Brittain, 120 Blair avenue, Piedmont, vice president of Sloss and Brittain, wholesale hardware dealers of San Francisco, who mysteriously disappeared from that city late yesterday.

Brittain's absence was discovered late yesterday when he failed to keep an appointment with Mrs. Brittain at his offices in San Francisco. The Oakland and San Francisco police were notified late last night, after last hopes that he would return had been abandoned by members of the family and friends.

**NUMBER OF SLEUTHS ASSIGNED TO SEARCH.**

The report was made to Night Captain of Detectives Richard M. Sorley by F. M. Butler, 652 El Dorado avenue, Oakland, a relative of the missing millionaire. Word was immediately flashed to the San Francisco department and a number of detectives were assigned to the search for the capitalist.

Up until a late hour today no clues had been unearthed which might lead to Brittain's whereabouts.

Mr. and Mrs. Brittain left their home in Piedmont yesterday for San Francisco. They caught a 1:40 o'clock boat. Upon their arrival in the city Brittain told his wife that he would go to his offices for a while and that he would meet her there when she was ready to return home.

Mrs. Brittain left her husband at the ferry building. Later in the day she arrived at the Sloss & Brittain offices and inquired for her husband. She was informed that he had not been there that day.

Believing that her husband might have been detained, the woman waited, hoping for his arrival. Hours passed and Mrs. Brittain sat up late. She telephoned the residence in Piedmont in event that there might have been a misunderstanding regarding the meeting place, but no word had been heard from Brittain there.

**POLICE HAVE THEORY OF FOUL PLAY.**

Greatly worried, Mrs. Brittain returned to her home. Friends were told of the capitalist's disappearance, and Butler advised reporting the matter to the police.

When he left Mrs. Brittain at the ferry building yesterday in San Francisco, he wore a brown hat, a gray suit and a light overcoat. He is about 5 feet four inches in height, and weighs about 180 pounds. He has medium complexion, blue eyes and gray hair.

Police declare it possible that the millionaire met with foul play, that he was robbed, or was kidnapped and is being held for ransom. Relatives and friends suspect this theory. San Francisco sleuths are endeavoring to check his movements after he left the ferry building. Mrs. Brittain declared that she was not aware that her husband had any large sum of money on his person.

Brittain's family today engaged the services of a well-known private detective agency to co-operate with the police in the search for the missing man. Detailed descriptions are being sent broadcast throughout the state.

Brittain is vice-president of Sloss & Brittain, wholesale hardware dealers of San Francisco. He was formerly vice-president of the Pacific Hardware and Steel company. He is 54 years old.

## AGREEMENT REACHED ON TARIFF BILL

After Two Years in Making Measure Fixing Highest Customs Duties Imposed Is Back From Conference

Provision in Elastic Rates Clause Gives President Authority to Change From American to Foreign Value

By KENNETH W. CLARK, United Press Staff Correspondent. WASHINGTON, Sept. 12.—The Fordney-McCumber tariff bill, designated officially as the tariff act of 1922, was returned today to the House from conference.

After two years in the making, the bill in final form was laid before the lower chamber, which will consider it tomorrow. Leaders hope it can be sent to the Senate on Thursday and to the White House for signature shortly afterward.

The bill is regarded, in general, as the highest tariff ever imposed by an American congress. Conferees, however, stashed materially the high rates in the original Senate bill.

Foreign valuation was accepted by conferees as the basis for determining rates except in certain specified instances. A provision in the elastic tariff clause gives the President authority to change from foreign to American valuation if foreign valuation does not justify differentiation between cost of production in America and abroad.

**DYE EMBARGO IS REINFORCED FOR YEAR.**

The dye embargo, stricken out by both House and Senate, was reinserted for one year, with authority to the President to continue it for a second year.

Conferees also eliminated the "free trade zones," into which materials could be brought, manufactured and shipped out without payment of duty.

Chemical, oil and paint rates were reduced to not twenty per cent.

"Intermediates" in the dye schedule were cut from 75 per cent ad valorem in the Senate bill to 50 per cent ad valorem and seven cents a pound.

Coal tar products were lowered from the Senate rate of 90 per cent ad valorem and 10 cents a pound to 60 per cent and 1 cent a pound.

**WOOL RATE CUT TO 31 CENTS POUND.**

Wool, in the greasy or washed, was cut from the Senate rate of 33 cents a pound to 31 cents, six cents higher than the House figure of 25 cents a pound. Scoured wool was given the same rate, while wool imported on the skin was placed at 30 cents a pound instead of 32.

House managers scored another victory in cotton rates, long staple cotton being placed on the free list in the Senate bill.

It was seven cents a pound in the Senate bill. Cotton manufacturers duties were about half way between the Senate and House bills.

Duty on importation of Cuban sugar was slashed to \$1.76 a hundred pounds, 16 cents higher than the House rate, but 8 cents below the original Senate bill. The rate on sugar imported from countries other than Cuba was cut from 2:30 to \$2.20 a hundred pounds.

**SENATE FIGURES ON METAL RATES RETAINED.**

Metal rates generally were kept at Senate figures. The basic steel rate was 8 per cent ad valorem. Household utensils were reduced slightly in conference.

Automobiles, bodies, motor vehicles and motor cycles were 25 per cent ad valorem, but the conference imposed a retaliatory clause so that the duties could be increased to equal rates levied abroad on American products.

Logs of fir, spruce, cedar and western hemlock were taxed \$1 per thousand board feet, but are exempt from duty if imported from any country which has not restricted exportation. The general rate on sawed lumber was 15 per cent ad valorem.

Few changes were made on tobacco, the basic duties being those adopted in the Senate, \$2.10 a pound on unstemmed, wrapped tobacco, \$2.75 stemmed, 35 cents a pound on unstemmed filler tobacco, and 50 cents on stemmed, and scrap tobacco 35 cents a pound.

**CONFIRMED DUTIES ON FARM PRODUCTS.**

Confirmed duties on important farm products were:

Meat, 20 per cent ad valorem; fresh milk, 2 1/2 cents a gallon; cheese, 5 cents a pound; eggs, 5 cents a dozen; barley, 20 cents a bushel; corn, 15 cents a bushel; oats, 15 cents a hundred pounds; rye, 15 cents a bushel; wheat, 30 cents a bushel; apricots, green, ripe, dried or in the brine, half of one per cent a pound; otherwise prepared, 35 per cent ad valorem; flax, dried or in the brine, 2 cents a pound; otherwise, 5 cents a pound; apples, fresh or dried, one cent a pound; otherwise prepared or preserved, 35 per cent ad valorem; lemons and oranges in their natural state.

## Pharmacy Board Investigator Is Facing Charges

Woman Sleuth and Chief Operative Accused; Probe of System Begins.

Charges that Miss Ray West, investigator for the State Board of Pharmacy, is a former "dope" user, and that she and E. J. McInerney, one of the board's chief operatives, were recently ejected from a local dance hall for alleged drunk and disorderly conduct, today precipitated an investigation by the pharmacy board that may lead to one or more dismissals, and possibly to the abolition of the "stool pigeon" system.

The charges were made in open court before Judge Mortimer Smith today, while Miss West was on the stand as the principal witness against Frank Magnall, charged with a second violation of the state poison act.

**MEADER HEARS CHARGES IN COURT.**

Dr. H. B. Meader, president of the State Board of Pharmacy, was among the spectators in the courtroom, and heard the charges. Following the court session, he announced that he would immediately begin an investigation to ascertain the truth of the accusations, and that, if evidence is found to support them, decisive action may be expected on the part of the State Board.

Also in the audience in Judge Smith's courtroom was a delegation of women from the legislative section of Oakland Center, League of Women Voters, who were engaged in investigating the narcotic situation throughout the state. Through Mrs. Frank G. Law, president of the organization and one of those present, they announced their intention of starting an independent investigation of their own into the charges, and, if they found them to be true, to attempt to effect legislative action to remedy the situation.

Besides Mrs. Law, the members of the organization who were present were: Mrs. C. D. Weyman, Mrs. L. E. Bullock, Mrs. A. E. Thurston, Mrs. C. H. Seecombe, Mrs. Grace Williams, Mrs. A. L. Lawrence and Mrs. E. J. Schmitt.

The charges against McInerney and Miss West were made by Attorney F. M. Carr, counsel for Magnall, during his cross-examination of Miss West. Announcing that he sought to discredit the testimony given by the witness against his client, he said:

"I will ask you, Miss West, if in the course of the last week, on Tuesday evening, September 5, 1922, you and McInerney were ejected from the Majestic Dance Hall in this city because both of you were drunk and disorderly?"

The objection, which was immediately sustained by Prosecuting Attorney Fred H. Donahue, that the State Board of Pharmacy was not a proper cross-examination, was sustained by Judge Smith.

**BOARD'S PRESIDENT TAKES QUICK ACTION.**

Following the hearing, however, Dr. Meader declared that he had made in court just now amounted to the same thing as if they had been made direct to the State Board of Pharmacy. I will start an investigation immediately. What it may lead to I do not know. Whether the accusations were hearsay on the part of Carr I do not know. The investigation will proceed until these points are cleared up.

It is always against the policy of the State Board of Pharmacy to hire women as "stool pigeons," Dr. Meader said. "Stool pigeons" are not hired by the board members, but their selection is left to the operators.

**CITE ALLEGED SAN JOSE ARREST.**

During the cross-examination of Miss West, Carr also charged that she had been arrested in San Jose on March 31 last for alleged violation of the State poison act, and that she had been in the habit of buying "dope" from Magnall for her own use before she went to work for the State Board of Pharmacy and attempted to purchase it from him for investigation purposes.

Dr. Meader said that these charges would also be carefully looked into in the course of his investigation, and that stringent action would immediately follow if he found them to be substantiated.

## U. S. PRESSES RAIL STRIKE PLOT CHARGE

Government Bases Injunction Plea on List of Murders, Fatalities, Wrecks, Riots, Tiumps in Transportation

Impeachment of Daugherty Will Be Pushed; Separate Peace Predicted by Shop Chief; A. F. L. Plans Levy

CHICAGO, Sept. 12.—(By the Associated Press).—The meeting of the policy committee of ninety of the striking railway shop-crafts adjourned at 5 p. m. today without taking any action on separate rail peace agreements.

By LAURENCE M. BENEDICT, United Press Staff Correspondent. WASHINGTON, Sept. 12.—A formal hearing, probably open to the press and public, will be held "soon" in the impeachment proceedings started against Attorney General Daugherty, by Representative Keller, Republican, Minnesota, Chairman Volstead, chairman of the House judiciary committee.

Keller announced he would press for an early hearing. "I have plenty of evidence to back up my charges, and I hope, enough to convince the committee that Daugherty should be removed from office," he declared.

CHICAGO, Sept. 12.—(By United Press).—Acceptance of the plan for separate peace between the striking railroad shopmen and individual lines by the policy committee of the shop-crafts, was forecast this afternoon by Bert M. Jewell, president of the shop c/o's organization. Emerging from a meeting of the policy committee, the union president said:

"I believe my recommendation will be accepted," Jewell said, "although it is too early to say for certain. In case it is accepted, the men will be back at work on many lines within five days."

Reports from other sources said that Jewell had met strenuous opposition from some members of the committee.

ATLANTIC CITY, N. J., Sept. 12.—(By International News Service).—The federal injunction proceedings at Chicago are part of the open shop drive to destroy trade unionism in this country, Senator George, president of the American Federation of Labor, charged this afternoon. Compensating the meeting of the executive council of the federation which is considering the advisability of laying an assessment on the six million members to help the railway shop strikers.

CHICAGO, Sept. 12.—(By the Associated Press).—The government today began the introduction of approximately 25,000 affidavits telling of attacks on individuals as a result of the railroad strike in support of Attorney General Daugherty's bill for a temporary injunction against nearly 350 officials and 300,000 members of the striking railroad shop crafts.

Hearing on the defense motion for a modification of the temporary restraining order issued September first, was deferred by Judge James H. Wilkerson until the government has presented further evidence in support of its contention that the dominant purpose of the alleged conspiracy is the destruction of interstate commerce.

Judge Wilkerson cautioned both sides against making public statements tending to influence public opinion prior to decision of the case, after Donald R. Richberg, attorney for B. M. Jewell and John Scott, strike leaders, protested to the Court against a statement in morning papers attributed to the attorney-general's office.

**25,000 AFFIDAVITS ON INJUNCTION CHARGES.**

Blackburn Esterline, assistant U. S. solicitor general, said he would read enough of the 25,000 affidavits to show that non-union employees and union men who remained at work have been molested and intimidated in every section of the country. Starting out with alleged interference with Santa Fe workers, the first 170 affidavits read covered occurrences in Illinois, Missouri, Oklahoma, California, Colorado, Arizona and New Mexico.

Esterline proceeded with the reading of fourteen affidavits covering molestation of Southern Pacific employees in California.

**25 DEATHS ATTRIBUTED TO STRIKE CAUSES.**

The statement prepared by the attorney-general's staff also enumerated reports of 25 murders and other fatalities attributed to strike causes.

It further pointed out the suffering and inconvenience of passengers stranded on the deserts of California and Arizona, when train crews quit, and declared that 5500

British Fleet Concentrated in Near East Waters Ready for Action if Kemalists Move on Constantinople

Leaders Warned Any Breach of Neutrality Zone Will Not Be Tolerated; Venice Peace Parley Dropped

By LLOYD ALLEN, (United Press Staff Correspondent) LONDON, Sept. 12.—War between Turkey and the allies, with Constantinople as the prize, threatened today.

Naby Bey, Turkish delegate in Paris, issued a statement announcing that Turkey would demand return of Constantinople.

Allied high commissioners notified Mustafa Kemal that invasion of the Constantinople neutral zone would not be permitted.

The victorious army of Kemalists, having crushed the Greeks, is reported eager to advance upon the city, which is now held by the allied forces.

**BRITISH FLEET READY TO ACT.**

Great Britain, according to word given out here today, has concentrated her entire Mediterranean fleet in Near-Eastern waters prepared for action, eventually. It is understood French and Italian ships are enroute.

Lloyd George is given credit for bringing the French into line and persuading them to join the other allies in presenting an unbroken front to the Moslems. Heretofore, they have favored the Turks.

Allied troops in Constantinople are guarding the foreign quarter, according to dispatches received here today, to prevent recurrence of the riot there yesterday in which Turks looted the shops of Christians. Several persons were reported killed.

**NEW HOLY WAR MAY RESULT.**

A move against Constantinople might have the backing of the Moslem world and develop into a holy war. The city of Delhi, India, is understood to have cabled congratulations to Mustafa Kemal on his battle successes. Uprisings against the British government in India, Palestine and other Moslem territories probably would be assayed simultaneously with the attack on Constantinople.

The allied troops in Smyrna and Constantinople are few compared to the Turks. Several squadrons of blue jackets and marines are on duty at Smyrna and the allied garrisons at Constantinople would have to be reinforced heavily in event of actual war.

Constantinople was taken from the Turks and neutralized after the world war. Since then it has been held by a small force representing all the allies, with the British predominant. The sultan is permitted to remain there with his personal bodyguard. The sultan, being under the eye of the allies in Constantinople, has had no hand in this uprising.

**CONSTANTINOPLE, Sept. 12.—(By International News Service).—**Turkish newspapers today clamored for war against the allies unless the Turks are given control of the Dardanelles and Bosphorus. PARIS, Sept. 12.—(By International News Service).—Plans for a Near East peace conference at Venice in October to settle the Turco-Greek war have collapsed, according to statements in the French press today.

LONDON, Sept. 12.—(By International News Service).—The Turkish Nationalist government at Ankara today proposed to the Greeks that an immediate peace conference be held at Smyrna without waiting for the conferences arranged by the allies at Venice, said a Constantinople despatch to the Evening News today.

SMYRNA, Sept. 12.—(By the Associated Press).—The 700,000 persons in Smyrna face famine within a week unless food supplies arrive, according to H. C. The food must come by boat as the sea is the only route now left open. Already 30,000 refugees are without food.

**Banker Wins Delay By Probation Plea**

LOS ANGELES, Sept. 12.—Gustaf Hemple, former Turlock banker, will be given a hearing on his application for probation tomorrow 25. Hemple, who is guilty to a charge of Judge Reeve's court to be sentenced to 10 years.

A new trial was ordered in the case of Paul Volanti, the fourth alleged member of the gang. The court held that evidence in the case of Volanti had been insufficient.

**"Big Tim" Murphy Must Serve Term**

CHICAGO, Sept. 12.—"Big Tim" Murphy, picturesque labor leader, must serve a sentence of six years in the federal penitentiary for conspiracy in the Dearborn station mail robbery, the circuit court of appeals ruled today.

The court of appeals upheld the verdict and sentence in former Judge Landis' court of Murphy and two alleged confederates—Vincenzo Cosmano and Edward Guerin, each sentenced to four years.

## WIFE DIVORCES RICH SPOUSE FOR BRAWL AT CARMEL

The fist fight which stirred artistic Carmel-by-the-Sea several months ago, when Floyd Glotzbach, chauffeur husband of Madame Margaret Matzenauer, prima-donna, and Peter Naylor Hanna, scion of a wealthy family, engaged in a brawl, was made the basis of a suit for divorce yesterday by Superior Judge St. Sure, who granted a decree to Estelle M. Hanna.

The wife testified that she suffered deep shame and humiliation because of her husband's conduct. She said that she had many wealthy and prominent friends at Carmel and that by reason of her husband's engaging in the fist fight, with its attendant publicity, she was made the object of scorn and ridicule at their hands.

## Eight Miners and Policeman Are Killed

BY ASSOCIATED PRESS.  
LEARNED WIRE TO TRIBUNE.

LONDON, Sept. 12.—Eight miners and one policeman were killed and a number of persons injured in a riot at Bismarck Hutte, Polish Upper Silesia, yesterday, according to a Berlin despatch to the Times.

The trouble began when miners objected to being paid in Polish marks, hitherto having received their wages in German currency. They overpowered the police and when soldiers with machine guns arrived the mob stoned them.

The soldiers fired and numbers of persons fell. The mob scattered. Military reinforcements arrived and order was restored.

## Musical Stage Star to Wed N. Y. Editor

NEW YORK, Sept. 12.—Peggy Wood, musical star, has announced her engagement to John V. A. Weaver, literary editor of the Brooklyn Eagle. The date of the wedding was not made public. Miss Wood, daughter of Eugene Wood, author and magazine writer, gained fame in "Buddies." She also starred in "Maytime" and "Marjolane."

## COUNTY AVOIDS SCHOOL ACT TEST

There is no present quarrel in Alameda county as to whether the law passed by the last Legislature, making it mandatory upon the Board of Supervisors to appropriate funds for school purposes as requested by the school districts, is constitutional or not.

This was the statement today of county officials following a published statement by M. C. James, deputy superintendent of schools in Berkeley, that the constitutionality of the law was to be tested in another part of the state.

The issue was avoided here in fixing the budget by the fact that the Board of Supervisors allowed each school district all they asked for. This may not be the case in future years, however, for the board has been advised by Theodore Wittchen, assistant district attorney, that, in his opinion, the law is unconstitutional. The board would have followed this opinion and pruned school budgets if it had been deemed necessary.

## Animal Experiments Prohibited by Bill

WASHINGTON, Sept. 12.—A bill designed to prevent the sacrifice of domestic animals in army and navy research work was introduced today by Representative Johnson, Republican, of Washington. Specifically, it would prohibit officers, enlisted men and civilian employees from using any noxious substances upon the body or tissue of such animals, in attempting to establish the efficacy of any gas, liquid or powder.

## Christian Denies Bonus Veto Story

WASHINGTON, Sept. 12.—Geo. B. Christian, Jr., secretary to President Harding, denied today that he had informed the national board of the American Legion that the President would not veto the soldier bonus, as stated by R. G. Storey, speaking at the convention of the Texas department of the Legion.

## TAX BACHELORS IS PLATFORM OF 'PAT' PATTERSON

SACRAMENTO, Sept. 12.—(By International News Service).—S. D. ("Pat") Patterson, California's only independent candidate for governor, today forsook his laundry here and embarked on a tour of the state in a battered automobile, which he calls his "campaign wagon." Patterson claims he will preach his gospel of "simplified laws and a tax on bachelors" in every state community before the final election in November.

"I propose that bachelors should pay a tax to help educate girls who they may court later in life, after they have realized the folly of bachelorhood," declared the "write in" candidate. "I will at all times encourage legislation that will protect the small buyer."

## Council Passes New Printing Ordinance

BERKELEY, Sept. 12.—A resolution, providing for an amendment to the ballot for the November election, regarding city printing, was passed by the city council at its meeting today by a 3 to 2 vote. Those voting for the amendment were Mayor Louis Bartlett and Councilmen George Schmidt and Charles D. Heywood.

The amendment, if carried, will make any newspaper in Alameda county with the required Berkeley circulation, eligible for city printing. At present, only newspapers located in Berkeley are eligible for the printing. If the amendment passes the paper in the county making the lowest bid will receive the work.

## Big Theft Aided By Stolen Code

PEKING, China, Sept. 12.—Search of the orient was in progress today for two alleged swindlers, accused of defrauding the Asia Banking corporation of 25,000 pounds sterling. Their names were Hillard and James, according to authorities.

A stolen code was said to have been used in the alleged operations. A ring in New York is alleged to have assisted the two men now sought in the orient, being the supposed foreign agents of the ring. The two had American passports. Through the stolen code they are alleged to have been able to arrange transfers of money from New York and London banks.

## Japan to Compromise Dispute With Soviet

TOKYO, Sept. 12.—Japan has decided to compromise with the soviet government of Russia, the questions which threatened disruption of the Chang Chun conference on Far Eastern questions, it was learned on reliable authority today.

This action was interpreted as the first step towards de facto recognition of the Moscow government.

## Japanese Colony Plan Held No Menace

BY ASSOCIATED PRESS.  
LEARNED WIRE TO TRIBUNE.

WASHINGTON, Sept. 12.—The proposed establishment of a Japanese settlement near Fort McArthur, San Pedro, Calif., will in no way jeopardize the national defense, in the opinion of a board of army officers assigned to study the question. Secretary Weeks announced this conclusion, and presumably the matter is ended, so far as the War Department is concerned.

## Alameda Scouts to Tour Factories

ALAMEDA, Sept. 12.—The Alameda Boy Scouts are to make a series of tours of the manufacturing plants of the bay district. The first tour, to be inspected by the California Cotton Mills in East Oakland tomorrow, Scout Executive Edward Albert will be in charge of the boys. Fifteen will comprise the party. Other plants will be visited later.

## COUNCIL BALKS AT BUYING FRUIT FOR MINERS' KIN

BERKELEY, Sept. 12.—After a heated argument during which the city attorney was called as a mediator, Councilman Carl Bartlett, during a meeting of the city council today, withdrew a resolution he had presented asking the city to appropriate money to purchase fruit for the families of miners out of work in Tolmie.

Bartlett pointed out that the conditions in Jackson were deplorable and that families did not have enough to eat. This, he said, was because there were so many men out of work. He presented a resolution whereby, if passed, the city would appropriate \$150 to buy fruit for these families.

The proposal met with severe opposition, and Councilman Charles D. Heywood from the floor announced that before taking any action he was in favor of seeing if the families were really in want.

It was also argued that such a resolution would be illegal and City Attorney Lemuel Sanderson was called to settle the dispute. By the time he arrived Bartlett had withdrawn his resolution.

## STUDENTS CO-OP. VACATES NORTH HALL QUARTERS

BERKELEY, Sept. 12.—The cashier's office of the Student's Co-operative store at the university was moved from old North hall yesterday to the new Student Union building. With the moving of this department, the last to vacate, North hall, the traditional home of the Co-op, is deserted.

For thirty-eight years the students have bought their supplies in the old North hall building and used it for the center of student activities. The Co-op, which originally started in one room where books were sold over a counter of two barrels with a board laid across them, has outgrown the entire building and now has a force of forty employees working in the school supplies department alone.

North hall will be used temporarily as quarters for the heads of several academic departments.

## FURNITURE FALLS ON MAN.

ALAMEDA, Sept. 12.—Ernest I. Church, 3527 Lincoln avenue, was moving furniture into 2137 San Antonio avenue yesterday afternoon. Some of it fell upon him as he was going up stairs. At the Emergency hospital he was treated for bruises.

## 147TH ARTILLERY TO BE DECORATED BY GEN. PERSHING

Honors Overlooked in France  
to be Accorded South  
Dakota Men.

MITCHELL, S. D., Sept. 12.—Gen. John J. Pershing will come to Mitchell September 23, to officially decorate the colors of the 147th Field Artillery with the French Croix de Guerre. At the same time, Colonel Boyd Wales, who commanded the regiment during the war, will be decorated. The decorations are to be made in recognition of the services of the regiment during the breaking of the "Hindenburg" line at Juvigny of the western front in France. The action began August 28, 1918, and lasted until September 6. The 147th Field Artillery was ordered to eliminate German machine gun nests in the vale before Juvigny and later those along the Tserny-Sorny road to the east. The work of the regiment and of the 32nd Division, of which the 147th was a part, brought citations by General Mangum, commanding the Tenth French army and in charge of operations in the sector.

**REGIMENT OVERLOOKED.**  
Other regiments of the division received their decorations at the hands of General Mangum, but through an oversight the 147th was left out. There were four artillery regiments in the division, and thus being unknown to the official who made provision for the decoration ceremonies, only three regiments were ordered to participate. When it was discovered that no provision had been made to decorate the 147th colors, the French government communicated with the United States secretary of war. When negotiations were completed the regiment was back home and demobilized. The decorations for the regiment were forwarded to the secretary of war, who has instructed General Pershing to confer the decorations.

**WILL PARTICIPATE.**  
William A. Hazle, adjutant general of South Dakota, who served as lieutenant-colonel of the 147th during the war, will participate in the ceremonies and has invited all former members of the regiment and all former service men in the state to attend.

The regiment was organized in October, 1917. The regiment was then in camp at Camp Greene, Charlotte, N. C., as part of the Fourth South Dakota Infantry. Two batteries of the regiment were of the Oregon National Guard, the balance being South Dakota men and replacements.

## Korean Notes For Russian Currency

TOKYO, Sept. 12.—The old Russian currency issued in the time of Antonov which has been in circulation since the independence of the Vladivostok government, is now gradually being replaced by convertible notes issued by the Bank of Korea according to a statement made by Mr. Shunro Ito, who is in charge of the Vladivostok branch office of the Bank of Korea.

It is said that the withdrawal of Japanese troops from Siberia could not adversely affect the Vladivostok branch and denied reports that the branch office of the bank in Vladivostok would be closed simultaneously with the military evacuation. Economic conditions in Vladivostok, he said, are subject to fluctuation on account of the imminent military evacuation but any investments made or to be made would not suffer from the withdrawal of the troops.

**HEAVY REGISTRATION.**  
FRESNO, Sept. 12.—About 1000 students are expected to register at the Fresno State College this semester. Last year there were 800 attending the school. The new instructors have been added to the faculty to help handle the increased classes.

## MME. CARO ROMA TO MAKE OAKLAND PERMANENT HOME

Opera Singer and Composer to Complete Music For Opera Here.

Mme. Caro Roma, opera singer and composer, will re-establish her permanent home in Oakland, according to her announcement before the luncheon of the Soroptimist club, at which she was the guest of honor at Hotel Oakland yesterday. In the Oakland studio will be completed the contract for the music of the opera on which she is at present engaged. Mme. Roma was born in this city, where her musical career was begun. A few months ago she came from New York for a visit, which is being extended to a permanent residence.

Mme. Caro Roma and William Carruth were the local composers who were honored at the brilliant program celebrating Admission Day and Welcome to Oakland Week, yesterday. Approximately 200 club men and women participated in the luncheon sponsored by the business and professional women. Lowell Redfield, accompanied by Carruth, sang "Well Beloved California" (Caruth); "Absent" and "Violets" (Roma); Mrs. Grace LePage, accompanied by Miss Eva Garcia, offered a group of Roma compositions. Miss Ruth Hall Crandall presented Beach and Cadman numbers. She was assisted at the piano by Miss Helen Rust.

Poems of Edwin Markham, former Oakland resident, were given as cantillations by Mrs. Josephine Swan White. Greetings were offered by Mme. Roma.

Mrs. Irma Randolph was chairman of the day. She was introduced by Miss Violet Richardson, president.

### Reincarnation Is Subject of Lecture

In an address last evening before the Theosophical Lodge of Oakland in the Pacific building, Mrs. Harriet Tuttle Bartlett, national lecturer of the Theosophical Society, discussed reincarnation.

"Up to the time that Christ came 2000 years ago," she stated, "every Oriental religion believed in reincarnation. Jesus taught it in a few simple words, though he did not say much about it, because every one who believed in immortality believed in reincarnation."

Mrs. Bartlett closes her series of lectures on "The Wisdom and the Coming Great Teacher." In this lecture she proposes to show that the second coming of the great Christ in the body is close at hand.

## Codornices Club Plans for Second Dramatic Season

MISS ZELMA McDONOUGH in dancing costume and MISS RICHENDA STEVICK, talented artists who will appear in "Little Theater" program in Berkeley.

BERKELEY, Sept. 12. — Preparations are being completed by the Codornices Club for the opening of its second dramatic season on Tuesday evening of next week.

For the first program, "Niobe," whimsical comedy in three acts, is being rehearsed. Mrs. Herbert Sanford Howard, who last year sponsored an ambitious program of offerings, is planning events of interest for the coming season.

From faculty members of the university to men and women who are employed during the day and whose art finds expression in their leisure time, the club's dramatic section consists of a versatile group of artists. For "Niobe" the cast is:

Niobe, Miss Richenda Stevick; Petros, Amos Dunn, Dr. Arthur Bakke; Carolin Dunn, Mrs. John Lofquist; Helen, Mrs. Valentine McGillicuddy; Cornelius, G. Mitchell; Hattie, Miss Emma Knox; Cyprius, Mrs. C. L. Talbot; Desdemona, Sillocks, Miss Zelma McDonough; Innes, Harold Irwin; Tompkins, Frederick Smith; Madeline Mitten, Mrs. Charles Wieland; Mary, Mrs. Frank B. Schuyler.

## HARTMAN SCORES NEW TRIUMPH IN H. M. S. PINAFORE

Enthusiastic Reception Accorded Gilbert and Sullivan Favorite at Auditorium.

With all sails set, and driven by the propitious winds of an ever-green popularity, that splendid old frigate, His Majesty's Ship Pinafore, came to anchor last night at the Auditorium theater.

The enthusiastic reception given to Gilbert and Sullivan's operetta of "the lass that loved a sailor" goes to confirm what has already been indicated by previous experience of the Ferris Hartman-Paul Steindorff season of comic opera—the public likes the old operettas best. It is a fact, for some reason or other, that Pinafore, the Mikado, Girouille-Girouille, the Chocolate Soldier, La Mascotte, and others, are far more melodious and have more of that lasting quality than most of the so-called modern operettas.

In last night's production Ferris Hartman was the "denier mot" of comedians as he took the role of that pompous old character, "The Right Honorable Sir Joseph Porter, K. C. B." As the First Lord of the Admiralty, he kept the audience laughing from curtain rise to drop, and it was recalled, by a few of the older generation present, how "Pinafore" had been a deadly weapon of political duello in England when the civilian lords of the admiralty were assailed for their ignorance of naval matters, and when "Punch" coined the famous doggerel that "Mr. Goshen had no notion of the motion of the ocean." Not the least of the remarkable things about Pinafore is the fact that an operetta, originally written and used for political purposes, has outlived its political period and tendencies and has remained one of the greatest favorites of the fun and music loving public.

Nona Campbell, in the role of Little Buttercup, the bumbos woman, and Lillian Glaser in that of Josephine, the captain's daughter, did fullest justice to their melodious parts. Such songs as "Things Are Seldom What They Seem," sung by Nona Campbell and Rafael Brunetto; "The Hours Creep on Apace," by Lillian Glaser; "Maiden Fair to See," by John Van; "He is an Englishman," by Robert Carlson and chorus; and "My Gallant Crew," by Rafael Brunetto and chorus, were encored several times.

A special word of commendation should be given to the clever "silent" comedy work of several members of the cast, including that of the British marine who attends the romances and goings of the First Lord of the Admiralty.

Between the two acts of Pinafore, a fashion show was staged by the firm of Mann, Sim and Mazor. Members of the cast acted as

## WOMAN, STRUCK DOWN BY AUTO, DIES OF HURTS

Driver of Car Arrested For Drunkenness, Charged With Manslaughter.

SAN FRANCISCO, Sept. 12.—Mrs. Ella Wilson of Santa Cruz, who was injured early yesterday morning, when an automobile operated by a drunken driver, leaped the curb and pinned her against a house at 1048 Bosworth street, in front of which she was standing with friends, died of her injuries at the San Francisco hospital today.

Injured in the same accident was Peter Miglin, sailor, U. S. S. Oklahoma, who suffered possible internal injuries and fractures of both legs, and Miss Dorothy LaThorpe, 1048 Bosworth street, cuts and bruises. The driver of the automobile was William Russell, 218 Staples street, a machinist, who was arrested on charges of driving while intoxicated and reckless driving. An additional charge of manslaughter was placed against him today.

### New Cereal Plant In Oakland Begun

The Wheat Treats company, capitalized at \$250,000, has filed incorporation papers with County Clerk George Gross. The papers state the company will have its principal place of business in Oakland for the manufacture and sale of cereals. Incorporators who have subscribed for one share each at \$10 a share are Edgar M. Hayes and W. G. McMurtry of San Leandro, Harold G. Towne, Oakland, and W. G. Grant and Oliver Ellisworth of Piedmont.

### 60 JOBS FOR CONVICTS.

GLASGOW.—Thomas Gray, a life convict freed from Peterhead prison for an act of heroism, has been offered 60 different positions, mannequins, and displayed the gorgeous styles of the commencing season to the fullest advantage. Ferris Hartman acted as "arbiter elegantiarum" in the presentation of the different fashions.—E. V. R.

## U. S. WAR ARBITER SAY BRAZILIANS

RIO JANEIRO, Sept. 12 (By the Associated Press).—"If the United States determines there shall be no more war, there will be no more war—as you are the most powerful nation in the world," Secretary of State Hughes was told by a committee of Brazilian senators and deputies, who called last night to salute him prior to his departure for home today.

Senator Alfredo Ellis, spokesman, added that Secretary Hughes was the "man behind the gun," who was best able to conserve the peace of the world.

"You have become known throughout the world," he continued, "as one of the advocates of peace in whose hands, perhaps, is the solution of that problem."

## FORD EMPLOYEES UNDER DRY RULE

DETROIT, Sept. 12.—The seventy thousand men employed by the Ford Motor company here were under orders from Henry Ford yesterday to leave all forms of liquor, wine and beer alone at all times under penalty of losing their jobs.

Asserting that drinking among certain of his employees recently had been the cause of accidents in the Ford plants, the manufacturer issued a statement declaring that any of his workmen whose breaths smelled of liquor, who were found to be carrying liquor or who were known to have it in their homes, would be dismissed at once.

## ELECTRIC MEN TOLD OF NEEDS

The problems of the building industry of today will be solved through cooperation between electrical dealers, contractors and the general public, R. M. Alford of the General Electric Company, San Francisco, told members of the Oakland Electric Club yesterday at their luncheon at the Hotel Oakland.

"The fact that the electrical industry serves every man, woman and child in the United States has proved an inspiration to the workers in the business," said Alford. "Where so many points are to be learned in one business it is a physical impossibility for one man to know it all. Cooperation, therefore, is not only desirable, but it is absolutely necessary."

"Since business is measured by profit and profit comes to those who give service, the successful business man must apply the measuring stick of service to every project he undertakes. For the success of any business depends on the satisfaction of the wants of the public, and the merchant must benefit the public before he benefits himself."

"It is in organizations similar to this that the spirit of cooperation is developed among business men today, and if your organization is to be a success it must be developed along the lines of cooperation, mutual helpfulness and the idea of giving the public better service."

"Any organization that lives up to these ideals cannot fail."

### Fire Captain Dies.

**17 Injured by Blaze**

BALTIMORE, Sept. 12.—Fire Captain George Lentz was killed and 17 other firemen suffered cuts and burns and possibly more serious injuries as the result of an explosion while they were fighting flames that broke out early today in the umbrella factory of William Beeher, Inc., 222 West Lexington street, in the heart of the business district.

Captain Lentz fell from the roof of the building. Fire officials said that a back draft caused the explosion.

The blaze was confined to the Beeher building and no damage was done to adjoining shops, except by smoke and water. Beeher estimated his loss at around \$50,000, covered by insurance.

## KIWANIS CLUB ENJOYS SCHOOL DAY'S PROGRAM

**Unique Method at Luncheon to Brush Up Members in Organization Lore.**

Members of the Oakland Kiwanis Club took a trip back to their boyhood days at their luncheon at the Hotel Oakland yesterday.

The feature of the meeting was a sketch presented under the direction of the student committee in which the members enacted the part of pupils in a village school. Six of the members, made up as youthful pupils, occupied regulation school desks in the front of the Blue Room, and H. J. Poswa took the part of school teacher.

Practically every member of the organization was called upon by the "teacher" to answer questions pertaining to Kiwanis. Upon failing to give the correct answer, they were forced to don paper dunce caps. The antics of the six scholars kept the clubmembers in an uproar.

They were Fred Kistemann, J. E. Smith, Howard Gilkey, F. T. Kennedy, Ollie Smedgar and Ramsey Probasco.

### WARNED AGAINST IMPOSTERS

Immediately following the luncheon Allan C. Hibbard, president, read a letter received from the international secretary, warning various clubs against a "Major" Bruce Grant, who, posing as a war hero, lecturer and writer, has been appearing before many eastern organizations such as Kiwanis and Rotary clubs. The man, according to the letter, is an impostor and is wanted by the police in Pennsylvania.

Another letter from the West Oakland home, was read by Hibbard, thanking the organization for the recent circus party given for the homeless children. The children were taken to the circus by Allan King as his guests.

Before adjournment President Hibbard called the members' attention to an article by Vere W. Hunter, which appeared in this week's issue of the "O. K. News," the club's organ, under the caption "What Kiwanis Means to Me."

### PURPOSE OF KIWANIS.

The article follows: "Kiwanis is an instrumentality by means of which Kiwanians may achieve a fine philosophy of living. Through a social contact free from prejudice and animated by a sincere desire to observe primarily only the best in his fellows, thereby by often discovering latent abilities, Kiwanis builds an esprit de corps which becomes a social, civic and moral force."

"Because of the dominant thought of service in their great Kiwanians are forced into helpful activities and urged into leadership which might not otherwise be theirs."

"Kiwanis influence broadens character, increases capacity for friendship and nurtures a progressive ability for social contact with all men. Thus the Kiwanian becomes a real co-operator with his fellows who strive for betterment. He becomes alert to the possibilities of good citizenship and a proper Americanism."

## Bootlegger Devours Evidence in Arrest

LONG BEACH, Sept. 12.—Robert Fulton, taken into custody as an alleged bootlegger, chewed and swallowed a \$20 bill which the police said they had marked before giving it to their prisoner in payment for liquor.

"It didn't taste half bad!" said Fulton.

### RADIO BETRAYS PHONES.

LONDON.—A peculiarity noted by many radio users is the fact that they hear telephone conversations carried on by their neighbors.

## PAIR FOUND TIED BY AUTO BANDITS

LOS ANGELES, Sept. 12.—Early morning pedestrians found Jose Garcia and K. Andrada tied, unconscious, to telephone poles at Broadway and Sunset boulevard. When they were revived, they told the police two automobiles

bandits had held them up and robbed Andrada of \$160. Garcia demurred at giving up his money and the four engaged in a fight, the bandits knocking their victims unconscious with revolver butts.

## Two Bandits Shot in Robbery Attempt

TOLEDO, O., Sept. 12.—Two bandits were shot, both probably fatally by Joseph Wagner, 32, a decorator, early today. Wagner met the bandits as they were beating and robbing a neighbor.

## Auto Wreck Victims Improving Slowly

GALT, Sept. 12.—Beatrice Orr and Gordon Lewin, who were dangerously injured in the auto accident which resulted in the death of Pio Lippi, near McConnell's station a week ago, are slowly improving, according to hospital reports, and will be removed to their respective homes as soon as their conditions will permit. Miss Orr was taken to Elk Grove for treatment and Lewin was taken to a Sacramento hospital. At first it was believed both had been fatally injured.

## Brunswick-Stratford Model

DESIGNED BY DAVID ZORK

Here is shown the most chastely beautiful model of a phonograph yet created, and one that has met the highest approval and the instant acceptance of every critic of period art and furnishings.

So distinctly individual is its beauty that it becomes a thing apart in the home furnishing, yet it blends perfectly with the assembled whole—made in beautifully figured walnut and English brown mahogany.

Being Brunswick, the Stratford will of course delight in the beauty and splendid volume of its tone, for it is tone really that has made the Brunswick the most desired of all phonographs. Then, too, it plays at their best all records, no matter what artist or manufacturer. Price, \$310.00 electric, \$340.00.

**\$1,000,000 Oregon Lumber Plant Burns**  
ASTORIA, Ore., Sept. 12.—The mill and kilns of the Hammond Lumber Company here were destroyed by fire last night, entailing a loss of about \$1,000,000, according to preliminary estimates of the damage. More than 500 men with 3000 tons of lumber were thrown out of work. In addition to the mill and kilns, a power plant, an elevated tramway and loading docks were burned besides a large amount of cut lumber. The fire originated in a heated box in the main edger.

Mexico City and Moscow are about the same size in population.

**PACIFIC'S SIZE AND BEACH GIRLS AWE AGED INDIAN**  
MUSKOGEE, Okla., Sept. 12.—Jackson Barnett, aged wealthy Indian, returned home today with his wife and step-daughter from a six weeks' tour of the west with the comment that the Pacific ocean was a "pretty big river." Of the Grand Canyon he didn't think so much because he could see the other side. Barnett said he enjoyed watching the bathing beauties on California beaches. He visited some of the movie studios on the coast and boasted of smiles elicited from famous stars.

**San Jose Council Holds Short Session**  
SAN JOSE, Sept. 12.—It took San Jose's city council just 25 minutes last night to complete its weekly session. Disposal of a number of resolutions covering street improvement matters heretofore announced, reading of the report of the city auditor and city health officer, and granting of auto stage permits to S. H. Dunbar, Paul Manley and Sam Maderis was carried out in rapid order. The meeting had concluded by 25 minutes to nine.

The American Bible society last year distributed 4,855,464 Bibles.

**English Flapper Smokes Openly**  
She likes her jag and she doesn't care who knows it. Smoking among the women of England has become so universal that it is done openly and Mrs. Grundy turns her eyes and doesn't say a word. Here is an English flapper, with her boy's haircut and her brother's cigarette holder, watching the regatta at Sunbury, England. (Keystone View Co.)

## GIRL SAVES TWO IN RECTORY FIRE

SAN FRANCISCO, Sept. 12.—Quick thinking and courage on the part of Miss Olive Crandale late last night saved the lives of the Rev. W. W. Jennings, rector of St. Luke's Episcopal church, and his two sons, Dean, 17, and Wardell, 14, when the church rectory caught fire.

Miss Crandale, a relative of the family living at the rectory, awoke and found her room filled with smoke. Hastily throwing on a garment she groped her way to the room of the older boy and awakened and led him out of the house. Then the young woman awakened and led to safety the minister and his younger son.

Mrs. Jennings was not home, as she is on her way to San Francisco from the East. The fire damaged the roof and furnishings of the rectory.

Two other Pacific avenue homes were damaged from the fire, which is believed to have originated from a defective flue. The flames leaped to the home of Judge Jeremiah Sullivan at 2007 Pacific avenue, and the home of Mrs. Francis Shaw, 2015 Pacific avenue.

The damage is roughly estimated at \$12,000, most of which is suffered by Rev. Jennings. His home is at 3008 Pacific avenue.

**Auto Company Sells Out Year in Advance**

CLEVELAND, Sept. 12.—Within twenty-four hours after announcing the new models, a local truck and motor company had closed all sales for one year, with orders sufficient to keep the plant at capacity production for that period, the company announced.

Importations of Scottish tweeds to the United States is increasing.

## Dogs Lead to Body of Baby in River

WICHITA, Kans., Sept. 12.—Two dogs led searchers to the body of Herbert Oldfield, two and a half years old, who had drowned in Chisholm river, north of the city late yesterday. The child had been missing since noon and a search of several hours failed to find him. The two dogs led the searchers to the creek where the small boy had wandered, and to the spot where the body had lodged under the bank.

## CAR WORKERS HURT

## Can You Answer This Movie Puzzle?

On the Movie Screen above are the names of 10 Popular Movie Stars, rearranged topey-turpy. The operator played a joke on the audience and you'll admit it was a good one.

To solve the puzzle, and puzzle it is, rearrange the peculiar sentences on the screen so as to correctly spell each star's name. For example, No. 10 is Charlie Chaplin. You know him. If you can name all 10 Stars correctly you can win the \$1,000 or an Oakland Touring Car.

You most likely know the names of the most popular Stars, but just to refresh your mind we are mentioning a few of them—Constance Talmadge, Otis Skinner, Buster Keaton, Anita Stewart, Charles Ray, Mary Pickford, Charlie Chaplin, Helen Chadwick, Thomas Meighan, Pearl White, Warner Oland, Beverly Bayne, Ralph Ince, Wallace Reid and Dorothy Dorn.

## 185 "POINTS" WINS FIRST PRIZE

For each name you arrange correctly you will receive 10 "Points" toward the Oakland Touring Car or the \$1,000 in cash, or you will receive 100 "Points" if you arrange all 10 names correctly. You can gain 60 more "Points" by Qualifying your answer. That is, by proving that you have boosted the Big Magazine, FRUIT, GARDEN AND HOME to five people. The final 25 "Points" will be awarded by 3 Judges, whose decision will be absolutely fair and is to be taken as final and without question, to the person making up the largest list of correct words from the name of the 10th Movie Actor listed on the screen above—CHARLIE CHAPLIN. It's easy! Can you make out 10-20-30 words like, are-lie-car-pie-hall, etc.? Send in your list of words right away with the names of the 10 Movie Stars. RULES—Number each word, and in making up your list, don't use proper names, abbreviations, prefixes and suffixes, or obsolete and archaic words. Webster's Dictionary will be used as Final Authority. Use each letter only as many times as it appears. For example: There are 2 a's, therefore "a" may be used 2 times if necessary in forming a word. The answer gaining 185 "Points" (which is the maximum), will win the Oakland or the \$1,000. In case of a tie, all tying contestants will receive a prize identical to the same as the prize tied for. Send in your answer TODAY. As soon as it is received, we will send you a FREE circular telling you all about the Big New Magazine, FRUIT, GARDEN AND HOME, to assist you in qualifying.

## COSTS NOTHING TO TRY

You will not be asked to subscribe to FRUIT, GARDEN AND HOME, nor to spend a penny in order to win. Just write your answer to the Puzzle on one side of the sheet of paper and PRINT your name and address on the upper right hand corner. Send in your list of words with your solution before October 10th, the Final Day. Do your best and you can win. Answer the Puzzle NOW.

## PACIFIC COAST EMPLOYMENT FOUND NORMAL

### U. S. Official Reports Labor Conditions Favorable in Three States.

SAN FRANCISCO, Sept. 12.—Normal employment conditions throughout the Pacific coast are noted by J. A. Kelly, San Francisco, district director of the employment service of the United States Department of Labor, in his report for the month of August. Although there is a slight general surplus of clerical help, according to Kelly, demand for experienced agricultural, lumber and building workers exceeds the supply.

An abstract of Kelly's report on conditions in California, Oregon and Washington follows:

"California—All branches of industry, excepting iron and steel and railroad repairs at normal or above. Demand for agricultural workers and fruit pickers has abated at various points. Canneries are operating to capacity and affording considerable employment to female workers.

"Oregon—Employment conditions have reached normal. Fishing, berry picking, canning, lumbering, logging, construction and manufacturing are at high tide, demanding all surplus labor. A number of new industrial plants have been completed and more in course of erection. Prune and hop harvest will demand more help than the local supply.

"Washington—Shortage of labor exists, to a limited extent, in coast lumber camps, harvest fields, agricultural pursuits, building trades and in Alaska. There is a surplus of clerical help. Forest fires and transportation have caused temporary suspension in several logging camps. Construction of highways, municipal improvements and dock facilities continues. All industries are practically normal. The fruit sections will require hundreds of outside workers, beginning the middle of September."

### Osaka Called Most Expensive City

OSAKA, Japan, Sept. 12.—Osaka, the industrial capital of Japan, has the reputation of being the most expensive city of the empire in which to live. The prices of commodities in Osaka in June averaged 8.2 per cent over the same month last year. Tokyo the next expensive city, averaged 6.8 per cent. The general advance in prices in ten years has been 150.39 per cent in Osaka and 130.34 per cent in Tokyo, according to official figures.

### College Women to Hear Rug Expert

BERKELEY, Sept. 12.—Members of the College Women's Club will gather at the clubhouse, Bancroft Way and College Avenue, at 7:45 o'clock tonight, to listen to a talk on Oriental rugs to be given by M. Y. Parnay, an expert and collector. A number of handsome specimens of the rug weaving art will be exhibited, and their characteristics brought to notice.

Tomorrow the international relations section of the College Women's club will meet with the leader, Miss Henrietta Thomson, at the foreign foyer at the Y. W. C. A. on Allston Way and Union Street at 10 o'clock in the morning. This year the section is studying various foreign countries from the viewpoint of American leadership and possible results of participation.

### German Girls Sold to Foreign Ships

BERLIN, Sept. 12.—It has come to the knowledge of the Hamburg police that girls, mostly thirteen to fifteen years old, are being smuggled on board ships by foreign sailors and by the most alluring promises are persuaded to leave their native country to go to South America, where they fall an easy prey to South American agents and are practically sold for immoral purposes, it is declared.

The police in many cases also ascertained that the parents of these victims, driven to despair by the food price panic, not only knew of such things going on, but even used threats on their own children to make them go and haunt the sailors' bars in the vicinity of the harbor.

### Telegraphers Steal Whole Phone System

BERLIN, Sept. 12.—The Vienna-Budapest telephone wire has been stolen piecemeal within two weeks. Here and there the wire was repaired as being out of commission, and finally the last bit of it was stolen by two men, said to be telegraph operators themselves. They took a section of some forty kilometers in length. The damage is estimated at about 1,000,000 Hungarian kronen.

### Child Held 8 Years As Security for Loan

PARIS, Sept. 12.—Ten-year-old Marcelle Heyman, who was only a baby when the war began, has gone to Germany to join her parents, after a separation of eight years. The Heymans borrowed \$1,000 from a family named Demange in 1914, and left the baby as security, going to Berlin. Unable to repay the loan, they finally appealed to the German embassy here. M. Demange consented to the girl's departure when threatened with arrest.

## RICHMOND

### Playground Board Holds First Session

RICHMOND, Sept. 12.—The committee appointed by the city council last week for planning public parks and playgrounds had its first session yesterday in the office of John A. Miller, chairman. Mrs. S. Ripley acted as secretary.

### I.O.O.F. to Take Part in Picnic

RICHMOND, Sept. 12.—Thomas Board, N. Ellison and M. Ellison were invested with initiation degrees at last night's session of Eclipse Lodge No. 403, I. O. O. F., in Bank hall.

### Club Hears Talk on Water, Power Act

RICHMOND, Sept. 12.—The Richmond Women's Club was addressed briefly yesterday afternoon by William J. Locke, city attorney of Alameda, on the Water and Power Act. A luncheon was served at 1 o'clock, after which the members told their vacation experiences.

### Four Arrested in Two Liquor Raids

RICHMOND, Sept. 12.—Four arrests were made as the result of two raids by federal dry agents late last night along San Pablo avenue. In each case liquor was confiscated.

### Juveniles Conduct Initiation Rites

RICHMOND, Sept. 12.—Three candidates were initiated last night by the Fraternal Brotherhood of Juveniles in Musicians' hall. The ceremonies were presided over by Miss Dolores Bates. Refreshments were served.

### Police Fines Reach \$397.50 in Month

RICHMOND, Sept. 12.—Police Judge C. A. Odell reported \$397.50 collected in fines during the past month, as filed last night with the city council. There were 47 cases, with 23 still pending.

The soft drink permit of John Perrone, 27 Washington avenue, was transferred to A. Compagne, by action of the city council last night.

## CHARTER CHANGE PETITION FAILS

RICHMOND, Sept. 12.—Because the petition asking that amendments to the charter be submitted to the people of Richmond lacked more than a hundred signatures of the total required by law there will be no amendments to the city charter for the next two years.

At the city council meeting last night Council Clerk Jasper Wells stated that the number of signatures to the petition was not sufficient to bring it before the voters at the next election.

The proposed amendments were backed by many citizens of Richmond who wished a reduction in the number of councilmen from 9 to 5, fixing the salary of the councilman at \$200 per month and the mayor at \$300. Had the change been made this city would have had a council devoting all its time to the city's business.

### Wedding Anniversary Celebrated by Party

RICHMOND, Sept. 12.—Friends of Mr. and Mrs. Ernest H. Howard tendered the couple a surprise party on their ninth wedding anniversary Friday evening at their home on Bay View avenue. Those present included Mr. and Mrs. Al Blomquist, Mr. and Mrs. Robert H. Kinney, Mr. and Mrs. Clyde Parker, Mr. and Mrs. A. E. McGee, Mr. and Mrs. Sam Simpson, Mr. and Mrs. H. Christiansen, Clyde Parker Jr., Elmer McGee, Donald Christiansen and Mr. and Mrs. Ernest Howard.

### Sunday School Head to Tell Mount Trip

RICHMOND, Sept. 12.—A. H. Poage, superintendent of the Sunday school at the First Presbyterian church, will talk tonight before the Men's Bible Class on his recent trip to the summit of Mt. Whitney. The program will be preceded by a brief business session starting at 7:45.

### Pigeon Discussion Held by Producers

RICHMOND, Sept. 12.—A discussion of pigeons was the feature of last night's session of the Richmond Poultry Producers' Association. W. L. DeLong, expert on pigeon raising, told the members how to handle pigeons intensively for profit.

### Council Favors Bridge at Antioch

RICHMOND, Sept. 12.—The city council went on record last night in favor of the construction of a bridge across the San Joaquin and Sacramento rivers near Antioch to connect Contra Costa county with the northern part of the state. Councilman W. L. Lane presented the resolution in which the council urges upon the state the desirability of providing for construction of the bridge in its next budget.

### Official of Schools Speaker at Meeting

RICHMOND, Sept. 12.—Superintendent H. B. Wilson of Berkeley schools will be the speaker of the evening at tonight's session of the Lincoln Parent-Teachers' Association in the school auditorium. A musical program including numbers by Miss Lesta Andrews and Kenneth Hall has been arranged by a committee consisting of Mrs. W. T. Helms and Mrs. A. B. Ledgerwood.

### Stolen Auto Found

RICHMOND, Sept. 12.—The Richmond police found an abandoned Hayes car at Twenty-third street, near the high school early today. Investigation showed that the car belonged to D. J. Shell of 2525 Adeline street, Berkeley.

### Santa Clara Central Committee Meets

SAN JOSE, Sept. 12.—Members of the Santa Clara County Republican Central committee, elected at the primary election, August 29, are meeting in Department 11 of the local superior court today for the purpose of organizing for the coming year.

A check for \$5000, any amount or all of it to be wagered on the belief that the Wright prohibition enforcement bill will be defeated at the polls next November, was left in the care of the Hotel St. James barber shop last night. There had been no takers this morning, although it had not been known the money was on hand.

## BETROTHAL ENDS, FEUD IS ON AGAIN

(By International News Service) BERLIN, Sept. 10.—For more than a century a furious vendetta has raged at the small Corsican village of Olivesse, near Ajaccio, between the families of Paoletti and Sarti.

About seventy men, twenty women and even several children have been killed within the last fifty years in this family feud. When recently there seemed to come about a peaceful settlement of the strife at the announcement of the engagement of a sixteen-year-old girl of the Paoletti and a youth of twenty of the Sarti, the latter family suddenly declared that the girl had flirted with some other boys of the village. A heated discussion followed this charge, during which old Sarti stabbed Paoletti to death. The family members joined the fight, and three men were killed and four severely wounded.

### FREE BERRIES ARE OFFERED BY FARMER

(By International News Service) YOUNGSTOWN, Ohio, Sept. 12.—The editor of a local newspaper is in receipt of the following communication from W. M. Woodworth, Cortland, Ohio:

Dear Sir: Will you kindly inform the people of your city that blackberries are free for the picking on our farm? We are located between Cortland and Johnston on what is known as the "Woodworth Farm."

My wife and I are too old to pick these berries, and we hate to see them go to waste when other people might enjoy them. There are over two hundred bushes of berries in the patch.

"Tell your readers to come out and make a day of it. We have a cool spring and some nice shade trees. Tell them to bring the kids, and we will put up a swing in the orchard for them. Also, they can get good apples if they like."

"Last year we gave away over two hundred bushes of berries."

S. F. OPENS NEW THEATER. SAN FRANCISCO, Sept. 12.—San Francisco's newest theater, the Schubert-Curran, on Geary street, was opened to the public last night. The theater, which has just been completed, will seat 1000 people.

### Delay Met in Bond Vote For School

NILES, Sept. 12.—Delay has been encountered in the proposed bond election for the new high school building, according to an announcement by A. T. Biddle, of Newark, secretary of the high school board. Word was received from the district attorney, says the report, that there is some question regarding whether or not the Sunol district is a part of the Washington Union High School district. It is impossible to determine the boundaries of the high school district, and so it will be necessary for an election to be held to see if the Sunol district wishes to be a part of the Washington district.

The report from the district attorney's office stated that as Superintendent of Schools Martin is confined to his home on account of illness that no action can be taken at the present time, but that the matter will be taken up at once when he returns to his office.

### Minister Injured Baptizing Chinese

PHILADELPHIA, Pa., Sept. 15.—George E. Nichols, of the First Baptist church of this city, is in the hospital as the result of baptizing several Chinese members of his congregation.

The Baptist ceremony of total immersion in water was being performed without the aid of an interpreter. The largest of the Chinese, not quite understanding what was required of him, became frightened as Dr. Nichols grasped him to put him into the water and collapsed, grabbing at the clergyman.

In saving the frightened man from a bad fall, Dr. Nichols tore a ligament in his back.

## BANDITS IN AUTO VICTIMIZE THREE S. F. PEDESTRIANS

Holdup Quartet Forces Man  
to Enter Car and Sur-  
render \$140.

SAN FRANCISCO, Sept. 12.—Four automobile bandits operating in what is believed to be a stolen car accomplished three holdups early this morning in different parts of the city.

The first victim was Walter Tyler of 1277 Geary street, who encountered the holdup car at Geary and Van Ness avenue. At the point of revolvers the bandits forced him to board their car, driving him for several blocks and robbing him of \$140. The next appearance of the bandits was at Ellis and Jones, where they held up and robbed of a small quantity of money, Hugo Wenzel, whose address was not learned by the police. The third holdup was at

Twentieth and Sanchez streets, where the bandits robbed John Harrigan, 1571 Sanchez street, taking a small quantity of money. None of the three victims had been able to get the license number of the car.

### Library Benefit at Theater Considered

ALAMEDA, Sept. 12.—The Parent-Teachers association of the Longfellow, Mastick and Washington schools are planning to hold a big theater party in aid of the new west end public library. The party will take place in Neptune Palace theater early in October. The committee making the arrangements consists of Mrs. V. N. Strang, Mrs. Edward Langren, Mrs. Frank Wilbur, Mrs. Edward Babue, Mrs. Fredrick Tardiff, Mrs. A. T. Spence and Mrs. W. H. Hopps.

It is expected that the new library will be ready for the dedicatory exercises by October 1. It is the outgrowth of a long continuing campaign carried out by the various clubs in the west end of the city to secure a new branch library.

ENGINEERS IN SESSION.  
DES MOINES, Ia., Sept. 12.—Governor Kendall addressed the first business session of the 40th annual convention of the National Association of Stationary Engineers here today. Nearly a thousand delegates were here.

## FLAMES SWEEP MADERA FORESTS AFTER MILL FIRE

Eight Blazes Reported, With  
Loss Estimated at More  
Than \$4,000,000.

FRESNO, Sept. 12.—Following the disastrous fire Saturday night which laid waste the mill and camp of the Madera Sugar Pine Company and spread to adjacent forests, causing damages estimated at more than \$2,000,000, eight other blazes have occurred, according to reports reaching the Fresno Morning Republican last night. Estimates of the total loss have been placed by lumber men at more than \$4,000,000.

The forest fires reported are in Madera and Mariposa counties, and five are within the Sierra national forest. Reports reaching Fresno last night said that more than 1000 acres had been burned over and that 100 men were now fighting the flames, some of them recruited

from Camp 2 of the Southern California Edison company.

Kaiser Kluge, 30 miles east of Big Creek, is said to be the center of a forest fire which started Saturday night. Six hundred acres had been burned over, according to reports received tonight.

Another fire started at Camp 10 of the Edison company today. This blaze was small and was reported to be under control. Three other fires were reported by the ranger lookout in the Mariposa section, outside the national forest area. One of these was reported at Mount Bullion, a second in Happy valley and a third on Bear creek.

### New Racing Skiff Christened With Wine

ALAMEDA, Sept. 5.—The new racing and single trigger training skiff of the Alameda Boat Club was launched and christened yesterday at the club headquarters on the estuary. Real wine was used in the christening, which was participated in by an official committee composed of Al Brampton, president of the club; David Patrick, treasurer; Fred Waegel, William Coffrey and Vincent Mahan.

The new skiff, for which the club has been waiting for several months before launching into a program of activities, was christened "Dynamite," and will participate in all the races held in the bay region.

With the arrival of the boat from the builders new interest in the club is looked forward to.

## RECORD MADE FOR HOME BUILDING DURING AUGUST

Figures On Water Connections Show Activity in  
Residence Districts.

New records for home building in Oakland were established during August, according to figures for new water service connections compiled by the East Bay Water company. It was announced by officials of the company today.

During the month more than 500 new connections were made in Oakland alone. In the entire East-bay district, connections for the month will range between 800 and 1000 services.

The district of the city, including Dimond, Hopkins and the Thirtieth avenue sections, led all other districts of the city with a total of 80 new connections. The district between Fifty-sixth and One Hundredth avenues and East, Fourteenth street and the Boulevard was second with 68 services. Piedmont was third with 64 new connections, and the Fitchburg and Elmhurst district fourth with 52. The Fruitvale and Melrose district recorded 38 new services. The section of Oakland lying east of the lake is leading in other parts of the city in rapid growth the figures of water service installations show.

Each new service connection represents a new structure, officials of the company state.

## Feed Shortage Looks Serious to Experts

LOS ANGELES, Sept. 12.—Shortage of feed faces the dairymen of this district and the entire west side, and may have a serious effect on

many dairies. The hay crop is below normal and prices are moving upward. Authorities believe that it will bring \$40 a ton before the new crops come in next spring. B. H. Rawl, producing expert for the California Central Creameries, who

has been here looking over the situation, states that his company intends to make a personal canvass of their patrons, with a view to ascertaining their condition. A meeting of the farm center will be held Thursday night to consider the matter.

## CANDIDATES OF ILLINOIS PLACE SELVES AS "WET"

CHICAGO, Sept. 11.—About one-third of the candidates in Illinois for Congress have announced their attitude toward prohibition. Of those, fourteen declared themselves "wet," seven dry, and five said that prohibition was not an issue in their districts. The other candidates have not announced their position thus far.

Of the candidates declaring themselves wet, three were Republicans, four Democrats, four Socialists, and three represented the Farmer-Labor party. Of the drys, two were Republicans, two Democrats, one a Socialist, and two Farmer-Labor men. Three Republicans and two Democrats said there was no liquor issue in their districts.

Of the thirty-seven candidates in the ten Chicago districts and the four Chicago candidates for representative at large, twelve have announced their positions, eleven declaring themselves wet. The twelfth, James M. Cahill, Farmer-Laborite in the Eighth district, declared for enforcement of the Eighteenth amendment but suggested that the amendment might be modified to some extent "to remove the feeling that it is an infringement upon personal liberty."

## Scenes at Ill-fated Argonaut Mine

The upper picture shows one of the levels in the Argonaut mine at Jackson, where 47 miners have been entombed for more than two weeks. This picture will give some idea of the hardships under which the rescue crews must work. At the left are shown the gigantic timbers used in the drifts. The rescuers must cut their way through many feet of rock and timbers, such as shown in this photograph. The rods standing against the rock walls are drills. Below, family of one of the trapped miners. MRS. VIRGINIA GIORZA and her children, (left to right), Mary, 10 years old; Mildred, 6; Annie, 4; Louis, 14, and Madlyn, aged 2 years.

## RELIEF PLEDGED MINE VICTIMS BY PARLOR HERE

Joint Committee of Native Sons and Daughters Offers Aid in Tragedy.

A resolution of condolence to the families of the miners who are entombed in the Argonaut mine at Jackson, and commending the work of the rescue shifts digging for them, passed at a recent meeting of the Alameda County Joint Committee, Native Sons and Daughters of the Golden West, has been sent to the scene of the disaster.

The resolution was addressed to the people of Alameda county, and the Alameda County Parlor, Native Sons and Daughters of the Golden West, and follows:

"Whereas, a great calamity has happened in your county, in one of the great mines of California, the state that has the most historic mines and is the most historic mining state in the Union.

"And, whereas, many miners are today entombed in the bowels of our great state, many of them men of family, whose wives and children are anxiously awaiting their rescue from a living tomb.

"And, whereas, some are good citizens from other states, some members of the Order of the Native Sons of the Golden West, born in our beloved state, and others who are not as yet citizens but who, we know, are ready and anxious to become good Americans.

"And, whereas, the Order of the Native Sons and Daughters believe in the equality of man and do all they can for humanity and want to avoid a state blemish to its mining industry.

"Therefore be it resolved, that in a meeting assembled in Judge Smith's court room in the Oakland city hall, the Alameda County Joint September 9th Committee of the Native Sons and Native Daughters, representing the Alameda County Parlor, deplore the accident in the manner that our forefathers did in the days of '49, the days of the original pioneer miners, when such things happened.

"And be it further resolved, that we commend the prompt action and work and untiring efforts of those who are leaving no stone unturned to free the imprisoned miners and place them again among their loved ones.

"And be it further resolved, that this committee of Native Sons and Daughters will assist if necessary, and sympathize with the families and friends of the imprisoned miners and trust that they will soon be with them again, safe and sound.

"And be it further resolved, that the Alameda County Native Sons and Daughters if called upon to assist in any way, stand ready to do their part for the love they bear their fellow man and his loved ones and the State of California."

It was signed by Nicholas Meinert, James J. Dignan, James Cronin, N. C. Bazeley, L. Rawley, R. Townsend, Augustus Fuxsod, Carmelita Lühr, Anna Quinn, M. Stambaugh and Frances McGovern.

### POLICE QUIZ CLOSED.

Civil service examinations for patrolmen on the Oakland force were finished yesterday evening by the civil service board, which examined 36 candidates for the fifteen jobs now open. The results of the examinations will be known in about two weeks.

## Glacier, Thought 'Dead,' Come to Life, Routs Trio

GLACIER PARK, Mont., Sept. 12.—Investigation of a supposedly "dead" glacier by three University of Minnesota geological students was halted abruptly when the glacier came to life and chased the trio out of camp, the young men explained when they reached Glacier Park station.

The three students—Elton Williamson, Minneapolis; Charles Andrews, Pine City, Minn., and Harold Larson, Superior, Wis.—had been in Glacier National Park three weeks making notes on the geological formation, September 3 they began to study the famous Heaven's Peak glacier, pitching their camp fifty feet from the end of the ice wall.

On the night of September 6 they were awakened by a dull rumbling that seemed to pervade the entire ice field. With day light they discovered a widening crack some two hundred feet back on the glacier, and noted that the wall of ice was slowly advancing on their camp.

They hurriedly salvaged their provisions and tent, moving them a quarter of a mile west, out of the path of the glacier. Half an hour later the ice flow had descended on what remained of their camp. It moved about 200 feet down the valley, they said, advancing about one foot a minute, then halted.

## Street Crew Rushes to Halt Forest Fire

Beating the fire department by many minutes, a force of street department laborers left the city hall yesterday evening in a fast automobile and extinguished a fire in Shepard's Canyon which threatened the upper Park boulevard residence district and all the brushy tracts under the Skyline boulevard extension.

The alarm was sent to the street department by the forest ranger, who discovered the fire. The fire department never knew about it for a long time afterward. The street department unhooked the fire-fighting apparatus placed by the state on the mountain boulevards, and finally suppressed the fire after a long struggle. The cause of the blaze is unknown.

The fire was discovered at 4:30 p. m. and extinguished within an hour.

## Suit to Condemn Land For New Street Filed

Suit has been filed by the City of Oakland against Theodore Gier and nineteen other persons and corporations to condemn land for the opening and extension of Hobart street between Broadway and Webster. The strip of land involved is 60 feet wide and two blocks long. It contains four two-story buildings and several old residences and barns.

The condemnation proceedings will, it was pointed out today, provide a cross-town thoroughfare from San Pablo avenue to Lake Merritt, and will stimulate building activities in that vicinity.

## TO PRESS BUNCO CASES.

DENVER, Colo., Sept. 12.—By unanimous vote the Denver city council last night appropriated \$15,000 to defray cost of prosecuting approximately thirty members of an alleged confidence ring arrested in a raid executed recently by District Attorney Philip Van Cise, aided by state rangers. The rangers are accused of having freed residents of various sections of the United States through the operation of a bogus stock exchange and by other means.

## GIRLS' PLAY DAY AT PARK PLANNED

A play day and picnic at Moorwood Park is announced for Saturday by the Industrial Athletic Association of Greater Oakland and the Girls' Auxiliary. A parade staged by the various industrial plants of the city, a girls' volleyball tournament, impromptu races and stunts will be programmed. The celebration is under the auspices of the Oakland Recreation Department. Entries are being received in volleyball, basket ball, indoor baseball, quads, dart throwing, wrestling, boxing, tug of war, races and duck plns.

The general committee in charge of the sports includes: Van E. Britton, Pearl Boscoe, W. A. Kearns, Miss Minnetta Brodke. Sub-committees are: Volley ball, Walter Miller, Edna Rondelle, Pearl Boscoe, Parr, R. L. Campbell, Loretta Reed, Harvey Ward, Maude E. Fox, Games and stunts, H. E. Kravynvuh, W. A. Kearns, Theo. Hoffman, Elva L. Lupton.

The season of recreation activities offered by the Recreation Department for women in the various industrial plants will open formally on Friday. Trained directors are in charge of all noon and evening activities which include basket and volleyball, tennis, games, swimming, group dancing, social dancing, dramatics, rowing and hiking.

## TURN HAIR DARK WITH SAGE TEA

If Mixed with Sulphur It Darkens So Naturally Nobody Can Tell.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delight the ladies win Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications it also produces that soft lustre and appearance of abundance, which is so attractive.

## America Leaving Europe Behind in Drift Westward?

LONDON, Sept. 12 (By the Associated Press)—Is the American continent drifting westward and slowly leaving Europe behind? It is, if the theory propounded to the savants of the British Association at Hull by the German geologist Wegener is correct.

Dr. Wegener declares that the various continents originally were joined at the poles, but that now they are slowly drifting away from the poles and from east to west. America is moving westward faster than Europe, he said, and Greenland still faster than America. He added that this movement had been proven by experiments at observatories in Europe and at Washington.

In the discussion which followed, Professor Turner of Oxford said there was no astronomical observation worthy of serious consideration in support of Wegener's theory.

## Theatrical Lodge Installs Officers

Officers took over their new duties at the installation meeting of Oakland Lodge No. 26, Theatrical Mutual Association, last night in Woodmen's hall, Pacific building. H. H. Colombel installed the following officers:

B. F. Govan, president; B. C. Taylor, vice-president; B. Cohen, past president; William Daul, corresponding and recording secretary; C. P. Brown, treasurer; M. Thomas, chaplain; W. G. Sundin, marshal; F. C. Casey, financial secretary; Dr. John Purges, physician; James B. Perry, sergeant-at-arms.

**WOMEN SAVED FROM FIRE.**  
SAN FRANCISCO, Sept. 12.—Mrs. Minnie Denucci and her daughter, Erma, were overcome by smoke and had to be carried from the building by firemen, in a fire that late yesterday partially destroyed a six flat building at 1075 Pacific street. Damage was estimated at \$20,000.

## GREASE SPOTS ALMOST SPOIL WEEK END

"Aha! There you are. I called at your front door but your wife told me I'd find you in the garage. I thought I'd find you fixing the car or something. What are you doing anyway?"

"Why hello, Tom. I'm trying to get some of the grease spots out of this suit. I darn near ruined it last Sunday when I had to crawl under the car and do some work on the old pils. It is the best I have, too. Goodness knows when I'll get another one. We are invited out this week-end and the wife will not go if I don't get this suit cleaned up. She wants me to get a new one, but I can't afford it. This is so dirty I'll never get it clean. I know, so we may have to give up our week-end trip."

"Don't miss an invitation for dinner all on account of a suit of clothes. Why I know a place where you can get a suit of clothes on credit. The latest styles, too."

"Where is this place, Tom? I'm interested."

"Oh, it's Cherry's at 528 18th Street. They are very accommodating about payments. In fact, they give one as long as six months to pay the balance."

Cherry's store for women is at 515-19th Street.—Advertisement.

Would you pay a little extra to get it in your coffee?

Suppose you don't have to.

## Alameda Burglar's Loot Near \$2000

ALAMEDA, Sept. 12.—A burglar operating in Alameda has stolen between \$1500 and \$2000 within the last week. His latest visit occurred yesterday afternoon while the family of R. D. Peterson, 222 Haight avenue, was attending a funeral in Oakland. Jewelry valued at \$842 and \$10 in cash was secured.  
The home of Frank Bruzzone, 241 Bay Vista avenue, was entered the night previously and more than \$600 worth of jewelry and valuables stolen. Previous to that several other homes were entered, the loot amounting to a couple of hundred dollars in each case. From the manner in which the burglar is working the police are of the opinion that he is an old hand at the game.

## FIRE BURNS OVER 5000-ACRE AREA IN NAPA COUNTY

Fighters Under Direction of Sheriff Check Flames After Forty Hours.

NAPA, Sept. 12.—After battling for more than forty hours with the brush fire that has been raging for the last few days in the Chiles valley section in Upper Napa county and threatening to destroy homes and other buildings, Sheriff Joseph Harris, who as fire warden of Napa county has been directing the fire-fighting activities, today reported the fire under control.

The fire swept a triangular section covering approximately 5000 acres, and lying across Sage canyon, Chiles valley road and Chiles canyon road, eating up the dry timber, grass and brush in its path.

Friday evening a light rain fanned the flames toward the Tom Jackson ranch in Chiles valley and it was only by hard work on the part of volunteer fire-fighters that the house and out-buildings were saved.

The men checked the fire at this point by the back-firing process. Despite the large area swept by the flames the damage was not great, as little timber was destroyed, the fire lapping up mostly pasture and brush.

Fire Warden Harris enlisted the aid of forty men to help him conquer the fire. He left a number of men at the scene to stamp out smoldering timber today. The cause of the fire was not determined, despite a rigid investigation by Warden Harris.

**Court Fixes Time To Recount Ballots**

MARTINEZ, Sept. 12.—Superior Judge A. B. McKenzie has fixed 1 o'clock Wednesday morning as the time for the recount of ballots demanded by Bert Curry of Richmond in his contest against the election of Coroner C. F. Donnelly, whose election by 252 votes was shown by the official canvass board.

It is anticipated that the count can be completed in not more than two days and may be finished in one day.

In his contest Curry alleged errors in count and misconduct by election boards, and specifically named a half dozen towns and several individual precincts. The official vote canvass cut Donnelly's unofficial vote by close to 400 ballots.

**Early Day Resident of Martinez Dies**

MARTINEZ, Sept. 12.—William H. Austin, resident of Martinez for many years, died at his home here yesterday morning at 60 years of age and a native of Vermont. He is survived by his widow, Mrs. Anna Austin, a daughter, Eleanor of Martinez, a son, Everett of Eureka, a brother, Frank, and a sister, Mrs. Clara Wittenmayer.

Funeral services will be held Wednesday at 1 o'clock at his late residence, 1935 Pine street, and will be conducted by Rev. E. G. Davies. The body will be taken to Oakland by the Brunscher funeral parlors for registration at the Oakland crematory.

**Deed For College in Stockton Filed**

STOCKTON, Sept. 12.—Steps for the removal of the College of the Pacific from San Jose to Stockton are actively under way, the deed for the 50-acre campus having been filed here recently.

The college is to be built on the west side on the lower road to Sacramento.

Forty acres of the campus were the gift of a well-known Smith family in memory of Harriet M. Smith. The deed provides that the ground shall be used for college purposes for 50 years.

**Charter Petition Names Thrown Out**

MARTINEZ, Sept. 12.—Proposed amendments to the Richmond city charter, on which a vote was planned in November, will likely not go before the voters of that city because of insufficiency of number of signatures to petitions, according to County Clerk J. H. Wells. Wells has completed a check of signatures which shows that but 590 of the persons who signed the petition are registered voters. Fifteen per cent of the total registration of 1920, or 788 voters, should have signed the petition to insure its being voted upon.

**Richmond May Have New \$4500 Church**

MARTINEZ, Sept. 12.—Declaring its intention of erecting a church to cost \$4500, the First Church of Christ, Scientist, Richmond, today petitioned the Superior Court for permission to mortgage its funds for the purpose.

The petition has been fixed for hearing on September 25, before Superior Judge A. B. McKenzie.

**Taxi Driver Faces Intoxication Charge**

MARTINEZ, Sept. 12.—J. P. Lopez, taxi driver, in the county jail today facing a charge of driving an automobile while intoxicated as the result of an automobile collision near Rodeo Sunday.

Lopez was caused by P. A. Moulton, who charges that Lopez' car was driven into his machine, menacing passengers in his car.

**Livermore Lodge to Meet in Pleasanton**

LIVERMORE, Sept. 12.—Foresters of America, Livermore Court Number 57, will meet with the Pleasanton Foresters at Pleasanton tonight. Initiation and a banquet will be features of the evening's entertainment.

**MARTINEZ LICENSES.**  
MARTINEZ, Sept. 12.—The following marriage licenses were issued here:  
Ambrogio Mainini, 32, and Carolina Crivelli, 20, both of Crockett.  
John Rademacher, 26, San Francisco, and Myra O'Ren, 22, Antioch.

## Oakland Citizen Honored as Originator of Loganberry

Special Day Set Apart At Oregon State Fair For Judge J. H. Logan.

In honor of his having originated the Loganberry, now known throughout the world, Judge J. H. Logan, 82 years old, living at 510 Lake Park avenue, has had a special day set aside for him at the Oregon State Fair and is to attend the fair at the express invitation of the governor of that state.

Judge Logan received the invitation today from Governor Olcott of Oregon, informing him that September 24 had been designated at the State Fair as "Logan day."

## St. Mark's Scene Of Brilliant Wedding

A brilliant wedding in Berkeley this evening will be that of Miss Harriet Rinder, daughter of the late Captain and Mrs. J. H. Rinder and of high Carrington Dinwiddie, of Claremont, in St. Mark's Episcopal church. Rev. R. H. Hodgkin, rector, will officiate. The informal reception for the bridal party and members of the two families is to be held at the bride's home 924 W. 14th street. A general color scheme in pink is to be carried out in the church and home with dahlias, asters, roses and delphinium combined.

The bride-elect, who is of a brunette type, will wear a wedding gown of duchesse lace and point applique over a foundation of ivory satin. The gown will be veiled in sheer tulle, the bridal veil of the filmy material and arranged at the collar with a few duchesse crown caught with a spray of orange blossoms.

In lieu of the all-white shower bouquet, Miss Rinder will carry lavender orchids, lilies of the valley and white cyclamen.

Burt Rinder will give his sister into the keeping of the bridegroom.

Miss Roberta Mary Rinder, sister of the bride-elect, will be bridesmaid and will wear a bouffant frock of bright blue tulle, carrying a quaint bouquet of pink roses.

Miss Lorine Kinney, daughter of the Ralph Kinneys of this city, is to be maid of honor and will wear a gown of orchid tulle, her shower bouquet of snapdragons, pink roses and delphinium.

Little Mary Elizabeth Matthews, flower maiden, will be in pink ruffled frock of tulle and carry a glided basket of Cecil Brunners.

John Dinwiddie will serve his brother as best man, and the ushers will include Edward von Adelung, a cousin of the bridegroom-elect; Matt McKenzie and Charles Honeywell.

Twenty-four of the sorority sisters of the bride in colorful evening gowns will be seated in the front of the edifice and will join the bride procession following the exchange of nuptial vows. Mrs. Estlin Ward (Jean Waste) will play the bridal march.

Mr. Dinwiddie is a son of Mr. and Mrs. William Dinwiddie of Claremont and is a University of California graduate and Sigma Phi fraternity man. The honeymoon will be passed in the southern part of the state and Dinwiddie and his bride will be at home to their friends after Oct. 1, at an attractive new residence in Chabot Road.

In honor of Miss Cecelia Seymour, Mrs. Arthur Wellington Foshee was hostess at an informal luncheon at the Hotel Oakland this afternoon. Mrs. Seymour, whose work in portraiture has won her recognition, is the guest of her uncle, Bruce Hayden, at the latter's home in the Lake district.

Mr. and Mrs. John Kearns left Monday on an extended business and pleasure trip through the eastern and southern states. Kearns will attend the Telephone Pioneer's convention at Cleveland, Ohio.

In Piedmont, Interdenominational church this evening, five hundred guests will witness the nuptials of Miss Ethel Cecelia Lee and Henry Myers Hale, Rev. J. B. Smith of the Grace Methodist church of Stockton to officiate.

Later a reception to the bridal party and intimate friends will be held at the home of Mr. and Mrs. Warren Henry Lee in Taft avenue. Greens and pastel bloom will ornament the chancel in the church. Miss Lee will have as her matron of honor Mrs. Chauncey J. Harter, who will wear a gown of orchid chiffon and silver with slippers and hair ornament in silver.

The heavy of bridesmaids will include Miss Frances Hatch in periwinkle blue; Miss Genevieve Grady in green and silver; Miss Ethel M. Lee in watermelon pink; Mrs. Melvin W. Lee in blue and silver. All of the frocks will be made similarly of chiffon and each will carry a shower bouquet of mixed bloom to harmonize with her frock. Little Helen Marie Newmark will be flower maiden

MRS. HERBERT G. LANTIER, who has spent much of her time on the A. B. Spreckels ranch in Napa county this summer. (Boye Photo)

and wear white and carry a basket of rose petals.

The bride will wear an ivory tulle gown, an heirloom in the family, trimmed in princess lace with a well edged lace and held to the collar with pearls. Lilies of the valley and bride's roses will be carried in the bridal shower.

John P. Symes will be best man and the ushers Olmstead Atwater, Melvin W. Lee, Frank Morin and Manning Park.

The future home of the newlyweds will be in Los Angeles after their wedding trip.

Henry Myers Hale is a son of Mr. and Mrs. Charles Hale of San Leandro. He attended the University of California and is a member of the Kappa Sigma fraternity.

The bride-elect attended at a Zed school in Berkeley and later devoted her studies to music and vocal.

Miss Laurine Mattern was hostess this afternoon at the G. A. Mattern home in Claremont in compliment to Miss Ramona Marks of Berkeley. Miss Marks is the betrothed of Willard Cherrington Ross of New Mexico.

Mrs. Robert S. Knight was hostess this afternoon at a large tea at her home in Vernon Heights, complimenting her daughter-in-law, Mrs. Remi Chabot Knight. Mrs. Knight was Miss Ruth Rogers of Ventura previous to her marriage in San Francisco several weeks ago.

A tea was given at the hotel Oakland this afternoon by Miss Dorothy Cooper in honor of Miss Frances Black betrothed of Horace

## Club Urged To Reduce Annual Fee

By EDNA B. KINARD.

A campaign against the high cost of clubbing has been inaugurated in Oakland Center, California Civic League of Women's Voters. An amendment to the constitution is being introduced designed to reduce the annual membership dues from \$2.50 to \$1.50 and eliminating altogether the initiation fees. During the period when all necessities and privileges were advancing in cost, the dues kept pace, reaching by gradual degrees the peak of \$2.50, with an initiation fee of \$1 added for women not previously enrolled.

When first organized the center determined to place its fees within the reach of every woman in the community who might be interested in civic projects. Some ten years ago membership was twenty-five cents per annum. But as the scope of the group broadened, expenses increased and the financial obligations jumped to \$1, then to \$1.50 and finally to \$2.50 for the nine months of the club season.

In introducing the amendment which may return the dues to their former state, Frank G. Law, president of Northern California Civic League of Women's Voters, and a former president of the Oakland body, explains.

This center was organized to give civic education to women. The open forum was planned for all

those who are making children's clothes and other attractive bits of sewing for their booth at the bazaar. In the Elmwood Branch are, besides Mrs. Stone, Mrs. L. L. Greene, Mrs. E. F. Houghton, Mrs. C. E. Knox, Mrs. E. M. Eiam, Mrs. W. B. Ireland, Mrs. J. George Moore, Mrs. V. T. McGillicuddy, Mrs. Reginald Thomas, Mrs. C. Small, Mrs. W. L. Huston, Mrs. Charles Trabert, Mrs. R. M. Simms, Mrs. C. E. Swick, Mrs. F. H. Probert, Mrs. Thomas Anderson, Mrs. Walter Wood, Mrs. M. C. Cook, Mrs. G. T. Gosling, Mrs. Victor Poss, Mrs. E. B. King, Mrs. J. W. Sherwin, Mrs. Thomas Harris, Mrs. George O'Brien, Mrs. J. E. Havre, Mrs. E. F. Sizer, Mrs. A. J. Hill.

At last year's bazaar, Elmwood Branch augmented its stock of children's clothes with an attractive supply of scarves, orandy hats and sashes, bags, table covers, cushions and other bits of fancy work which netted a generous sum for the Baby Hospital. The Branch expects to surpass last year's splendid success in this year's offering.

Mr. and Mrs. Myron T. Bracken of Claremont left last week for a tour of the eastern cities, including Chicago, Washington, D. C. and New York. They expect to be gone several weeks.

Mr. and Mrs. George W. Scaddan (Azalia Morris) of this city are spending a week at Howell Mountain, near Helena, Napa county.

Cleveland of San Francisco. Both hostess and honoree are members of the Alpha Chi Omega sorority.

### SERIES OF LECTURES ON.

Mrs. Minnie Sabin Cooper is being welcomed back to town, the advent of the fall—a season of study and lectures for many of the married set as well as the school set. Mrs. Cooper will give a series of interesting lectures on Thursday morning at the hotel Oakland, the first of which will be upon the Fashion Play at Oberammergau on Thursday morning at 10:45 o'clock.

The marriage of Miss Melba de Witt and Ross Warren Keith took place August 18 at a quiet home ceremony and was a surprise to many friends here. Rev. Edgar E. Gee, rector of St. Peter's church, officiated. There were no attendants upon the couple. The bride is a graduate of the University of California and a member of the Alpha Delta sorority. She was former president of the Treble Clef society and active in campus work.

Knight attended the Agricultural college at Davis and is interested in agriculture near Yuba City.

The marriage of Mrs. Doris Cook Collins and Herbert Keith was quietly celebrated September 8 by Rev. Dr. Guthrie of San Francisco. Mrs. Collins is the daughter of Mr. and Mrs. James Cook and was educated in this city. Keith is a son of Herbert Keith, an insurance man of San Francisco. The couple have gone on a honeymoon trip by motor to Crater Lake, and will be away three weeks.

ELMWOOD BRANCH MEETS TODAY.

Members of Elmwood Branch of the Baby Hospital are holding weekly meetings, preparing for their booth at the annual Baby Hospital bazaar and pageant September 28, 29 and 30 in the Municipal Auditorium. Mrs. C. R. Stone of Hill Crest road in Berkeley was hostess today to the mem-

women—not the few. It is wisdom to get away with the initiation fee which might become a barrier and accept the standard of the lower dues that the local League of Women Voters may be strengthened with a larger enrollment of women of all classes.

A month will elapse before action can be taken upon the amendment. Mrs. Luella Etcham is chairman of membership. Mrs. C. E. Wilson is president of Oakland Center.

Sections in public speaking, publicity, current events and economics were organized in the Y. W. C. A. building yesterday. The schedule follows: 10:30-11:30 a. m., public speaking, Miss Henrietta Reicher, leader; 11:30 a. m. to 12:30 p. m., publicity, Miss Mollie Conners, leader; 1:30-2:30, current events, Mrs. L. C. Grasser, leader; 2:30-3:30 p. m., economics, Little Journey, leader. This group during the season. The leader has not been named.

The inaugural meeting for the new season of the Contra Costa Federation of Women's Clubs will be held tomorrow in Brentwood, the Library Association serving as convention hostess. Scores of women from all parts of the county will motor to the attractive town where the all-day conference will take place. Mrs. George A. Rigg of Oakland, president of Alameda district, C. F. W. J., has been given an important place on the program. Luncheon will be served at Hotel Brentwood.

Dr. V. H. Podstata, associated with the Livermore sanitarium, will be the speaker before the regular meeting of the Alameda County Nurses' Association, District No. 1, tomorrow night in the Young Women's Christian Association building. The Public Health Center will join with the professional women in their regular meeting.

The California Writers' Club will launch the season tomorrow night with a dinner in the Young Women's Christian Association building at which the members will honor one of their own associates, Charles Caldwell Doole, who has attained recognition as a fictionist, will be the principal speaker, reviewing his experiences on the Atlantic coast and conditions of the literary market as he found it.

A feature of the September meeting will be a display of the collection of autographed books which has been contributed by members of the California Writers' Club for presentation to the American Library in Paris.

Current comment of world events will be made by Mrs. Annie Little Barry at a winter series of evening talks which is being arranged under the auspices of Rockridge Women's Club. The final Wednesday of each month will be given over to the lectures on living issues for which Mrs. Barry is winning a more than local reputation. Events dealing the fate of nations, discoveries, inventions, art, science, literature and general movements will be touched upon in the comprehensive programs which will offer a digest, which may well be substituted for courses in general reading. Rockridge clubwomen will prob-

ably extend the privilege of the current comment talks to their neighbors.

Boy Scouts contributed the program before Hill and Valley Club of Hayward yesterday, bringing to the attention of their elders the movement with practical demonstration.

"The Frolic of Bygone Years," which will be produced on Friday evening, October 6, by the Hayward Club, was outlined in detail at the business meeting, preceding the program.

Their allegiance to the Junior Red Cross shop, which is taking care of the nutrition fund, providing mid-morning breakfasts to students in the public schools who otherwise would lack the bread and milk, will be demonstrated by the general federation program and Lakeview School Parent-Teacher

Association in the gift of a stock of new garments to be made by the mothers.

To provide the volunteer seamstresses with the material for their task, the philanthropic section, Mrs. H. G. Hill, chairman, is announcing a series of benefit card parties. The first will be held on Thursday, at 372 Bellevue avenue. On the following day a second affair will be given at 40 Moss avenue. Assisting Mrs. Hill in her plans to finance the department work through the medium of the pleasantly afternoons are Mrs. Norman Campbell, Mrs. C. D. McVey, Mrs. J. F. Shrader, Mrs. S. Spitz.

Mrs. F. V. Volmer, president of Oakland Federation of Mothers Clubs was the speaker at the opening meeting of the Lakeview Association this semester. She outlined the general federation program and the work of the Junior Red Cross

Shop. Music was rendered by Mrs. B. J. Plunk. An informal reception was given in compliment to the school faculty.

**For New Styles and Pretty Arms**

(Beauty Notes) Women are fast learning the value of the use of delatone for removing hair or fuzz from face, neck or arms. A paste is made with some powdered delatone and water and spread on the hairy surface. In 2 or 3 minutes it is rubbed off, the skin washed and every bit of hair has disappeared. No failure will result if you are careful to buy genuine delatone and mix fresh as wanted.—Advertisement

## LADIES' RELIEF SOCIETY FETE OPENS SATURDAY

Spanish Market at City Hall Plaza to Feature Bazaar For Charity.

Saturday is Market Day for the Ladies' Relief society, the annual fete which the charity stages in the City Hall Plaza, or about the plaza, since the triangle is now a wealth of autumn bloom. It will be a picturesque background for the old Spanish market, the gaily decked booths "done" in bright hues bunting as in the days of the vaqueros. Maids and matrons in the costumes of old Spain will preside at the hundreds of booths, which overnight a corps of carpenters, electricians, and decorators will erect before sunrise on Saturday. Loads of good things, all home-made, vegetables, sweet shops, soft drink booths and floral stalls will be ready for the Saturday shopper. Mrs. William Thornton White and Mrs. Frank Hunt Proctor have the construction of the market under their supervision with Miss Matilda E. Brown, president, director-general of the day. Mrs. George Rothmeyer will see to the real Spanish setting. Troubadors, dancers and fair vendors of sweats, macs, balloons and nosegays will line the promenade and help swell the winter housing fund of the society.

### FOR VARIOUS CONCESSIONS

A few of the concessions, their chairman and assistants are: Soft drinks—Mrs. Walter Leimert and Mesdames George Bowles, Percy Murdoch, Martha Leet, Miss Edna Westphal and others. Pies—Mrs. W. H. The market will be conducted from early morning until sunset, with many more concessions for the amusement of the shoppers and passerby.

### MAN FROM S. F. BUYS L. A. HOTEL AND DISAPPEARS

LOS ANGELES, Sept. 12.—Police have begun a search for C. W. Hottenstein, 35, who came here recently from San Francisco and purchased a hotel, from which he disappeared a week ago today.

According to roomers, Hottenstein was last seen crossing the street in his shirt sleeves, apparently planning to return quickly, as in his apartments he left his spectacles, clothes, several hundred dollars in checks and a meal he had just prepared.

### Three Industries Locate in Oakland

The Oakland Chamber of Commerce, in a bulletin issued today, announces the establishment in this city of the following new manufacturing concerns: The Automatic Screw Products company, the Simpson Manufacturing company, and the Remar Candy company.

The Simpson Manufacturing company has purchased property at 4248 Holden street on the Emeryville industrial tract. This company makes a specialty of manufacturing window screens and screen doors. It controls a special process by which the wire screen is lock stripped into the frame without the use of tacks.

The Remar Candy company has leased property from Gray Brothers, 2833 Hannah street, and is now operating at that location. A. J. Balger is manager of the candy division of the Remar Candy company.

The automatic Screw Products company has leased property on the west side of Hollis street between Park street and the Santa Fe railroad, and at that address will operate a first class automatic machine shop. This will be the first of its kind in the bay district. M. Vehren and J. Silva are the proprietors.

REBEKAS TO ENTERTAIN. Golden Link Rebekah Lodge will entertain with a public whist party this evening at the V. O. W. hall in Fruitvale. Arrangements are being made by the lodge for the entertainment of a large gathering of the players.

## PREMIERS RALLY TO AID TOTTERING CENTRAL EUROPE

News of Lloyd George's Coming Gives New Life to League Assembly.

GENEVA, Sept. 12.—(By The Associated Press)—When Prime Minister Lloyd George of Great Britain arrives here next week he will find all the necessary elements for a supreme council meeting. France will be represented either by Rene Viviani or Premier Poincare, while the Italian delegation will send Foreign Minister Schanzer. Paul Hymans of Belgium, who has been here since the opening of the league of nations session, has been a frequent participant in supreme council sessions, while the Japanese ambassadors, Hayashi and Ishii, are both here to represent their nation.

The news that the British premier was coming has injected new life into the league of nations in the league assembly sessions.

Great pressure has been brought upon the British premier to induce him to come, the strongest argument being that the policy of the allies was held largely responsible for the growing difficulty and the increasing unrest of Europe, and that grave danger to the general peace was threatened if the distresses of the early winter came on before anything had been done to help Central Europe out of her present prostration.

"It will take fifteen years to get Central Europe organized again on any basis," said one of the leading Central European statesmen in discussing the situation today outside the league sessions. "and if a beginning is not made right now what may happen is beyond comprehension. Austria cannot go through another winter of near starvation without upheavals that will spread."

### Cabin Boy Travels 26,000 Miles in Air

GENOA, Sept. 12.—During a thunderstorm at Biella, in Piedmont, the streets were covered with hailstones to a depth of eight inches.

### STAGE LINE SUED

For serious injuries which it is alleged he received on June 11 when a bus collided with a horse and buggy in which he was riding, Henry G. Dodd has filed suit for \$340.25 in damages against the Shasta Transit company. The buggy was struck in the rear by the stage, upsetting the vehicle and throwing him under the hoofs of the horse. Dodd claims B. H. Joy was also a passenger in the buggy, it is stated.

## GLOBE TROTTER HIKES OVER U. S. WITH \$1 START

O. H. Richter, globe trotter and short story writer, who has traveled more than 250,000 miles since he began, his travels in 1896, arrived in Oakland yesterday and is at the Hotel Menlo. Richter has been around the world six times, and started on his present trip from Bangkok, Siam, on April 1. He has hiked 3700 miles across the continent on the present occasion, climbing Pike's Peak and Mount Massive on the way. Richter says that he started out with \$5 in his pocket, and that he is making the trip on a bet with friends, who will pay him \$1 for every dollar he has been able to earn or save on his trip.

Richter hopes to go from here either to South America or Australia.

### STORE FIRED ON

The police today are investigating the report that a bullet crashed through the window of the store which is conducted by D. F. Funk, 4157 Broadway. It lodged in one of the shelves in the store. The incident occurred early last night. Funk told the police that he has no enemies. The police believe that the shot was fired by boys.

## GRIEF OVER SON CAUSES SUICIDE

SAN FRANCISCO, Sept. 12.—Mrs. Grace Mortimer, 31, committed suicide at her home, 831 Post street, yesterday, from grief following the death of her six-year-old son. She shot herself in the right side and died almost instantly.

### Talking-Radio Auto Shouts Own Virtues

LIMA, Ohio, Sept. 12.—One of the unusual attractions of the Allen County Fair was the appearance of a talking and radio car. The car has been making a tour of the fair circuits in Ohio, Michigan and Indiana. Questions asked about the car and answered in human voice directly by the car. Wireless speakers were given during its stay at the fair. The car is manufactured at a Toledo plant.

## TAILORED SUITS OF NAVY TWILL and TRICOTINE

Featuring 6 Models

at \$45

To meet the increasing demand for long tailored suits, we are emphasizing these models in navy Twill, cut on straight lines, with 38-inch coat length. They are simply trimmed, and may be worn with or without the belt. In their excellence of line and tailoring they are typically Willard's.

This low notched collar has the long line of the tuxedo without its squareness. The inset bands are biased, \$45.

Crosswise trimmings and bias bands running the length of the coat characterize this model. It has a 4-button fastening, \$45.

This model boasts three buttons, but only one is really used. The slashed openings are finished with double arrowheads, \$45.

Narrow pin tucks ending in a diamond shaped embroidery make this model one of extreme simplicity, \$45.

Slashed into several panels and trimmed only with tiny arrow tips, this model is singularly youthful, \$45.

The mock openings of this suit are formed of narrow double bands tipped with embroidery. It has a double pocket, \$45.

## BRING THE FLEET HERE.

With every reason behind the argument for such action it is probable orders will be given for the stationing of the Pacific fleet in San Francisco Bay.

This is the largest harbor available on the Pacific, the only one in which the fleet may ride without being divided and is the central port on the western ocean. Certainly, for strategic reasons it would appear the officers of the fleet should be familiar with San Francisco Bay for, if there were to be a war, this port would be the station.

Naval experts are agreed the home of the fleet should not be next to the border of a foreign nation. They are unanimous in approval of San Francisco Bay. There is no question if hints of war should arise the naval strength of the Pacific immediately would be concentrated here.

What many Californians have not been able to understand is why the Pacific fleet, in times of peace, should spend most of its time in other harbors? To the communities about the bay come hundreds of conventions each year and to the visitors from the interior the sight of a warship is a treat. The navy, which is not unkind of the value of publicity, has upon occasion, recognized it in connection with conventions when the fleet has steamed in for a few days of imposing rest on "warship row." Disposition of the fleet in time of peace is in the hands of its admiral. An effort is being made by the Bay Cities Naval Affairs Committee to convince Admiral Eberle of the wisdom of the plan to keep the fleet here. It is a plan which has impressed Secretary Denby and is one which, sooner or later, will be put into effect. The committee will perform a service in hastening that day.

In speaking of unusual news features, there is an account of a "million-dollar baby" falling out of a tree at San Geronimo. The "baby" is eleven years old, was hustled to a hospital, and a great to-do was made over him. His million-dollar appellation comes from his expectations as an heir. Nearly every healthy boy falls out of a tree first or last, but it is very seldom that he is taken to the hospital or achieves a place in the news in consequence. He may be lucky if he escapes a woodshed reckoning for having been in the tree.

## TWICE APPROVED.

The test of the strength and permanence of Oakland's natural inducements to industry has been applied by two nationally known manufacturers within the past few months. In the new buildings of the Durant Motor Company and the General Electric Company the city has a double reason for congratulation. In each case the decision to build here was founded on knowledge gained in previous experience in the Eastbay.

The electric company came to Oakland to build its plant because it knew of this city's advantages. For years its Mazda factory, has been here. Those who are in control of the Durant Company are the same men who built the great Chevrolet plant in Oakland. After they sold that place they started building an other factory in the same district. An official of that company recently said:

"The real test of what a man thinks is when he sells a plant he has located and builds an other alongside. W. C. Durant had located the Chevrolet plant in Oakland and made it a complete success, and he came back to Oakland to build his new plant. He did this because he found conditions were better in Oakland than in any place on the Pacific Coast. So it was with the electric plant. The

Mazda factory and opportunity for those in charge to study the situation were here. Another plant, of a different kind, was to be built by the corporation and the Eastbay was chosen. In these two reaffirmations of Oakland's advantages there is significance which may be emphasized in this "Welcome to Oakland Week."

## MRS. HARDING BETTER.

The news that Mrs. Harding, wife of the President, is improving is the best and most important news of the day. Her sudden illness, coming at a time when public interest was centered in strikes, controversy, and a new war across the seas, occasioned a genuine and personal concern and brought a realization of those human elements and attributes which unite Americans.

Mrs. Harding has been critically ill. She is not entirely out of danger. No greater proof of the place the President's wife holds in popular esteem, could have been offered than the expressions of regret and anxiety which have come from all parts of the country and all walks of life. In the newspaper offices inquiries concerning her condition have come with each minute of the day.

The whole country rejoices in the encouraging bulletins from the sick room. It's sympathy is given to President Harding, the husband and in this union of minds in a common heart-felt and human expression is shown, once more, the kinship of Americans.

A Jersey case is attracting attention. Mr. and Mrs. Rich parented a baby which they are very sure was a boy. But the infant which they received from the hospital is a girl. They claim it got mixed, and anyhow there is a bad situation, one which may cast a shadow over the infant's life. It is a variant of an old theme. But the incident is in a way to boom the thumb-test plan. Had a thumb-print been duly taken of the baby there would have been no doubt.

## TULARE TO HAVE FAIR.

To many a man no fair without livestock is complete. The heavy draft horse with braided mane and tail, prize winning hogs, gray red, black and white; flocks of sheep heavy-coated with wool; aristocrats among goats and, even, the sinewy mule invite the interest of every man who knows and loves the soil. Then, too, the leghorn, wyandotte, orpington, minorea and the rest of the feathered flocks speak a language that is dear to the thousands.

Tulare county is rich in its livestock. It is fortunate in its variety and its agricultural stability. At the county fair which is to open in Tulare tomorrow, to continue until September 19th, the cry of the rooster will echo over that of the ballyhoo; the blue ribbon bull will be led around the track; and judges will pass on the merits of the squab, the Poland-China, and the Duroc Jersey. The surrounding country will turn out in force, there are to be amusement features of wholesome sort, and the land and the men who have worked it will entertain and educate the crowds.

There is a treat in store for all of those who take the road to Tulare during the days of its fair.

For more than a hundred years inventors tried to devise a machine that would enable men to emulate birds in flying. The principle seems to have been adopted fifty years ago when Marriott announced the aeroplane. It was the same as that which is now so successful, but was impracticable because the lumbering steam engine was impractical for power. The invention and development of the gas engine made it possible to navigate the air with even more readiness and infinitely greater speed than is possible in navigating water ways. But now considerable results have been attained without any power whatever. The gliders have done astonishing things, and whether a step is to be taken in air navigation far in advance of any dream when inventive genius was struggling for an improvement on the gas balloon is something for the future to show.

It would not naturally be thought that Kentucky has more postoffices than New York, but the census shows it to have 2,568, while New York has 2,289. Texas, with its vast area, has one less, 2,288. Pennsylvania has the largest number of all the states, 2,987. Another interesting fact is that Virginia has more than Missouri, Illinois or Ohio. It has 2,281 to Ohio's 1,697. California comes tenth, with 1,581.

The Kansas City Star, which seems to remember how reconciliations of antagonistic politicians generally turn out, notes that Mr. Bryan and Senator Hitchcock have "buried the hatchet," both being present at the interment, "so that each knows where to look for it in the next case of need." Nothing is said about the hatchet being left up, but each undoubtedly knows where to catch hold if it is put in use again.

In the blue and gold mandarin coat,  
Though ancient, the silk lives.  
The threads hold strong in the weave,  
The lustre is not dulled.  
How strange to think that, of weaver and coat,  
The inanimate outlasts.  
He who wore it, noble princeling,  
To the brown dust has returned.  
But his earnest, unfaded and gay,  
Exquisite, adorns the wall.

## NOTES and COMMENT

Boston Transcript: "Great Britain and the United States are about to have very grave complications over the consulate at Newcastle-on-Tyne, or at least the non-pro-English press so asserts. Somebody has said that somebody has done something that he ought not to have done and the consulate at Newcastle has had some noise made about it. On the other hand, it is whispered that the United States government is not fully convinced that the British government is doing all it can to prevent run-running. Who supposed that it was? Canada has been merrily sending oceans of drink into the United States, a commerce of which the Dominion authorities were of course aware, so why should the mother country refrain from turning a penny minted with the stamp of a Pecksniffian honesty?"

The New York World discovers the cafeteria. "Evidently New Yorkers are impressed with the truth of the saying that providence in the matter of eating helps those who help themselves. There is increasing evidence that the cafeteria is the kind of restaurant that suits the general taste best. New Yorkers have taken with enthusiasm to the plan of waiting on themselves. Whether because it saves time or because it gives the pleasure of selection, this form of providing for the hungry man undoubtedly is popular. Other cities long ago adopted the cafeteria system with even greater enthusiasm than New York. Its reason for being is not always economy."

Anent an awful tragedy the New York Sun says: "The Argonaut mine is one of California's most famous gold producers, sunk about 100 miles northeast of San Francisco, and has been enormously profitable since it was opened some twenty-five years ago. It has a shaft depth of nearly 5000 feet and is situated in the heart of the district originally made famous by the Argonauts of '49. In such modern mining there is little of the romance of the old placer mining days, when prospectors washed the pay dirt in the mountain streams and worked in the open."

Chicago News on crossing the equator and Secretary Hughes' whiskers: "When the steamer Pan-American, bearing Secretary Hughes to Brazil, crossed the equator, Neptune came aboard and held his traditional court. Time was when this would have meant a serious loss for Secretary Hughes. The first thing Neptune did in the good old days was to ladder with a tar brush and shave with a dull knife all persons crossing the equator for the first time."

Salt Lake Tribune: "According to authentic figures the automobile industry shows that in the United States there are 6,448,343 farms, and of this number 1,979,564 answered a questionnaire and reported a total of 2,146,363 automobiles. In New York state there are 194,195 farms, and of this number 35 per cent reported owning 74,000 automobiles. In New Jersey, the farmers own 13,695 cars, and in Pennsylvania 76,491. The persons who conducted the survey estimate that about 20 per cent of the entire farm population of the country own cars."

The Washington Star reports an unusual automobile accident: "Niagara has taken a heavy toll in human life, but never before in such strange circumstances as in the accident of yesterday, when a motor car, slipping its brakes, rolled over the edge of the gorge and fell 200 feet, killing its single occupant, a woman. The car had been parked on the grass near the cliff while its driver and three of his passengers had gone to arrange for a permit to visit Canada, when the car began to move, and, despite the efforts of bystanders to hold it back, it plunged over."

Chicago News on crossing the equator and Secretary Hughes' whiskers: "When the steamer Pan-American, bearing Secretary Hughes to Brazil, crossed the equator, Neptune came aboard and held his traditional court. Time was when this would have meant a serious loss for Secretary Hughes. The first thing Neptune did in the good old days was to ladder with a tar brush and shave with a dull knife all persons crossing the equator for the first time."

## JUST FOLKS

By EDGAR A. GUEST.

THE BOSS  
The other day while in a store  
A man in anger paced the floor.  
"Hey you!" he shouted in his rage  
"Get busy there and earn your wage!"

He snarled at people left and right,  
Scorned every fellow in the place  
And made the men and women cower  
And all because he had the power.  
"Who is this mad man running wild?"  
I asked. "The Boss," she said and smiled.

I stood awhile and watched him then  
In action with his fellow-men.  
He strode the aisles, too big to see  
The little girl attending me;  
Too big to nod his head and say  
"Good morning," in a kindly way.  
But loudly snarling orders out  
As though authority must shout.  
Thinking a snarling speech and brief

No doubt they wonder why the clerk  
Sometimes neglects her daily work  
No doubt they count the weekly sales,  
To find that some department falls,  
And he goes out and puts the blame  
On the clerk who never called by name—  
A timid girl who's never heard  
From him one kindly, cheerful word.

When they should truly charge the loss  
Unto the conduct of the boss.  
Who seeks cooperation here  
Should rule by friendship, not by fear.  
When power is arrogantly used  
Destruction's dynamite is fused.  
Wise is the chief who bears with all  
His people's errors, great or small  
With patience, for they soon shall learn

That he is just when he is stern.  
And every boss should keep in mind  
A man may rule and still be kind.

# About YOUR HEALTH

Why Half the Battle Is Believing You'll Get Well

By ROYAL S. COEHLAND, M. D.  
Commissioner of Health, New York City.

Frequently we hear the expression, "the one best bet." There is one "best bet" in medicine. No matter how sick and how perilously close to death a person may appear to be, he is very likely to get well.

Never forget that the natural tendency of disease is toward recovery. If it were the other way, the first severe illness you ever had would have ended your career. What made me think of these things was the memory of a case I saw years ago. A New York doctor called me in consultation to examine the eyes of one of his patients. I found her in bed, with snoring, breathing, eyes rolled up, pulse almost imperceptible, skin like wax, and the surface of her body bathed in cold perspiration.

More out of courtesy than for any other reason, I examined the eyes at best. I could not make a report of my findings to the doctor, but said:

"It makes no difference, of course, because your patient will be dead before night."  
There is a sort of unwritten law among doctors not to discuss unpleasant experiences. We particularly had to bring up a topic which may appear to hint at any failure on the part of the doctor. It was the business of doctors to keep folks alive, so we always have a sense of failure even when an apparently incurable patient dies.

Of course, I could not tell the patient I have mentioned. What was my shock and amazement, five or six years later, to have that dear old lady walk into my office! She didn't die, after all! My own lack of faith did not discourage her doctor, who stayed by and turned the scale.

Several experiences like this and observation of other doctor's experiences have taught me that it is never safe to prophesy fearful things. There is ample foundation for bounding optimism. When I am sick I want my doctor to hang on till the undertaker drives him out. The more I recover, and the more hopeful the doctor, the more likely he is to restore you to health and usefulness.

Hope gives strength and encouragement. As long as there is life there is hope.

Never give way to despair. Determine to get well. Think recovery and health. How it helps a doctor to have a trusting and confident patient?

Half the battle is believing you will get well. Then it is so much easier for the nurse and family if the patient is responsive and a "just" case.

Let's all get well and keep well!

## PATRIOTIC SOCIETY.

To the Editor of the Tribune:

Permit me to express heartfelt thanks in behalf of the Sons and Daughters of Washington organization for your splendid and efficient cooperation which has manifested itself in the liberal amount of space that you have recently devoted to the columns of your paper to the publicity of the various patriotic, educational and social activities held at its American Institute and at the Municipal Auditorium.

May I also assure you that your valuable cooperation will be duly appreciated not only by the members of the organization, but also by the numerous patriotic citizens as well as the leading educators who are taking a vital interest in the work of the new institution for better citizenship and patriotic service that originated in Oakland.

It is most gratifying to learn that both press and pulpit, following the trend of the times, are beginning to realize the importance and significance of fraternal movements in citizenship, such as that of the Sons and Daughters of Washington of this city. A "get together" movement for national unity and enlightenment, or harmony and mutual service is considered today imperative to every nation.

## CROWDS FILL STORES AS FETE OPENS

Sailors Visiting City Get Surprise As Navy Flags in Street Decorations Spell Out Greeting

"Welcome to Oakland Week" is already a tremendous success. This was the announcement yesterday of the executive committee which has had the affair in hand. Merchants in every line of business report crowded stores and new business records. In some of the stores special policemen were required to handle the patrons. "There is no doubt about it. 'Welcome to Oakland Week' is a tremendous success," reads the statement issued. "Saturday shopping crowds were the rule today in spite of the fact that it was Monday and housewives are generally expected to be busy about their household affairs on that day. "We are very pleased to note the number of out-of-town visitors in the stores. Delivery orders were placed from practically every town in Alameda and Contra Costa counties. "Throughout the week it is the plan of the merchants to show by actual demonstration of their goods that the Oakland stores are in a position to challenge competition with any city in the country on the basis of the variety of the

## HUNTER, LOST FOR SIX DAYS, IS RESCUED

Edward Salbach, Employee of City, Collapses From Cold and Lack of Food After Wandering in Woods

After wandering for nearly a week lost and without food in the mountains of El Dorado county, Edward H. Salbach, employee of the city electrical department, is today recovering from the effects of his experience in a cabin forty miles from Georgetown, according to word received by friends here. He is suffering from a nervous and physical collapse as the result of exposure and lack of food. Salbach, whose home is at 2253 Ausen street, Elmhurst, became lost last Thursday while on a hunting trip with Dr. J. M. Ward of 2320 East Fourteenth street. The families of both men, who had accompanied them on the vacation trip, had been left at "Uncle

Tom's," a cabin in the El Dorado county mountains, while the two men went out after deer. Salbach became separated from Dr. Ward in the fastnesses of the Rubicon country, while on the trail of a deer he had wounded, and lost his way. When he failed to show up at camp, Dr. Ward gave the alarm, and a search was begun by forest rangers and representatives of the sheriff's office.

After scouring the forest-covered mountains for six days, the searchers located Salbach on Sunday. He was nearly starved, and was suffering from cold. He was taken by his rescuers back to "Uncle Tom's," where he is now recovering slowly. Mrs. Salbach, who suffered a nervous shock recently as the result of an automobile accident in Oakland, is prostrated for the second time as the result of worry over her husband's disappearance, according to word received from "Uncle Tom's" today. Both families are expected to return to their homes in Oakland Saturday or Sunday.

## Council to Take Up Bridge Removal

ALAMEDA, Sept. 12.—The Alameda city council will hold a special meeting tonight to consider the plan of the War Department for removing the High street bridge and for continuing work on making up the budget. The latter must be announced at the meeting next Tuesday.

The probable removal of the bridge has been under discussion by war department officials for some time. A request has been made for the citizens to express their views in the matter. In order to obtain these fully the council has announced that all interested may appear at 7:30 in the city hall and voice their protest or endorsement.

## GREAT BRITAIN TO PAY INTEREST ERE FUNDING OF DEBT

U. S. Treasury Believes Payment Due Oct. 15 Will Be Made.

WASHINGTON, Sept. 12.—Great Britain probably will begin the payment of interest on her war debt to this country before arrangements are made for the funding of the \$5,000,000,000 obligations. It was indicated today at the treasury.

On October 15, officials declared, an installment of \$65,000,000 falls due. A British financial mission was expected to leave England to negotiate funding negotiations by the latter part of this month, but this country has not been notified of its impending departure. Officials expressed the belief that funding arrangements could not be worked out with Great Britain before the latter part of October.

The view, however, was expressed at the treasury that Great Britain would meet the October 15 installment of interest and that by November 15, when \$35,000,000, the semi-annual installment of interest, falls due, the program for England meeting its war-time obligations to this country will have been completed.

As the British debt now stands there is \$4,133,000,000 of principal and \$611,000,000 of interest due over the three years ending last April, which was deferred by mutual understanding.

The hydraulic press was invented in 1755.

## Birds Fly 3000 Miles in Their Season Flights

WASHINGTON, Sept. 12.—How far will a migratory bird travel in its fall and spring flights? The Biological Survey has determined that they make flights of at least 3000 miles.

An investigation has been conducted for several years by the survey by trapping ducks and other strong-winged fowl in northern sections, and marking them with light bands bearing a serial number and the legend, "Biol. Surv., Wash., D. C." The numbers on the fowl are recorded at a from time to time hunters bagging some of those marked report where and when the bird was brought down.

More than two hundred such birds were loosed with the bands from Lake Superior, in Ontario, about 20 miles north of Toronto, and many reports have been received. So far the record flight is that of a blue-winged teal banded September 24, 1920, and killed two months and seven days later in a swamp near Port of Spain, on the island of Trinidad. The shortest possible flight the bird could have taken to reach this point, which is off the coast of Venezuela, is 3000 miles.

It seems apparent that the mallards and black ducks traveled together and their course from Lake Superior was southward along the shores of Lake Erie by way of the St. Clair flats. Here the route divided, the majority continuing southwest, crossing the Ohio, and then to the Mississippi Valley, where the majority wintered.

The others took a southeasterly route, crossing the Alleghenies and reaching the Atlantic coast by way of Chesapeake and Delaware bays. None of the banded birds was taken.

## ENGLISH JAIL OFFERS CONCERTS FOR PRISONERS

LONDON, Sept. 12.—E. Percy Brown is a comparatively young man, with a young man's enthusiasm for reform. He wants to make prisoners better and happier men inside the jail, and to give them a chance to make good when they get out. He is governor of Dorchester Gaol, where he is trying certain experiments that came to him from the United States, and the home office is watching them to see how they turn out.

The effects of the new treatment already are pronounced to be amazing. The tone of the jail is excellent and the general conduct of the prisoners is very good. And this in spite of the protests raised by the old fogey type of prison authorities against undermining discipline by introducing "flashy American methods."

Musical is Mr. Brown's most powerful instrument of amelioration. Nearly every week he organizes good concerts. The prisoners display a hunger for these events, and the better the music the better they like them, showing an almost pathetic delight in violin solos of the higher class.

Also Mr. Brown has organized a series of debates and lectures for the prisoners. The debates, especially, are hugely enjoyed by the prisoners. Some of them participate with great zest, for among those now "doing time" at Dorchester are men of excellent education and remarkable argumentative skill.

## Municipal Camp at Stockton to Close

STOCKTON, Sept. 12.—After a season which has proved successful beyond all hopes, the Stockton municipal camp at Silver Lake is preparing to close until next July. That the first season should have enabled the camp to pay its way is considered remarkable, and indicates the co-operation extended by all who visited the place. The community house of granite and logs is practically completed and the permanent kitchen is almost ready. Next season the forest service has promised to build a new road leading down to the camp, enabling autos to come out with ease. Fishing has been fairly good at Silver Lake, and deer have been found in the nearby woods. An arrival yesterday stated that at the Stockton camp, seven large bucks were hanging in a row.

## GIRL OBJECTS WHEN COURSE IS ONLY DIPLOMA

(By International News Service) NEW YORK, Sept. 12.—Miss Edna MacAdam, of Brooklyn, enrolled for a course in permanent hair waving with a beauty college. She paid her \$100 and immediately received a handsomely embossed diploma setting forth an impressive Old English text that when it came to putting crimps in the hair she appended the natural tendencies of an African climate were nil in comparison with the art of Miss MacAdam.

She complained to her professors that, while the diploma was a thing of beauty and a joy forever, she had not received any instruction whatsoever.

When they told her that it "wasn't necessary" and that she would have to "learn it all over in the first job she got in a beauty parlor" she informed Assistant District Attorney Helen P. McCormick, of Brooklyn, who is investigating.

## "Wet" Issue Now Absent in Kansas

KANSAS CITY, Mo., Sept. 12.—Complete absence of the wet and dry issue marks the coming election in Kansas, not one candidate having injected the question into the contests in the dry's stronghold.

Statements from a number of congressional and state candidates indicated they were ignoring the issue in their campaigns because they did not consider it existed in any of the state or district contests.

## CIGARETTE GIRL OF GREENWICH VILLAGE BATTLES

NEW YORK, Sept. 12.—Greenwich Village, that Bohemian center regarded as a perpetual fountain of mirth, for a time was threatened with its little tragedy, but now the tale has taken a new turn and the happy ending is in sight.

A few weeks ago, Sonia, the cigarette girl, was stricken desperately ill. Heart disease, a strange form, the doctors said.

For weeks she lay in a hospital ward, pale and wan. And very lonely was Sonia, for she found that her village friends, the poets and painters who laughed with her and blew smoke rings with her in collar and garret, had deserted her.

On the walls were none of the gay tapestries, the paintings and the sketches in which she delighted. The sounds which came to her were ominous sounds, lacking the music and laughter which to her had constituted life.

ONLY IN TWENTIES Sonia is only in her twenties. Youth rebels at grim hospital walls and white-clad doctors and nurses, with their stethoscopes and mysterious charts.

But now doctors say that Sonia has won her fight—that soon she will be discharged. Everyone knows Sonia in the Village. In her smock and sandals, she could be seen any day walking bare-headed through the alleys of

the Latin quarter, shaking her bobbed-head, violently when engaged in argument over the belles lettres or the theories of Freud.

Sonia—she has a last name, but in the Village she is known only as Sonia—is a Bohemian. Thousands of out-of-towners who have visited the Village have seen her slipping from table to table in the fantastic tea-rooms which the Village boasts, juggling the merry-makers, into buying a package of her cigarettes.

DANCE UNSUCCESSFUL Once she went to Boston and there staged a Bohemian dance largely attended by Harvard undergraduates. Arrangements went a bit awry, the dance was not wholly a success, and the police reserves had to be called.

A few months ago she opened a little shop of her own in the Village. To her stock of cigarettes she added erudite tomes and fanciful batiks.

Then she was stricken. Her acquaintances tried to find her. They were all dead, she said. She smiled mysteriously whenever she was asked whether she had had. She just appeared one day in the Village. Tradition has it that her homeland was Russia.

"It isn't so much that I'm down and out," she said bravely. "It's the Village folks didn't come to see me."

Yes, I know, the Village is away up in Provincetown and Croton. But they might send me word or have dropped in to see me before they went."

NTV K. C. CLUBHOUSE. VALLEJO, Sept. 12.—Completion of a new \$200,000 clubhouse will be celebrated September 16-18 by local Knights of Columbus. Every council in Northern California are expected to participate.

## Big Postoffice Is Sent by Mail

(By International News Service) SYRACUSE, N. Y., Sept. 16.—Donald Chase, returning from a Western trip in the interest of the American Legion, tells a story of a \$125,000 post office which is being shipped by mail.

Vernal, Utah, is the town that's erecting its Federal Building through the assistance of the parcel post. The city is 150 miles from the nearest railroad. Government officials did not like the idea of paying big bills for the hauling of material from the railroad. So Vernal's federal building is being shipped in by mail, brick by brick, and while it may take time to assemble it the materials will be taken to Vernal by parcel post employees in the ordinary course of their business.

## Asleep at Wheel, He Gets 25 Days' Term

(By International News Service) CLEVELAND, Sept. 16.—Driving his car while asleep cost John Feicht twenty sleepless days in jail. A motorcycle patrolman, attracted by the erratic progress of his automobile, drew alongside the car and found Feicht sound asleep at the wheel, he testified.

Feicht was awakened and driven to the police station. "You can sleep in jail for twenty days and pay \$25 fine and costs," said Judge Selzer.

## Finds Big Needle in His Breakfast Egg

(By International News Service) MIDDLEPORT, Ohio, Sept. 16.—Harry Kaiser experienced a narrow escape from swallowing a road-sized needle while eating a

boiled egg for breakfast recently. The needle was seen just before Kaiser was about to swallow it. The egg was from his flock of hens. How the needle got inside the shell is a deep mystery.

## Eczema Vanishes In Few Days

Mighty, Powerful Antiseptic Prescription Stops Itching Instantly, and by Its Use Ulcers, Boils, Abscesses and Carbuncles Are Quickly Healed.

Now that tens of thousands know that Moore's Emerald Oil will reduce ugly dangerous varicose veins to normal, we want them to know that this wonderfully effective agent will dry up eczema eruptions in a few days and will cause the scales to drop off and disappear. It acts the same way with any skin disease such as barber's itch, salt rheum, redness and inflammation. So powerful and penetrating is Moore's Emerald Oil that pores are absorbed; goitres and wens are made to disappear and abscesses, boils, carbuncles, ulcers and open sores are healed in a few days. Moore's Emerald Oil is not a patent medicine, but is a surgeon's prescription that for years has been successfully used in private and hospital practice. All pharmacists diagnose it, and complete directions for home use come with each bottle.—Advertisement.

# INTERNATIONAL SPIRIT SEEN AS HOPE FOR PEACE

Failure of Nations to Understand Tongues Held Cause of War.

Internationalism is the world goal, according to Dr. Cardinal Goodwin, professor of American history at Mills College, addressing the student body yesterday. Until this spirit prevails among the nations, the speaker declared, there could be no such thing as world peace. Dr. Goodwin has returned from eight months travel and study in Europe. He reviewed the general economic and social conditions as he witnessed them.

Results of the world war, in the opinion of the authority in history are: The spread of republican ideas, the extension of democratic principles, and the extension of the spirit of nationalism. He called attention to the fact that six of the eight powers engaged in the war had been monarchies. Of these, Germany, Austria and Prussia have destroyed their rulers and adopted a republican form of government and that suffrage has been granted to women in England, Austria and Germany, and the United States.

"The friendly relationship existing between the United States and Canada is due to the fact that both

# BULL HIT BY TRAIN STILL FIGHTS FLAG

(By International News Service.)  
BRAINTREE, Mass., Sept. 16.—It would be great to have bulls educated in flag signals, according to New Haven railroad brakemen.

A bull at Braintree Highlands wandered onto the railroad tracks just as a train was approaching.

The locomotive sideswiped the bull and pushed him aside. According to all good train practice, the train was stopped to see what damage was done to the bull and a brakeman sent to the rear to stick up a red flag to warn any oncoming trains.

The bull, passed by the red flag and forgetting that he had been hit, drove at the red-flagging brakeman like a thunderbolt. The brakeman beat the bull to the platform just about in time.

nations speak figuratively as well as literally a common language," Dr. Goodwin asserted. For contrast he offered the relationships between the United States and Mexico, which lack the common medium.

"Until there is some provision made for a better understanding of the spirit of the foreign nations, there can be no lasting peace," he said. "The commercial rivalry of nations is something to reckon with, each nation striving for a little advantage over the others."

Economic conditions in Austria will be discussed by Dr. Goodwin before the student body tomorrow morning.

# FLAPPERISM ALL RIGHT, COLORADO EDUCATOR SAYS

Common-Sense Tutors Aid Progress of Nation, Says Katherine Craig

DENVER, Sept. 12.—"I would rather a teacher would enter the school room with progressive ideas and present-day customs and dress than one who is as wise as Solomon, as patient as Job and as strong and persistent as Caesar."

She declared that the up-to-date teacher, modern in thought, modern in accomplishments and modern in dress was best fitted for the duty of influencing the child mind.

Miss Craig's statement, given to the International News Service, said:

"Do I endorse 'flapperism' among teachers?"

"Your question is one that is of general interest to the public at large because of the word 'flapperism,' which has been coined in recent years, carrying with it the opprobrium of reproach, mingled with contempt, and reflecting upon the morals of the individual who adopted a form of dress, short hair and an attitude of free thinking and gay personality."

"This idea, as connected with the dress of the present age, is fast assuming a different attitude toward the first opinions. Short dresses, short sleeves, low-cut necks and bobbed hair should not carry the same wrong impression or convey wrong ideas as in the beginning of the adoption of new form of dress and custom, but now, if not carried to the extreme, it should be regarded as sensible, reasonable and comfortable, because it lends grace, daintiness and does not destroy dignity."

"As for teachers adopting the new style or fads, I take the premise that teachers are human beings, and being human beings, they are liable to all the frailties of other human beings and have the same desires, ambitions and inclinations as other human beings."

TEACHERS SHOULD BE UP-TO-DATE.

"This being the case, there is no reason why a teacher should not wear the latest fashion and present-day custom and dress wearing her hair and the custom of using cosmetics, rouge, etc., provided, however, that with it all is combined good judgment, common sense and limitation. I would rather a teacher would enter the schoolroom with progressive ideas and present-day custom and dress than one who is as wise as Solomon, as patient as Job and as strong and persistent as Caesar. The up-to-date teacher will have a better influence upon the child mind and the thinking public than one who is ancient in customs, ancient in dress and ancient in ideas."

"Give me the up-to-date teacher—progressive, one who lives in the present age, one who can see through the public eye, one who can distinguish between extremes, good and bad habits and accepts reasonableness in styles and customs."

YOUNG PEOPLE UNREASONABLE.

"Young people are prone to go beyond reason, therefore the need of curb, but the trained individual who announces to the world that she is qualified to determine all things within reason need make no mistake along the line of dress."

"Give me the up-to-date teacher, modern in dress, modern in thought, modern in accomplishments and modern in doing the things as required in the teaching world. Give me the teacher with pleasing personality, one who deserves admiration from pupils and patrons alike and she will exert a lasting influence upon the coming generation for the good of civilization, morally, intellectually, socially and religiously."

# Succeeds Mother MRS. RICHARD R. HARDIN, newly elected president of the King's Daughters' Home.

Association Names Officials to Direct Affairs of Institution.

Mrs. Richard R. Hardin, daughter of the late Mrs. Matilda Brown, has been elected president of the King's Daughters' Home, the executive office which her mother held for twenty years.

Under the administration of Mrs. Brown, the association grew into importance, building a handsome plant at 2900 Broadway. Here at present are housed approximately 100 men and women suffering from various incurable diseases. The work of the Oakland home is widely known throughout California.

The election of Mrs. Hardin in appreciation of the service rendered by her mother and in recognition of her work in behalf of the institution. For the past 10 years she has been affiliated with the board of directors, serving at times in the capacity of treasurer and secretary. Her election to the presidency was unanimous.

Associated with Mrs. Hardin in directing the affairs of the King's Daughters' Home this year will be: Mrs. C. C. Clay, Mrs. Adam Gilliland, vice-presidents; Mrs. James Taylor, financial secretary; Mrs. John Gill, treasurer; Mrs. G. S. Webb, secretary; Mrs. H. E. Chandler, corresponding secretary; Miss Lela H. Hubbard, custodian of the home fund; Mrs. C. B. Morgan, Mrs. Hart H. North, Mrs. Frank Sibley, directors.

# MURDERER WHO FLED NOOSE SAYS HE IS HOMESICK

(By International News Service.)

ATLANTA, Ga., Sept. 12.—That the call of one's native land is stronger than any fear of punishment has again been demonstrated.

Recently a letter came from far-off Samoa, supposedly written by Will Meyers, principal in one of Georgia's most sensational murder cases, who has eluded the police of the world for twenty-seven years.

After a two months' journey it was finally delivered into the hands of the detective who in 1895 unearthed evidence that resulted in the arrest of Meyers and his subsequent conviction and sentence for the death of Forrest Crowley, of Roswell, Georgia.

Meyers was sentenced twice to hang, but escaped from jail before the day of his execution arrived. After roaming the earth for nearly three decades, the fugitive says, he is beaten in his game with the law and intimates the call of home has driven from his mind fear of the hangman's noose. He declares frankly he wants to come home.

The sight of a four-month-old Atlanta newspaper prompted him to write Edward Cason, Sr., retired Atlanta detective and father of Detective Edward Cason, Jr., of the city force. Meyers, reading of an arrest made by the younger Cason, of whose existence he did not seem to know, evidently believed that the elder Cason is still on the force and expresses surprise that he is still in service.

The crime for which Meyers was sentenced to death was committed when he was nineteen years old and is unparalleled so far as cases of premeditated murder are concerned, veteran police officers say. Meyers frankly admits in his letter that he is "homesick" and expresses a desire to return to the state of his birth.

# Bobbed Hair Wife Receives Spanking

(By International News Service.)

MACON, Mo., Sept. 16.—Cave man tactics didn't "take" with Mrs. Myrtle Anne Barron, eighteen.

Alleging her husband had whipped her because she bobbed her hair, the youthful wife recently filed suit for divorce against John Barron.

The plaintiff said that she was married June 14, 1920, and that she had had her hair bobbed July 4, this year.

"The defendant flew into a rage about it and proceeded to whip and cruelly abuse her," the petition reads.

"Never again," Mrs. Barron vehemently remarked.

# BUSINESS WOMEN PLEDGE SUPPORT

(By International News Service.)

BERKELEY, Sept. 12.—The Berkeley Business and Professional Women's club last night pledged its support to Portland in plans for the entertainment in July of next year of the national convention of Business and Professional Women's Clubs.

Miss Adelia Prichard, president of the Portland club and also head of the Oregon State organization, was a guest of the Berkeley women. She is en route home from this year's national meeting at Chattanooga, where the Oregon city won the meeting for next summer. Mrs. Gladys Barnard, president of the Oakland club, who was also a delegate to the Tennessee meeting, attended last night's meeting. Mrs. Barnard reported 333 business and professional women's clubs affiliated with the national organization. The Berkeley club was paid a tribute by Miss May Wilkins, secretary of the Oakland organization, as the "healthiest infant" ever welcomed into the ranks of the business women's body. Berkeley's charter membership of 118 being declared a record of this kind.

The following standing committees were named last night by the president, Mrs. E. E. Bailey: Membership, Mrs. Laura Durgin; program, Miss Sue Irwin; house, Mrs. M. R. White; hospitality, Mrs. Elizabeth Battee; press, Miss Rose A. Glavinovich.

Plans were made for a dinner and program to be held by the club in Unity hall, the scene of last night's meeting, on September 25.

## IDENTIFICATION AND CAPTURE

Chapter 78.

TWO important factors enter into the problem of bringing the criminal to justice. The first is identification. The second is capture. Sometimes the capture comes first and the identification afterward, however.

Criminals are identified by being caught in the act, recognized by their victims, through disposing of stolen goods, through fingerprints, handwriting, modus operandi, tracks, personal property, photographs, confession, self-betrayal or arrest.

Criminals are captured in the act of committing the crime near some of the crime, disposing of stolen goods, fleeing hiding out, taking refuge with a false friend, in the "roundup" of suspicious characters, in foreign countries, while committing another crime, in a "criminal hangout", through a woman's jealousy, through betrayal by a pal, through death, confession of another, or through an accomplice turning state's evidence.

Most identifications are effected through recognition by the victim, although the other methods are of tremendous importance. If the crook is caught in the act the two problems of identification and capture are solved at once. Should he flee after being recognized, the victim tells the police to look out for John Smith and the hunt is greatly simplified. But if the robber is not caught in the act or recognized, the authorities must hunt only on the other means outlined.

Therefore, where no identification has been made by the complainant or where it is doubtful, the authorities search the scene of the crime for other clues, such as personal effects that the outlaw may have dropped, fingerprints, pieces of clothing, samples of handwriting and tracks. The study of modus operandi is considered very important, as some criminals can be identified by the manner in which they work. There was the case of the finger snapping bandit who always manipulating his digits and who was found working in a shop where this peculiarly behaved him. There was the perfume burglar who always left a trail of perfume on the job. There was the fellow who always twisted off door knobs by using a Sullivan wrench instead of a jimmy.

The pawnshops are searched for the stolen goods and if pilfered articles are found, the seller is located. Finger prints and handwriting are photographed and sent out broadcast to be compared with those of known crooks, where such clues can be obtained. If the man is identified as Bill Spiggs, an ex-convict, through fingerprints, his photograph can be taken from the rogues' gallery and sent to all police departments everywhere. Or if Spiggs is known to be a burglar, a picture of him may be secured from his room, from his best girl, his friends or a photograph gallery that he has patronized.

The method of identification through confession, self-betrayal or arrest is self-explanatory. Identification through being arrested on suspicion, in a roundup or for another crime also is accomplished quite frequently.

We now come to the question of capture.

The most simple capture is when the man is caught in the act, near the scene of the crime, in his room, with the property, by confession, self-betrayal or while selling the loot immediately after.

Of course, the instant that a crime is committed the entire police force of a city is on the alert for the particular crook. Whether the officers know his name, his description or the number of his automobile, they are on the lookout for him just the same. The pawnshop detail is furnished with a description of the stolen articles and searches for them among the known "fences" and secondhand men. The patrolman on the street keeps his eyes peeled for the person answering the description given. The traffic men watch the car numbers. Members of the party squad question their lady friends in the underworld. If a "roundup" is ordered, every known criminal and ex-convict, every hobo and all unknown persons of disreputable appearance are immediately arrested on suspicion and "vagged". The vagrancy ordinances under which police may arrest and hold a man who has "no visible means of support" is of great value here.

And of course the detectives are busy running down all the other clues, hunting out the crook's friends, searching his residence if known, picking up the woman with whom he has associated, ending out descriptions, telegraphic reports and queries to other departments.

This is a mere outline. Of course the actual accomplishment may be much more complex or much more simple, according to the individual instance.

### One Little Yea Among the Noes.

During the Republican National Convention of 1920 the leaders behind the scenes, fearing Senator Hiram Johnson might kick over the traces in the event of the nomination of a presidential candidate displeasing to him, repeatedly made overtures to the Californian to take the second place on the ticket. Invariably Johnson declined the proposition. Toward the last he showed signs of temper.

At this critical period the stage managers invoked the offices of Col. Theodore Roosevelt, Jr., as an intermediary. They counted on the friendship which had existed between Johnson and young Roosevelt's father. Johnson was as brisquy emphatic in stating his position to young Col. Roosevelt as he had been in his language to earlier emissaries.

Nevertheless, right up to the eleventh hour the bosses trusted that Johnson might be induced to change his mind. Three of us, all newspaper correspondents, were in Johnson's room at the Blackstone Hotel in Chicago on the night before the ticket was named, when Johnson's secretary came to say that Colonel Roosevelt was on the telephone desiring to speak with him. Johnson took down the receiver, and we heard him say this, with pauses between words:

"No—no—no—yes—no—NO!"

When Senator Johnson had hung up the receiver and returned to his seat one of those present said: "Senator, I'm curious to know what the question from Colonel Roosevelt was which caused you to reply in the affirmative when all your other answers were such positive noes."

Johnson's eyes twinkled.

"That, he said, 'was when the young man asked me if I could hear distinctly what he was saying.'"

## Three Minute Journeys by Temple Manning

### WHERE A GIRL'S AGE IS TOLD BY HOW SHE DRESSES HER HAIR.

In Dutch New Guinea—which is a political division of the large island of Papua, lying in the Pacific ocean east of Borneo—the life of a woman of one of the tribes is divided into six distinct ages, each of which can be read from the way she does her hair. Kala-Kala is the name of the tribe.

When a Kala-Kala girl is born her head is shaved, and all through her little girlhood she runs about with nothing more than scalp-locks as her sole dress or adornment.

At 10 or 11 years of age the girl is given a circle which she proudly wears, and her hair is allowed to grow. As her hair grows it is divided into many little locks, and each lock is bound with strips of bark.

Day by day Kala-Kala girl makes her debut her hair is colored with red coconut oil. It is then encased in several large cylinders which hang in rows over her shoulders. The ends of her hair are tied with

threads of fibre which hang as far as her knees.

Then comes the day when the girl becomes engaged. Eighteen is the age when most Kala-Kala girls attain this dignity. In honor of her lord she cuts her hair very short. As her hair grows longer during the wait for her wedding day it is again bound with strips of bark.

When she is married the Kala-Kala girl exchanges her elaborate bark coiffure for a very simple way of doing her hair, and discards many if not all of the ornaments she has worn as an engaged girl.

And then when the Kala-Kala woman grows old she cuts off her hair for the last time.

So it is that a glance tells the wise observer just how old a Kala-Kala girl, easily is.

This system of "marking" the social condition of Kala-Kala girls and women has developed through the years into so firm a tribal custom that any one who dared change the prescribed method of dressing her hair without tribal permission would forfeit her life as the price of her whim. But the Kala-Kala

### THE PIRATES CAVE.

One day a boy, whose name was Tom, was out walking in the woods. He came to a large cave. He went in. Soon he came to what seemed to be the end. He found a button and pressed it. A door opened. Tom went in. A man jumped out and said: "Follow me."

Tom followed. They went through a long hall. The man went up a flight of stairs and Tom followed. He pressed a button. A door opened and they went in.

Tom was bound and gagged by three men.

He was carried down a flight of stairs and put in a room where there were a lot of skeletons of people that the pirates had left down there to die.

He squirmed until he got one hand loose. With that hand he got out his knife and cut the ropes.

After he was loose he looked around and found another button. He pressed it and another door opened. He went in to a room with a wireless telegraph in it. He sent a message to police headquarters to help. Some men came and Tom led them through the cave to where the men were.

They pressed a button and a door opened into the room where the pirates were.

The pirates were just going to kill a beautiful young lady.

After the police had gone with the pirates the lady, whose name was Elsie, and Tom went through the cave. They found a chest of gold and silver.

They were married not long afterwards and was given a reward of \$2000.

They were living happily ever after.

Here comes a real wild-and-woolly western—the kind you like best. Albert has done it well.

### THE ADVENTURES OF BIM.

Bim lived in Nevada, and as there was nothing doing there he decided to go to Arizona. When he had reached Arizona he was met by the station of the horse and rough looking men. One of the men was chewing tobacco. Bim was standing near him and the man spit on his shoe. This made him mad.

He swung on the man and knocked him down. The man got up and walked slowly away.

Meanwhile he had grown to be a good friend of the sheriff's. One day as Bim was walking along in town he noticed a crowd of men by the side of the road. He went over there and a sign said "Five thousand dollars reward for the capture of Louis's gang."

Bim bent a "nice young Photo" posed fifty dollars and started to the mountains. He was riding along when he saw two men on horses coming toward him, and he quickly hid in the bushes. About twenty feet away from him the men pulled the bushes aside, pulled two ram coats out. The men slipped on the raincoats, mounted their horses and rode toward the bottom of the falls.

To Bim's surprise they rode straight through the falls. Bim slipped on a raincoat and followed. Inside the cave were a lot of men, each making all the noise he could. When Bim entered the noise ceased and the men stared at him. The men made him put up his hands. They were going to shoot him but Louis said he would let him go if he could shoot a candle. Bim shot—and jumped on his horse and rode to town. He told the sheriff what had happened. He gathered a large number of cowboys and started for the cave. After a lot of hard fighting Louis and his gang were taken prisoners, and Bim was elected sheriff.

When they reached town Bim was in the office talking to the sheriff. After talking to the sheriff for a while the sheriff smiled and handed him five thousand dollars. After Bim was elected sheriff and lived happy all his life.

## LIFE'S DARKEST MOMENT

## Saying it with Flowers

TODAY'S SHORT STORY by Ad Schuster

"WHEW," breathed Ed Wylie, stopping in his tracks and gazing intently over a hedge and into a shadowed lawn. "There is an adventure!"

There was just enough moon to reveal the figure of a man who made his way over the grass. Wylie chose a deep shade and muttered disbeliever at what he saw.

If anyone was to tell me I would see old Peter Q. Wayne sneak over a hedge and into the grounds of Phil Spangler's home, I'd—well, I'd grin and humor the fellow. Yet there he is, holding his coat tails and walking like a ghost. He is leaning on the hedge and waiting developments. He would see the thing through even if he had to face Wayne. It would be a bit strange, asking a man of Wayne's standing what he meant by prowling around in the yard of a neighbor.

Ed had recognized Wayne when he crossed the street a half block down and hurried along the sidewalk. He had wondered a bit at the late excursion like this, but he was not prepared to see the famous financier climb a hedge and tip-toe into the shadows.

"Maybe he has a shortcut to a side door and is calling on Spangler." It was the youth's habit to check a running imagination with plausible theories. "But what's he doing now?"

Wayne was stooped over, possibly seeking to hide behind the flowers and plants in the garden. He darted here and disappeared and reappeared, and looking like the gnomes he moved across the moonlit places. Then he straightened and came toward the hedge.

"Well," said Ed to himself, "here's where I brace old money king and ask him what it's all about."

The financier had one leg over the low hedge when Ed, with ludicrous deference, put his question.

"Mr. Wayne, may I ask why the power in finance collapsed into the hedge from whence his kicking feet denoted efforts at regaining equilibrium. In a moment he was on the sidewalk brushing his clothes and straightening his tie."

"Yes, young man, yes," said Peter Q. Wayne in a businesslike voice. "As indeed, sir."

"Quite so," Ed heard himself rejoin. "Quite so, but what a why?"

The banker made a move to ward the street then looked back at the hedge. He set a loc at the youth who had started him. "You are just the young man I am looking for. You can do me a service. Enter my employ for the moment—see me thru this and ask no questions. You

won't regret it, sir and indeed, it's quite businesslike and proper." The contrast between this bravely spluttering man and the popular picture of Peter Q. Wayne was too much. Ed Wylie laughed.

"Yes, yes, very funny, no doubt, but listen." Wayne went back to the hedge and withdrew from its depths a large bunch of flowers. "Nothing unusual in picking flowers from a neighbor's lawn when you know he wouldn't mind." Wayne passed as with a new idea. "Here you take the flowers. Follow me home, wait exactly ten minutes and unless you see a light go on, ring the bell. Give them the flowers and say to whoever comes—and say it very loud if I come—that you lost your way and are sorry you didn't make it earlier. If they ask you, you are from Ward and Brissac, florists from Ward and Brissac, florists."

Ed held his ground. "It sounds all right, but I do not move until you explain 'You see,' and he struck the right note. "I cannot help being interested. It is a beautiful adventure, and I don't want to deliver those flowers

and walk away as mystified as ever."

Peter Q. Wayne smiled. "Just so, simple thing. Today's an anniversary. I ought to have remembered but didn't. Girl must have forgotten to tear page off my desk calendar. Went home and almost midnight Mrs. Wayne wakes me up. She is weeping. 'What am I going to do?' said I, had remembered all the time, ordered flowers, didn't she get them? Oh, I put it on heavy. Even said I had been wondering when she had not mentioned them."

"If we are lucky she is sleeping yet. That's what I mean by the light. If she wakes up and finds me gone or just in, it will go on. Hurry, if you intend to help me! There was appeal in the voice."

The cold and unapproachable Peter of newspaper and magazine accounts stood before Ed Wylie somewhat shamefaced and entirely human.

"Hurry, yourself," said Ed. "I'll tag along with the flowers."

### Roman Signs and Sacrifices

THE ROMANS believed in signs. When they wanted to know whether to do this thing or that, they tried to find out "the signs." Some persons looked at birds flying overhead. Others cut up animals, to see what "signs" were inside.

Perhaps most interesting of all was the custom of keeping certain chickens and calling them sacred. If someone wanted to know whether a plan would succeed, he tried to feed the chickens. If they ate heartily, it was a good sign. If they refused to eat, the plan was probably given up.

No doubt the poor chickens were stuffed so much with food that they found it hard to eat.

It is said that an ancient Roman admiral tried this test. The sacred chickens wouldn't eat. The admiral became so angry he picked them up and threw them into the sea.

Many Romans, however, were

## Lucretia Bori on BEAUTY

HOW A VERY SIMPLE EXERCISE WILL GIVE YOU REAL SYMMETRY.

Symmetry of form and perfect proportion are beauty points to be prized even above beauty and regularity of the features of the face. A well-moulded, symmetrical developed body usually argues perfect health and the proper natural development, which requires a more necessary to the full enjoyment of life. Lucretia Bori is the desirable possession of a beautiful face.

Lucretia Bori

Many faces have just claims to beauty, although they do not show features of marked regularity, but the human body must show proportionate development before it can claim to be beautiful. A face with too regular features, in fact, may miss being really beautiful, because it has a doll-like expression which robs it of interest. Whereas, a slight irregularity of features gives the face the needed quality to make it interesting and attractive to us.

You probably have friends of this description, whose faces are so regular and placed that you wish the nose could become a bit tilted or the mouth a bit curved at one corner for the sake of added interest.

But if this friend is also the possessor of a beautifully-proportioned body you will never wish that she possessed less regularity of physical development—that is, if you are charitable.

If you are less lucky, and have not inherited or developed a body as lovely in its moulding, it is never too late for you to make an effort to improve the lines of your figure.

The big mistake to avoid is overdevelopment in some one part. Perhaps you have seen an attractive musical comedy dancer—I have seen a one in mind at present—whose beauty would be perfect except that she possesses legs which are prone to bulge in the wrong places. Most often, this is due to improper training in dancing, with the result that some muscles are overdeveloped, while others are hardly called into play at all.

You should be careful in putting yourself through prescribed exercises, to regulate them so that all parts of your body receive equal development. If you have some favorite exercise which develops your arm and neck muscles, alternate it with another which is equally good for the muscles in your legs and hips.

If you prefer to combine the two in one, there is no more excellent exercise than the following:

Imagine that you are climbing a rope which hangs from the ceiling. Place yourself before this imaginary rope and grasp it, one hand placed well above the other, and your foot raised as if to get a good toe-hold.

Now begin climbing as if you were pulling yourself upward, hand and foot over foot.

Imagine you are holding as tight as possible and pulling with the muscle tension which would really be necessary if you were lifting the weight of your body. If you do this with the proper concentration you will really feel tired after ten or fifteen counts, and will want to rest a few minutes before you try again.

Go slowly, as if you were really struggling to reach the top of the rope. The result will be excellent for both your muscles and your imagination.

### ODD FACTS

The planet Venus moves around the sun at an average speed of 22 miles a second.

In olden times the speed of a ship was measured by pulling a piece of wood through the water. The name "log" has stuck to the mechanical devices now used to measure the speed of a ship.

Many wild flowers are harmful to eat, while some are really poisonous, such as the buttercup.

Marine shells of warm climates excel all others in beauty of coloring and high polish.

Water in the vicinity of the Panama canal zone are thickly infested with sharks.

In Australia there are ants which build their nests along a north and south line so accurately that a traveler may direct his course by their aid.

Flats have been built privately in a California town in which no single person is allowed, and where marriage couples with no children must pay double rent.

drink were placed beside his body in the tomb. Animals were sacrificed, and milk or wine was thrown on the ground. This was repeated every year. If the relative forgot, the soul was supposed to become evil and to bring bad luck.

Animals were sacrificed in honor of the gods, as well as for the spirits of men.

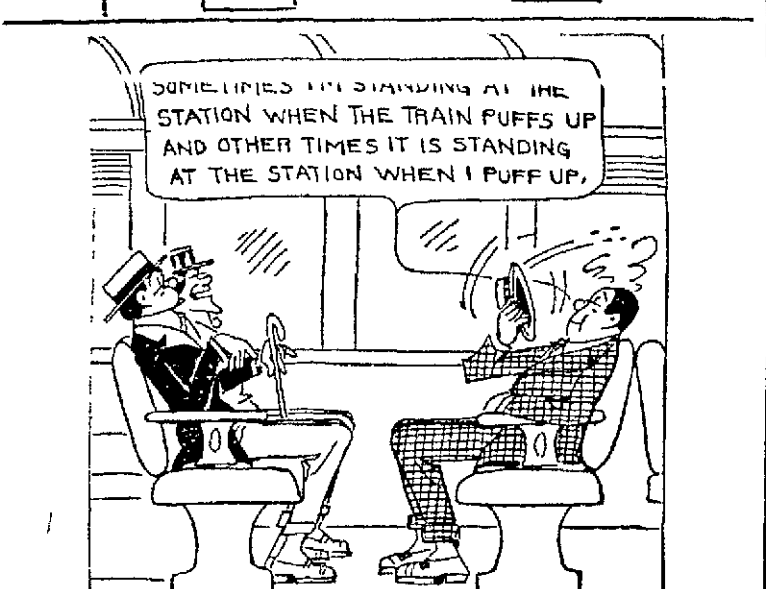

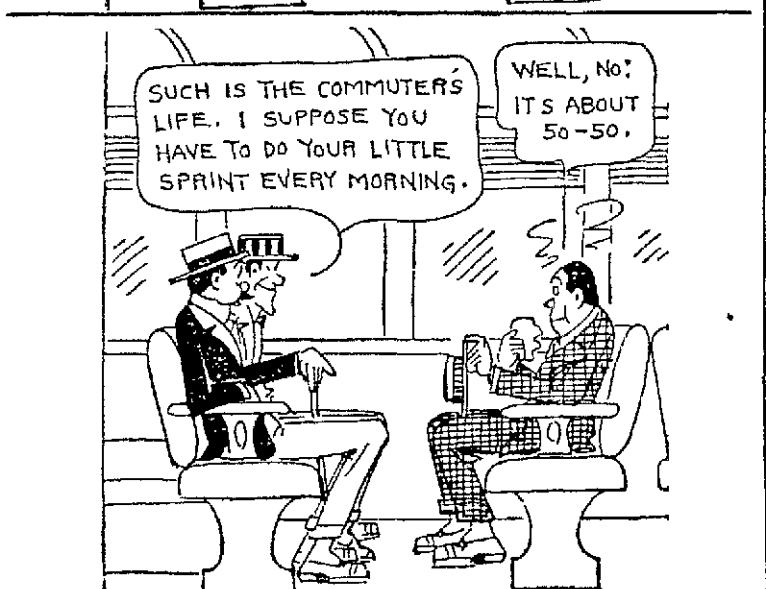

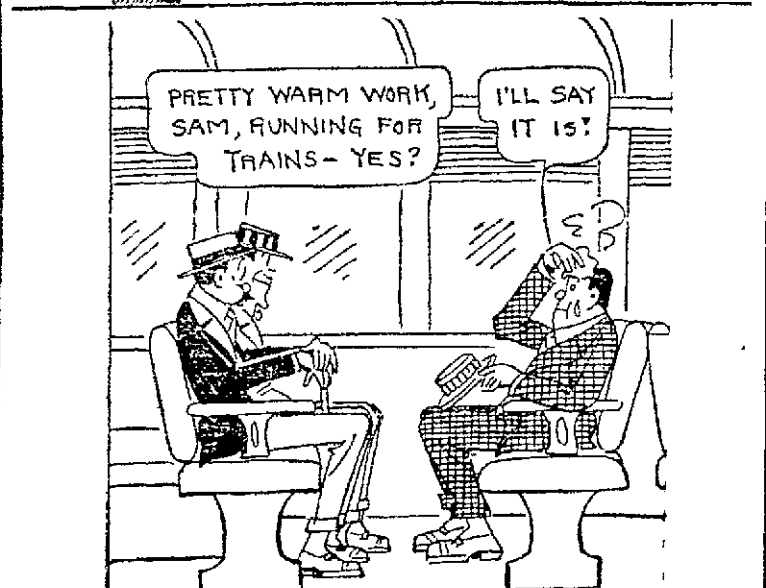

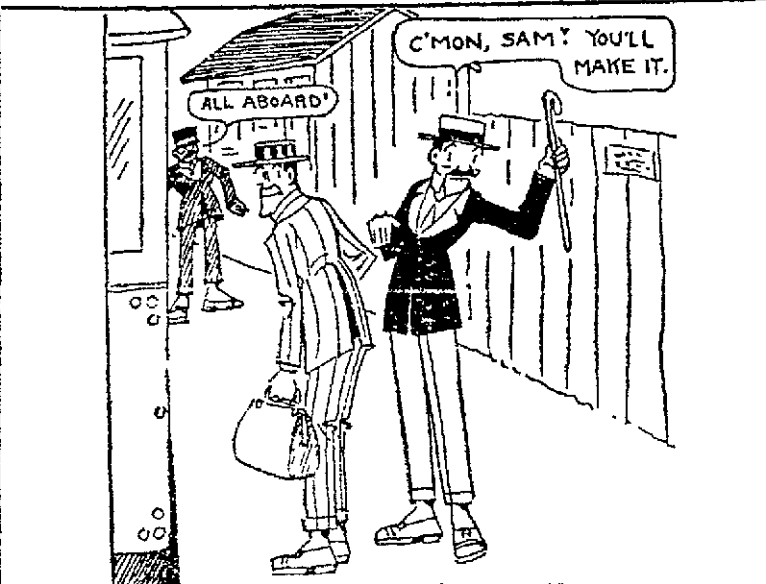

Cattle, oxen and sheep were the creatures most often killed. Flour and salt were sprinkled over each animal, its head was covered with cloths, and then the priest raised a large knife or an axe for the death-dealing blow. Prayers were said by those looking on. The bones and fat were placed on the altar and burned.

# Uncle Wiggily Stories By HOWARD R. GARDNER

"Come on, Uncle Wiggily, come on with us!"

Several voices called this invitation outside the hollow stump bungalow of the rabbit gentleman one afternoon.

Uncle Wiggily, who had just awakened after a sleep in his easy chair, looked at Nurse Jane Fuzzy Wuzzy, his muskrat lady housekeeper. Miss Fuzzy Wuzzy had also been taking a little sleep.

"Did you hear that, James?" asked the bunny.

"You mean some one calling?" inquired Nurse Jane.

"Yes," spoke Mr. Longears, and again the voices called.

"Come on, Uncle Wiggily! Come on with us!"

"Well, I didn't dream it, anyhow," whispered the rabbit uncle. "At first I thought I was dreaming."

"No, it wasn't a dream, for I heard the voices, too," spoke the muskrat lady. "I only hope, Wiggily, that it is not the Skilley Scammy wags after you again. If he is, there is no snapping turtle here to save you."

"I don't believe it's any of the bad animals," said Uncle Wiggily.

Then the voice called out again:

"Come on, Uncle Wiggily! Come and play with us!"

"It's all right," said Nurse Jane, who had looked from a side window. "It is four of the animal girls, Lulu and Alice Wiggibobble, the ducks, and Susie Littlebit, the rabbit, with Nannie Wagtail, the goat. They are on the steps."

"Oh, well, they won't nibble my ears!" laughed Uncle Wiggily, and soon he was being led down the garden path by the ducks, the rabbit and the goat girls.

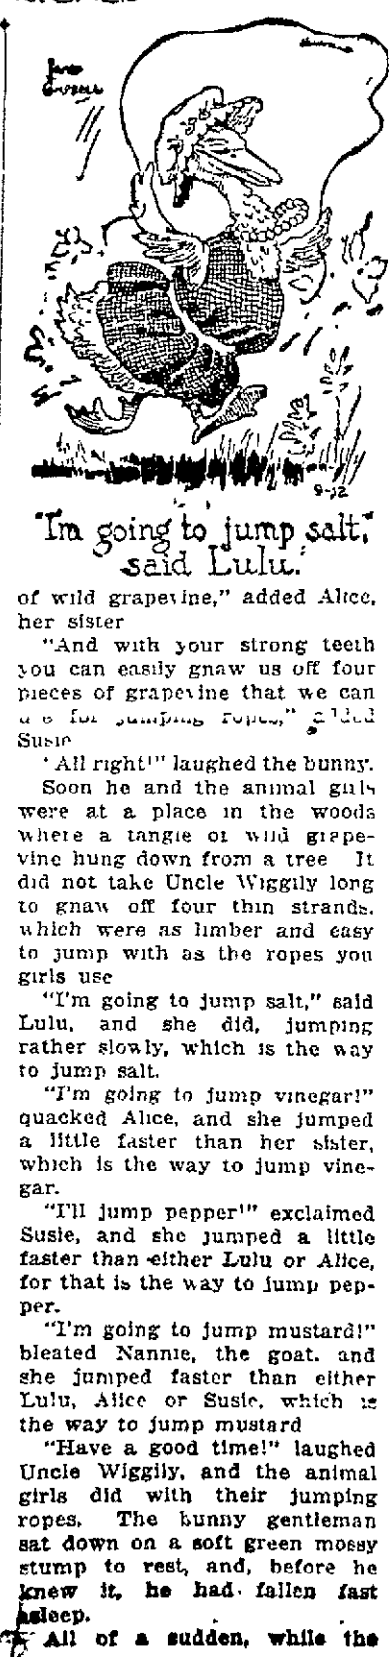

"Where are you taking me?" asked Uncle Wiggily, as he skipped along, for he felt jolly and chipper after his sleep.

"We want you to get us some jumping ropes!" bleated Nannie.

"Well, then I had better go back in my bungalow and get some money," spoke Mr. Longears. "Jumping ropes cost money, even at the three and four cent store."

"You don't have to buy the ropes we want!" quacked Lulu, the duck.

"The kind we want are pieces

## 6. O. P. LEADERS SEE INDORSEMENT IN MAINE RESULT

### Utah Senator Charges Loan to Liberia Proposed As Vote Getter.

WASHINGTON, Sept. 12.—(By United Press.)—Republican chiefs lined up the Maine election victory as "an endorsement of the Republican administration" in Washington today.

John T. Adams, chairman of the Republican national committee, declared that the victory was "a resounding endorsement of the Republican party" and that the "maine result" was "a vote for the Republican party."

Portland, Me., Sept. 12.—(By United Press.)—The election in Maine yesterday, with 44 small towns missing, showed a "resounding endorsement of the Republican party" and that the "maine result" was "a vote for the Republican party."

John T. Adams, chairman of the Republican national committee, declared that the victory was "a resounding endorsement of the Republican party" and that the "maine result" was "a vote for the Republican party."

WASHINGTON, Sept. 12.—(By United Press.)—The main election results were projected into Senate debate this afternoon when Senator King, Democrat of Utah, charged that the proposed \$5,000,000 loan to Liberia was "a vote for the Republican party."

King charged the Republican steering committee with the legislation. His statement drew a reply from Senator Curtis, Republican of Kansas, that "the Maine result showed the north was going Republican, as usual."

COX, ALLEN WAGE HOT  
FIGHT IN BAY STATE.

BOSTON, Sept. 12.—The vote in one of the most bitterly contested primary elections in the history of the state was being polled here today. Chief interest probably centered in the fight between Governor-elect Joseph P. McKenna and Attorney General William A. Allen for the Republican gubernatorial nomination.

In the contest for Democratic nomination, ex-District Attorney Joseph P. McKenna's appeal for vindication through re-election received the endorsement of the Democratic nomination for United States senator. They were William L. Gaston, D. L. Sharpe, John J. Walsh and Sherman J. Walsh.

### Wooden Shingles Declared Menace

Characterizing wooden shingles as "the nation's greatest fire and conflagration hazard," the campaign committee of the California Fire Chiefs interested in defeating the referendum on the state housing bill, today made public resolutions adopted by the committee, of which Fire Chief Sam H. Short of Oakland is chairman.

The state housing law was originally passed by the last session of the legislature. Among other provisions is one removing the restrictions of the present law by which no hotel or apartment house can be erected to a height greater than one and a half times the width of the street upon which it faces. The law was held up on referendum. The type of roofing permitted is at the discretion of local authorities charged with the enforcement of the law and it was pointed out by the California Housing and Building Institute, that was responsible for the law originally, that wooden shingles may be permitted "if in the discretion of the local fire chiefs or building bureau or committees it is advisable to use them."

### Jury Weighs Facts in Trial of Woman

The case of Dr. Minnie Leach, charged with violating the medical practice act, went to the jury shortly after the noon hour today. The case was submitted to the jury without any evidence being offered by the defense. Arguments were limited and Dr. Leach's attorney, Preston Higgins, waived his opening argument.

The counsel table, at which sat Attorney H. W. Brunk and the defendant, was heaped high with flowers; the offerings of numerous patients and sympathizers who crowded the court room during the trial.

### 16 Marriages, No Divorces, County Showing for Day

THE "God of Love" scored a crushing defeat over his enemy "Divorce," the imp who wrecks domestic felicity, in Alameda county yesterday. The day will go down in history as the first one in several years when not one divorce suit was filed in the superior court, while sixteen brides-to-be and grooms-elect announced their intention of entering into wedlock by securing marriage licenses.

Clerks in the marriage license bureau spent a busy day issuing licenses to couples about to embark upon the ties of matrimony, while the clerks who file divorce complaints found time hanging heavy upon their hands. But County Clerk George Gross or his deputies did not complain about the situation. Indeed they expressed a hope for frequent repetitions of yesterday's record.

### SYMPHONY BOOST BODY HOLDS MEET

The cause of music in Oakland was advanced another step last night when the Committee of One Hundred met at Hotel Oakland to make further plans for the series of San Francisco symphony concerts, which will begin at the Oakland Auditorium, October 28.

Men and women leaders in many different lines of activity, who have been identified with the committee from the start, gathered in the Rose room, to listen to a dozen short addresses on why the Bay Area cities should give the most generous support to this great musical venture. Miss Zanele W. Potter, under whose direction the series will be given, acted as chairman.

A. W. Widenham, manager of the Oakland Symphony, talked enthusiastically of the symphony, declaring that the great Alfred Herz organization of the symphony should serve all the cities in northern California, not only San Francisco.

Fred Kahn, Oakland merchant, pledged the support of the symphony in securing a series by a \$180,000 organization at a cost not exceeding \$20,000. Eugene S. Blanchard, Piedmont musician, declared the symphony is the very highest class musical organization possible and that its concerts can be depended upon to appeal to all classes of people. Roy Harrison Danforth urged support for the symphony on the ground that dramatic effects of the symphony can be depended upon to appeal to all classes of people.

Among the other speakers were: Wilbur S. Russell of San Leandro, on "The Real Musician"; Arthur Kahn, on "The Musician's Role"; and Carl Nicholson, Mrs. Irma Randolph gave several vocal selections, accompanied on the piano by Mrs. A. Comstock.

## ALL REPUBLICAN NOMINEES WILL BE SUPPORTED

### Central Committee of Alameda County Organizes For Campaign.

Pledging united support to all the Republican nominees of Alameda county and to the interests of the Republican party as a whole to the end that it be strengthened and fortified in coping with national and state problems, the Republican Central Committee, in organizing at noon today, adopted the following resolutions:

"Resolved, That the Republican Central Committee, organized in pursuance of law on the 12th day of September, 1932, does hereby pledge its energies and zeal to the advancement of the Republican party to the end that it may be strengthened and fortified in coping with the great and pressing problems that beset national and state governments alike, and be it further

### Divorced Barber Must Ply Shears In Ex-wife's Shop

SAN FRANCISCO, Sept. 12.—Superior Judge Van Nostrand today awarded Mrs. Diamond Keffoury a divorce from George Keffoury, custody of their two children and her husband's barber shop.

"I'm not a barber, though," Mrs. Keffoury suggested.

"Never mind," said the judge, "your husband is, and he will run the shop for you."

The court instructed Keffoury to continue running the shop, specifying that the "barber business, razors and shears" are property of the wife.

"You are merely working for her," explained the judge.

"And as to profits, you must turn over to Mrs. Keffoury at least 50 per cent."

So it's up to Keffoury to make his wife's barbershop pay.

### VETERANS HEAR OF STATE MEET

Ex-service men present at the weekly luncheon of Oakland Post No. 5, American Legion, held yesterday, were given a report of the Legion convention in San Jose and the convention of the "Forty and Eight" society at San Jose last week.

Richard M. Lyman, Jr., reporting for the Forty and Eight, announced that the convention was held at the Hotel Oakland, San Jose, and that it was the most successful state convention yet held since the organization of the Legion.

### STUDENTS FREED ON CHARGES OF 'BEATING' FARES

Charges of evading payment of railroad fares against David Perry, 21, and Arnold Runwell, 15, both students at Stanford University, were dismissed today by Police Judge Edward J. Tyrrell.

They were arrested last night by Policemen W. J. Hughes, after they had climbed on a Western Pacific freight train at Third and Washington streets.

This morning they told Judge Tyrrell that they had come from Headlands where they had spent most of their money. They had a small amount of money left, but they wanted to save it. After being arrested they were released on \$10 bail each. Following the motion of Prosecuting Attorney William Hennessy, the case was dismissed. They told the court they would ride home and not attempt to beat their way.

### Steel Concern Sued For Contract Breach

Failure to consummate a deal which a bond issue for \$125,000 secured by a deed of trust was to be prepared is charged by George D. Roberts & Company, bond brokers, in a suit filed in the Superior court today against Henry Dalton & Sons Company, manufacturers of steel and iron products. The complaint alleges breach of contract and asks \$12,500 in damages.

### Santa Clara Injured in Fall From Horse

SANTA CLARA, Sept. 12.—As the result of the first accident occurring in Santa Clara in which a horse figured in many months, T. Pavia, local young man, is a patient in the county hospital, undergoing treatment for injuries which may prove serious. Yesterday Pavia, accompanied by two companions, was riding horseback on Franklin street. In some manner the cinch of Pavia's saddle worked loose, causing him to fall heavily to the pavement. Pavia was knocked unconscious by the force of the fall. It will be several days before the exact extent of his injuries are known.

### Woman Dies From Mysterious Burns

STOCKTON, Sept. 12.—Mrs. Mary C. Carr, wife of E. M. Carr, a Knights Perry sheepman, died in the Oakland hospital yesterday from burns sustained Sunday. Mrs. Carr was burned when quantity of phosphoric acid caught fire in a mysterious manner in the auto she was driving. She was alone at the time. Practically all of her clothing was burned off her body. She was found in the machine by her husband and taken to Oakland. She was a native of Hayward and was 66 years of age.

### Father Confesses To Slaughter of Two Daughters

KANSAS CITY, Sept. 12.—(By International News Service.)—After hours of severe grilling at police headquarters today, Dr. Nello 47-year-old broke down shortly before noon today and confessed, according to the authorities, that on Saturday, September 2, he took both of his daughters to the banks of the Missouri river, near here, beat them on the head with a hammer and threw their bodies into the water.

The victims were Flora, 11, and Nellie, 10. Both of whom bodies were found floating in the river.

Dr. Nello could not assign a reason for his act. He said Mrs. Nello was shopping at the

### Barber Too Rough, Says Wife in Suit

Frequent absences from home at night, sarcastic utterances and a beating which he administered to her when she protested because he slapped the baby, are charged against James W. Moscrop, a barber, in a suit for divorce filed today by Mrs. Elizabeth E. Moscrop.

### Relief Fund to Be Raised For Miners

HAYWARD, Sept. 12.—Under the direction of Hal Angus a committee of local citizens is arranging a relief fund to be held Friday in Native Sons hall as a benefit for miners employed in the Argonaut mine, near Jackson, and their families. Angus and his committee are confident of the success of the tournament.

Support is being promised throughout the town, and reservations are being made rapidly.

### City Council Passes Amendments to Traffic Laws to Prevent Congestion.

HAYWARD, Sept. 12.—Plans for the improvement of Memorial Park will be started by the city council and the park commission within the month, it was announced today by Frank J. Cunha, member of the city council and chairman of the park commission. Jesse B. Holley, city engineer, has been instructed to prepare a topographical map of the park, and will begin as soon as the present street repair work is sufficient under way to permit him to devote his time to the park matter.

With the map completed the park commission, meeting with interested citizens, will decide on a program of immediate improvements to be presented to the city council for approval. Cunha said that between \$5000 and \$6000 will be spent on first improvements of the park. It is planned to have all arrangements made as early as possible so that the improvements may be completed by next spring.

The final plans for the park, Cunha said, will probably include the institution of public playgrounds, a swimming pool, pavilion and numerous other accommodations.

### Boy Scout Work Is Subject of Address Decline in Schools

HAYWARD, Sept. 12.—A marked decrease in nutrition is indicated in the Hayward grammar schools by the figures compiled this year by Miss Ollie C. Shafer, public health nurse, it was announced today by W. B. Kammerer, principal of the school system. While the death percentage of decrease is not yet known, and cannot be ascertained until Miss Shafer has completed her survey, it is believed that the decrease will be a substantial one.

The decrease is accounted for by school authorities by the work of the health center in combating the condition and the Civic League of Women Voters in supplying milk for grammar school students. An extension of the milk supply to include the main school, the John Gamble school, the Orchard avenue school, and possibly Hayward Heath and Fairview, is contemplated by the Civic League, it was announced recently by Mrs. L. M. Turner.

### Woman Speaks to Voters' Civic League

HAYWARD, Sept. 12.—Miss Gail Laughlin spoke this afternoon before members of the Hayward Civic League of Women Voters for the enactment of legislation to forbid any but lawyers giving legal advice. The meeting, held in the rooms of the Civic League on Main street, was well attended.

### Breeders Work On Quality of Stock

HAYWARD, Sept. 12.—With answers to 21 out of 33 questions sent to members of the Alameda County Poultry Breeders' Association, work has been started to establish the quality of stock of the association and in completing marketing arrangements. The board of directors of the association will go over the questionnaires and determine that each member is entitled by his stock to the benefits of the association.

### Boy's Case Remanded to Juvenile Court

HAYWARD, Sept. 12.—Dan Schilling, 12, was remanded today to the juvenile court yesterday by Judge Jacob Harder Jr. to answer to a charge of theft brought against him by N. W. Nielsen, father of Miss Nielsen, from whom \$3.85, cash, was stolen. Nielsen, according to Judge Harder, admitted the theft yesterday after a severe grilling by the officers. He was arrested Saturday by F. P. Schilling, city marshal.

### World War Veteran Weds Missouri Girl

WOODLAND, Sept. 12.—Lester Germeshausen, Woodland farmer, and Mrs. Nathaniel Germeshausen, Sacramento valley, pioneers, were married last night to Miss May LaBonte, who came to this city about three years ago from Missouri with her parents. Germeshausen recently purchased the big ranch of his parents at Plainfield, a few miles from Woodland and the young twain will make their residence there.

### Los Gatos Will Have Baby Welfare Day

LOS GATOS, Sept. 12.—Elaborate plans for baby welfare day are being laid by members of the Los Gatos Health Center, the event to take place about October 1. A special corps of a dozen nurses and physicians and surgeons will be on hand to examine the babies brought to the headquarters of the health center. Mothers of the community are showing great interest in the forthcoming event and are co-operating in every possible manner.

## HE WAS TOO GOOD TO WIFE, SO SHE LEFT, SAYS MATE

### Centerville Man Asks Divorce; Wife Forbade Him to See Relatives

There may be truth in the old adage "there is nothing new under the sun," but it remained for Walter J. Rogers, Centerville resident, to give voice to something decidedly unique in divorce actions. He testified that his wife, Florence Rogers, left him not because he beat her or failed to provide her with the necessities of life, or any of the other hundred and one usual complaints, but because he was too good to her.

On the day that she left him, she was according to his testimony before Superior Judge Kinsell today, "a better man than the best man that ever lived. You are killing me with kindness. I am leaving you at once and I never want to see you again."

Rogers said that his wife refused to allow him to associate with any of his relatives, expressly forbidding him to call on or communicate with his mother, who is 79 years of age. He said that there had been no quarrel between the two, but that his wife took sudden dislike to him. He brought his wife home a family reception was planned in her honor but that she refused to attend, saying she preferred to go to a hotel rather than be entertained at the home of the relatives.

The couple were married November 23, 1919, and separated February 24, 1930.

### WIFE OF SLAYER JOINS IN VIGIL UNTIL HANGED

DES MOINES, Sept. 12.—Mrs. Mattie Weeks, wife of Eugene Weeks, sentenced to be hanged at Fort Madison, Friday for the murder of George Fostick, Des Moines grocer, left Des Moines today for Fort Madison to spend as much time as possible with her husband before he is executed. She plans to have the body sent to Des Moines for burial. Mrs. Weeks is now living in Omaha.

### Oakland Man Jailed On Speeding Charge

ALBANY, Sept. 12.—James Hegny, of 4101 Railroad avenue, Oakland, was given 15 days in the county jail yesterday by Judge Jacob Harder. He was arrested September 4 by Joseph Brandon, traffic officer, on a charge of reckless driving, following his collision with H. M. Meyer, owner of the Foothill Boulevard garage, in Oakland, at Castro and Simon streets here.

# Eat MORE EGGS

FROM the time your appetite calls "good morning" until it turns in for the night—from breakfast dish to chafing dish—eggs are your star food. The handiest food in the house—and the cheapest! Consider their food value; their mineral matter; their vitamins. And consider this: No food that even approaches eggs in food value can be used in so many surprising ways. At meals and in between, indoors or out, eggs are in good taste anywhere on any occasion. Eat more eggs!

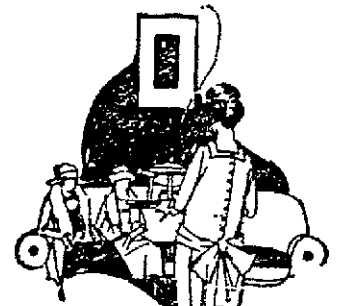

**—for the lunch box**  
**HARD COOKED EGGS:** Cover eggs with cold water, set over a low fire and cook to the simmering point. Remove from fire and let stand in the hot water 20 minutes. Cooked in this manner the egg will be firm but meaty and easily digested.

**HAM AND EGG SANDWICH:** Four hard-cooked eggs; 1/2 cup chopped cooked ham; 2 tablespoons mayonnaise. Shell eggs and chop very fine. Add remaining ingredients and spread between thin slices of bread.

**—what's a picnic without eggs?**  
**STUFFED EGGS:** Hard-cooked eggs (as many as desired); cut half lengthwise, remove yolks; to the yolks add salt, pepper, chopped pickles, or olives, and thick mayonnaise dressing. Refill the whites and wrap each egg in waxed paper.

**EGG AND SARDINE SANDWICH FILLING:** Slice hard-cooked eggs and place in a layer on buttered bread. Remove bones from sardines and rub to a paste. Spread on a slice of buttered bread, then place over egg.

**—for the impromptu supper**  
**CURRIED EGGS:** Six hard-cooked eggs; 1 cup medium white sauce; 1 tablespoon shredded green pepper; 1 teaspoon curry powder; 2 cups cooked rice. Prepare sauce, adding peppers, onion juice, rice and curry powder, which has been moistened and mixed with a little cold milk. Heat thoroughly. Remove eggs from shell, cut in quarters. Pour hot mixture into a serving plate and garnish with the eggs.

**2 Eggs = [value]**  
2 whole eggs = 1 whole egg + 1 yolk  
1 whole egg + 1 yolk = 1 whole egg + 1 yolk  
1 yolk = 1 yolk  
2 yolks = 2 yolks

## NAVAL PLANES ARE TO ENTER PULITZER RACE

Lieut. Frank C. Fechteler of San Rafael to Pilot One of Entries.

DETROIT, Sept. 12.—(By the Associated Press)—Seven United States naval airplanes will participate in the Pulitzer race when the 100 mile test is staged in the air here October 14, it is announced by the Naval Bureau of Aeronautics. In addition, there will be a number of machines representing other branches of the American fighting forces, as well as those entered by civilians.

The navy also will make an effort to capture the Curtiss Marine trophy in the race to be held over Lake St. Clair, near here, October 7, having entered eleven seaplanes in this event. One naval entry has been announced for the Liberty Motor Builders trophy race for observation planes, her 12.

The naval entries for the Pulitzer race include the Curtiss O-12 engine, 400 horse power. A similar type won the 1921 Pulitzer trophy race at Omaha. It has a speed of 180 or more miles an hour, to be piloted by Lieut. Frank C. Fechteler, U. S. N., of San Rafael, California.

**OTHER ENTRIES.**  
Two planes, engines and specifications not given, will be driven by Ensign Alford J. Williams, Jr., of New York, former member of the New York National League baseball team, and Lieut. Rutledge Irvine of Brooklyn. Two Booth Navy racers (B-1) with Wright H-3, 400 H.P. engine. Each of these entries has a retractable landing gear by means of which the entire gear is pulled into the body or fuselage while the machine is in flight. Only an unbraced monoplane wing is used and no radiator is carried, the wing being covered by a thin sheet of copper under which water circulates. This makes the wing act as a radiator as well as a wing.

If these planes survive the test of the race they will affect the future design of all military and naval aircraft, it is expected. Pilots: Lieut. Stephen W. Callaway, Bismarck, N. D.; Lieut. David Rittenhouse, St. Paul, Minn.; Thomas - Morse - MB - 7, with Wright H-3 engines, 400 H. A. Y. A monoplane, has a speed of 180 miles an hour or more. Pilot, Captain Francis P. Mulcahy of the U. S. Marine Corps, Rochester, New York.

Curtiss TR (Wildcat) with Curtiss O-12 engine, a triplane that won second place in the 1921 Pulitzer race. No pilot announced. The Pulitzer trophy, for which the race will be run, was donated by Ralph Pulitzer, proprietor of the New York World. Cash prizes of \$1200 for first place, \$800 for second place and \$200 for third place also will be given.

**NAVAL ENTRIES.**  
The naval entries for the Curtiss Marine Trophy race, include the following:  
Vought UO-1 seaplane with aeromarine engine (250 H.P.) with a speed of 130 miles an hour. Pilot, Lieut. Commander M. A. Mitscher.

Curtiss H-16 seaplane with two high-compression motors of 420 horse power each. Pilot, Lieutenant Irving.  
Gallaudet D-4 seaplane, with one high compression motor of 420 horse power. It is the only machine in the country using the gear drive. The motor is located in the fuselage, the propeller directly behind the wings on a gear ring through which the body and tail structure of the plane extends. Pilot, William Kenneth Patterson, American war birdman.

Two Navy H-16 seaplanes, with Curtiss O-12 engines, 400 H.P. Pilots, Lieutenants T. E. Lee of the Navy and Lawson H. Sanderson of the Marine Corps.  
Vought E-7H, seaplane, with Wright 240 horsepower engine. Pilot, Lieut. H. A. Elliott, U. S. N., Sidney, Ohio.  
Navy TS-L, seaplane, with Lawrence J-1, radical air cooled engine, 220 horsepower engine. Lieut. Callahan, pilot. Navy TS-2, seaplane, with Lawrence J-1, radical air cooled engine, 220 H.P. Pilot, Harold J. Brown, U. S. N., Providence, R. I.; Navy TR-1, seaplane, with Lawrence radical air cooled engine 220 H.P. Pilot, Lieut. A. W. Gorton, U. S. N., Pawtucket, R. I.; Navy TR-3, seaplane with Wright D-3 engine, 220 H.P. Pilot, Lieutenant Rittenhouse; Curtiss HA-2, with Curtiss D-12 engine, 400 H.P. Ensign Williams, pilot. The navy entry in the Liberty Motor Builders race is Vought E-7H, a land plane with Wright 220 H.P. engine. Pilot, Lieutenant Elliott.

**Kojima Island For Sale by Japan**  
TOKYO, Sept. 12.—The island of Kojima, belonging to the Hachijo group between Iriomote and the Bonins, is for sale. It has a circumference of between seven and eight miles and boasts of two villages of inhabitants who are mostly farmers and fishers and live chiefly on sweet potatoes. The resources of the island being limited, they are too poor to meet the taxes which are troubling the village assembly. As a way out of the difficulty the assembly has decided to sell the island at the price of 150,000 yen, together with 3500 yen for the fishing rights. It is reported that the inhabitants of Rishima, a neighboring island with a population of 305 persons, also are desirous of selling their island.

**Japanese-Chinese Trade Increases**  
TOKYO, Sept. 12.—The foreign trade of the Japanese Empire with the Chinese republic for the month of July resulted, according to the returns just published by the Finance Department, in an excess of export over import amounting to 10,948,000 yen, the former reaching 23,707,000 yen and the latter 12,759,000 yen.

The above brings the gross total of the trade since the beginning of the current year up to 130,383,000 yen, for exports and 95,949,000 yen for imports, the former indicating an increase of 30,438,000 yen and the latter a decrease of 807,000 yen, with an excess of export over import amounting to 34,440,000 yen.

## PIRATES PREY UPON CHINESE SHIPS AT WILL

DAIREN, Kwantung, Manchuria, Aug. 15.—(Correspondence of the Associated Press).—There is a real nest of pirates on Hsiohshima island, not far from this port, whose exploits with two junks have terrorized the junkmen of these seas and whose outwitting of revenue officers would make fiction writers despair of their creative imaginations.

They have roamed the seas for months, established a base in a cave of rocks on the island and defied the revenue men to turn them out. The latter accepted the challenge. They armed the steamer with a small naval gun and went out to arrest the pirates and seize their loot.

But the gun made no impression on the pirate stronghold and the pirates, with well directed rifle fire drove the revenue officers from the island and sent them back to Dairen discomfited and nursing wounds.

## TEN-CENT MILK MAY BE MADE PERMANENT HERE

Dealers Make Fair Profit At Present Price, They Say.

The 10-cents a quart price of milk, established recently by three local milk companies in the course of a fight against an alleged "milk trust," is likely to become permanent in this county, according to a statement made today by one of the officials of the company.

"We make a fair profit at 10 cents and hope to keep the price there," said A. W. Vickery, manager of the Valley Creamery company.

Vickery denied that his company and two other local concerns selling 10-cent milk are controlled by the Associated Milk Producers of San Francisco and that the 10-cent price is a temporary measure designed to force all Alameda county dealers into the association's ranks.

"We are in no way affiliated with the San Francisco Milk Producers' Association," he declared. "We have no contracts with them what-

ever. We have set our 10-cent price to show the public our good faith."

Attorney Joseph J. McInerney of San Francisco is gathering evidence with which he will endeavor to support recent charges made to District Attorney Brady of San Francisco to the effect that a milk "combine" is being formed in that city. McInerney asked for a grand jury investigation.

Until the recent reduction to 10 cents by three local companies, milk has been 12 cents a quart in Alameda county and 13 cents in San Francisco.

## Three Injured As Automobile Capsizes

SUNNYVALE, Sept. 12.—Mr. and Mrs. George Martin of Mayfield and their son, Roger, of San Luis Obispo narrowly escaped death early yesterday morning when young Martin, who was driving his father's automobile, lost control of the car, which left the highway and overturned in an orchard about a mile from this city.

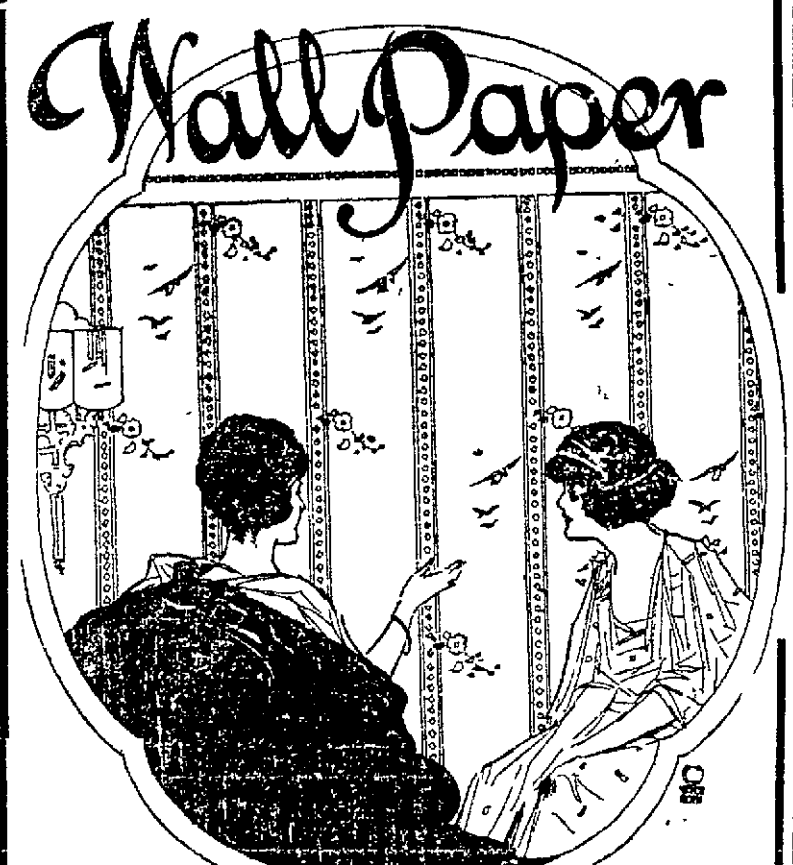

Mr. and Mrs. Martin were thrown clear of the machine and escaped with minor injuries. The son, however, received serious injuries about the chest and head. He has been taken to a San Francisco hospital for treatment. The parents and their son were en route from San Luis Obispo to the Martins' home in Mayfield when the accident occurred. The auto was wrecked in the accident.

## OAKLAND GETS PLANT TO MAKE RADIO SUPPLIES

Company Has Leased 30,000 Square Feet at Foot of 14th For Factory.

Out of four new factories announced today by the Oakland Chamber of Commerce, one is to build radio sets. The new company, known as the Master Products company, has leased 30,000 square feet of factory space, according to the announcement. The factory is to be located at the Union Construction Company's plant, at the foot of Fourteenth street.

The Union Construction company's plant has for some time been making radio parts, but no information heretofore has been given out as to the identity of the concern.

This concern, which is controlled by W. W. Johnson and H. G. Peake, will manufacture radio sets, also parts such as rheostats, condensers, amplifiers, transformers, variometers, vario couplers, radio-frequency transformers, loud speakers and other radio equipment.

This company will also introduce novelties in the form of radio sets in ornamental cabinets similar to phonograph cases now used in the homes.

All the products of this new company will bear the copyright word "Master." A. B. Anderson is the sales and advertising manager, and W. E. Bowen, formerly with the Bureau of Standards, is radio engineer.

Under the new contract, the Postal Telegraph will accept at and deliver from all of its offices throughout the country radio messages, thus making the radio service available to everyone and incidentally supplementing its present telegraph and cable facilities.

## 15 Minutes of Radio

LESSON NO. 157.  
Radio Dictionary.  
(Copyright by Edward N. Davis)  
(All Rights Reserved by United Feature Syndicate. Reproduction Prohibited.)

A practical unit of current measurement, having the value of one millionth part of an ampere. This unit finds considerable use in denoting the strength of the very minute currents employed in circuits for the reception of radio waves.

For example, an amount of current essential for the production of an audible signal in a good telephone receiver has a value of approximately 0.05 microampere.

**RESISTANCE COUPLING.**  
A type of coupling employed in both radio-frequency and audio-frequency amplifiers, consisting of a high resistance used as an inter-stage coupling for the purpose of separating the several stages of amplification. This form of coupling is used in a vacuum tube magnifying radio signals having long wave lengths, for example, in excess of 1000 meters.

**CHARACTERISTIC CURVE.**  
When the current-voltage relationship existing between current and voltage when applied to the elements of the three-electrode tube may be graphically represented by curves. For example, the "Grid Voltage-Plate Current" curve in which values of grid voltage are measured along a horizontal axis and corresponding values of plate current measured along the vertical axis, provides a means of constructing a curve which definitely represents in a graphic manner the relations existing between these two variables.

**MULTIPLE-TUNED ANTENNA.**  
A type of antenna particularly adapted to high-powered transmitting stations, employing high frequency alternating current of great energy. Consists of a long antenna grounded at several intermediate equidistant points through loading inductances. By means of this arrangement the individual sections may be tuned to the desired wave length which the station transmits.

**FILTER.**  
An arrangement consisting essentially of an inductance connected in parallel with a condenser, either of both of which may be variable. By properly adjusting the values of capacity and inductance and interposing this combination between an untuned voltage and a particular part of a circuit, it is possible to exclude undesirable currents, resulting from the interfering voltage, from the rest of the circuit. Thus, a "filter" may be utilized to prevent the passage of currents of an undesired frequency while allowing the passage of currents of other frequencies.

When the current-voltage relationship existing between current and voltage when applied to the elements of the three-electrode tube may be graphically represented by curves. For example, the "Grid Voltage-Plate Current" curve in which values of grid voltage are measured along a horizontal axis and corresponding values of plate current measured along the vertical axis, provides a means of constructing a curve which definitely represents in a graphic manner the relations existing between these two variables.

**MULTIPLE-TUNED ANTENNA.**  
A type of antenna particularly adapted to high-powered transmitting stations, employing high frequency alternating current of great energy. Consists of a long antenna grounded at several intermediate equidistant points through loading inductances. By means of this arrangement the individual sections may be tuned to the desired wave length which the station transmits.

**FILTER.**  
An arrangement consisting essentially of an inductance connected in parallel with a condenser, either of both of which may be variable. By properly adjusting the values of capacity and inductance and interposing this combination between an untuned voltage and a particular part of a circuit, it is possible to exclude undesirable currents, resulting from the interfering voltage, from the rest of the circuit. Thus, a "filter" may be utilized to prevent the passage of currents of an undesired frequency while allowing the passage of currents of other frequencies.

## PIEDMONT SCOUT ORCHESTRA WILL RADIO PROGRAM

Organization on Broadcasting Schedule Rated One of Best of Class.

A specially prepared program of entertainment will be broadcast tonight from The TRIBUNE'S radio broadcasting station, KLX, by The Piedmont Boy Scout Orchestra, under the direction of George E. Kennepp, Scout executive.

Camp songs, solos and orchestra pieces will make up this unique program. The Piedmont Scouts have an orchestra which is declared to be one of the best junior orchestras in the country. Several of the boys have specialized in camp songs, and these, too, will be broadcast.

In addition to the program to be furnished by the Scouts, Charles P. Thiele, well known local baritone, will sing "My City, Oakland," accompanied by Miss Vio Ellsworth, pianist, and Mme. Geider, violinist. All three artists are well known in the bay district and they were specially selected by the "Welcome to Oakland Week" committee to present the song to The TRIBUNE'S huge radio audience. The song is being presented to assist the publicity committee in advertising Oakland.

The combination program tonight promises to be of the very best entertainment. The complete program will be found on this page.

## KATRINKA HEARD IN WISCONSIN

The TRIBUNE'S radio broadcasting station, KLX, is now heard quite regularly at Darien, Wisconsin, by Miss Gray, according to a letter from Gray seeking information concerning the transmitting set. His letter is as follows:

"Radio Department, Oakland TRIBUNE: Have heard you well at various times. Think I can get you regularly when cooler weather comes. Do you have regular programs? And what power do you use?"

"Darien, Wis." "LIS-E GRAY." Several reports from distant points have been received, showing that "Powerful Katrinka" is slowly but surely coming up to her name. As yet she is operated on 50 watts but can be stepped up over night to 1000 watts if necessary. She will probably go to 500 watts as soon as cooler weather comes, when longer distance transmission will not be hindered by weather conditions due now to the heat.

### UNIQUE CHARGE AGAINST AUTOIST FINALLY DROPPED

Clinton Stephenson, Accused of Driving While User of Narcotics, Wins Case.

A charge, which is believed unique in the criminal annals of California, that of driving an automobile while being a habitual user of narcotics, was dismissed against Clinton Stephenson by Superior Judge Church today. Stephenson was tried on the charge some time ago, the jury disagreeing, 9 to 3 for acquittal. Deputy District Attorney Wade Snook, who tried the case, moved for the dismissal today. The defendant was represented by Attorney Lee Sullivan. Snook announced that a misdemeanor charge, that of having a hypodermic needle in his possession, would be pressed against the accused.

**YEAR'S PROBATION.**  
Judge Church today granted a year's probation to Joe Boswell, who entered a plea of guilty to driving an automobile while intoxicated. Boswell, the defendant, had secured employment at a considerable distance from his home he will be allowed to drive a machine during his period of probation, but all intoxicating liquor was forbidden him.

Several cases were set for trial today. Otto Riley, charged with driving an auto while intoxicated and who is alleged to have drawn a revolver on the Berkeley police when they attempted to arrest him August 25, will be tried on October 25. John B. Hawley, alias John B. Crowley, arrested for passing a fictitious check August 3, 1922, entered a plea of not guilty, and his trial was set for October 6.

### Peggy Too Sick to Fish

Chaplin didn't intend to stage a comedy, but when he took Peggy Hopkins Joyce out on his launch, the Dragon, a scene was enacted that might easily have been taken out of one of his pictures. The beautiful Peggy turned seasick and no inducement Charlie offered could change the fact that Peggy was sick and that she wanted to get off at once. Chaplin signaled the glass-bottomed boat waiting off Seal Rocks, Catalina, and Miss Joyce "regretfully" left with the exclamation that she was a "poor sport and that it required an iron constitution to catch swordfish." Photo shows Charlie and Peggy, while the party was on, wearing dark glasses because of the strong sun.—From Keystone View Co.

### A. F. L. ORGANIZER MAY SPEAK HERE

Arrangements to have James Lord, newly appointed organizer for the American Federation of Labor in California, address the Central Labor Council of Alameda at an early date, are being made by the local labor unions, according to William A. Spooner, secretary of the Central Labor Council.

Lord was for nine years president of the Mining Department of the American Federation of Labor, and is known as a brilliant orator. He will discuss the general labor movement and the mine and railway strikes.

### Band Prize Won by Lockwood School

For the second time, Lockwood school's band has taken the prize for school musical organizations at the California State Fair. The \$250 prize was awarded the school yesterday by State officials, in the presence of the student body.

Fifty boys comprised the band competing at Sacramento, under direction of John Smith. Two concerts were played. The principal rival against Lockwood was the Berkeley high school band.

### PATROLMAN RESIGNS.

Patrolman Gilbert E. Hickman today resigned from the Oakland police department. According to Chief of Police James T. Drew, Hickman is going into the wood and coal business with his father. He joined the department November 1, 1921.

### Poet Riley's Home Is Mecca For Many

INDIANAPOLIS, Sept. 11.—Hundreds of persons from Indiana, Illinois, Ohio and other states have visited the home of the late James Whitcomb Riley, famous poet, since the place was opened as a public shrine on April 13, according to a register which is being maintained. Miss Kate Kindell, who for many years was the housekeeper for Mr. Riley, is in charge of the home. Approximately 2,000 persons have visited the shrine to date, it was said.

All the elegant furnishings of the home as selected by Mr. Riley are to be seen at the house. Visitors are especially interested in the bedroom where the poet did most of his work. The home is maintained as a shrine under the direction of the Riley Memorial Association, which now is proceeding with the erection of the Riley hospital for children.

### Street Workers Average \$5.52 Day

The Oakland street department's payroll averages \$5.52 a man a day, according to a cost-chart maintained by W. W. Harmon, superintendent of streets, concerning the 232 employees in the department. The lowest paid employees are the laborers of the garbage and burning crews, at \$4.87. The salaries which make up the \$5.52 average are as follows: Office, \$5.72; garage, \$5.62; maintenance, \$5.71; construction, \$6.72; corporation yards, \$5.21; sewer crew, \$5.53; garbage crew, \$4.87; sweeper crew, \$5.10; engineer's office, \$5.29; burning crew, \$4.87.

### SAYS HUSBAND KICKED HER.

Testimony that her husband, Hans Johnson, hit and kicked her so many times during the nineteen years of their married life that she lost count and that he kicked their four children down the stairs repeatedly, was given today by Le-manda Johnson, who was granted a decree of divorce by Superior Judge Kinsell. The couple were married in Denmark in 1903, and separated in this city in July, 1922.

### DECREE TO DESERTED WIFE.

The story of how her husband, Arthur Booth, deserted her without cause or provocation was told today to Superior Judge Kinsell by Kathleen Booth, who was granted a decree of divorce. She said they were married June 1, 1920, and separated August 11, 1921. Mrs. Booth was granted \$40 a month alimony.

**LIVER—GALLSTONES**  
Richmond, Cal., Aug. 2, 1922.  
Because of inflammation of the liver and gall bladder, I suffered severe pain in my right side, which was badly swollen. Some doctors called it "gall stones" who others thought that my teeth and tonsils were at the root of the trouble and poisoned my system. I was told to cut out my teeth and tonsils, but even after five weeks the pain in my side had not abated. Therefore I refused to sacrifice my teeth.

Although I continued to treat with different doctors, I was unable to work. At last a friend, Mr. L. Smith of Richmond, who had been relieved of heart trouble by Fong Wan Herb Co., advised me to try their medicine. After six weeks of herb treatment, I am fine again and back at work. I am a grateful customer of Fong Wan Herb Co. of Richmond.

## BID FOR SCHOOL BUILDING BELOW APPROPRIATION

Lowest Estimate For Roosevelt Plant \$50,000 Under Amount Allowed.

With Commissioner W. H. Edwards sitting as a member of the board of education, for the first time in many months, the board opened bids for the construction of the Theodore Roosevelt high school in East Oakland and found that the lowest bids aggregated \$50,000 under the \$700,000 appropriation for this school.

This, according to educators, is the largest reduction in building costs met so far during the construction of new schools under the \$4,375,000 building program.

**ACTION POSTPONED.**  
The board postponed action on the San Leandro junior high school question, agreed that school bonds shall not be used during "Welcome to Oakland" week, in connection with union musicians and referred to the superintendent of schools the matter of raising funds for milk and bread for the nourishment of underfed school children.

A delegation of Lockwood school district residents appeared in protest against the proposed establishment of a planing mill in Melrose, just opposite the school grounds. The board of education, by unanimous vote, directed a protest to the city council against this planing mill.

**TEACHERS ELECTED.**  
By recommendation of the superintendent, the following were elected as teachers for the University high school:

Ethel S. Lee, mathematics; Edna Houston, English; George Bass, physical education.  
Bids for the Theodore Roosevelt junior high school, opened by the board, were for seven items of construction, including the general contract. The sum of \$700,000 was set aside for this school's construction. The lowest of all the various bids for the work total about \$652,000. The following were the low bidders for the items of construction:

General contract, M. C. Vaughn, \$42,500; painting, J. J. Burdon, \$17,630; lathing, George Dixon, \$49,943; plumbing, J. C. Newman, \$39,496; heating and ventilating, W. H. Picard, \$43,107; electrical work, Ne Page-McKinney company, \$73,900; roofing, Gladding McBean & Company, \$8,740.

## Pola Negri, Screen Star, Arrives in N. Y.

NEW YORK, Sept. 12.—Pola Negri herself arrived today aboard the Majestic for a visit to America's movie land, where the film has carried her fame before her.

The star was radiant as she stepped ashore, announced to a horde of newspapermen which surrounded her that she was married—to her art.

"The men, they are not for me," Pola Negri said.  
Among other feigning stunts, the famous screen star made each individual reporter gaze deeply and at close range into her eyes as she held his hand.

## Former Steel Strike Leader Under Arrest

CHICAGO, Sept. 12.—Wm. Z. Foster, head of the Trade Union Educational League and leader of the 1919 steel strike, was taken into custody today by the sheriff of Berrien county, Michigan, on a governor's warrant and started in an automobile for St. Joseph, Mich., for arraignment there on a charge of violation of the Michigan syndicalism law.

## SHOOT TWO, SELF.

ANDERSON, S. C., Sept. 12.—Enraged because his wife refused to return with him to their home at Greenville, Walter Allen, 50, shot and killed her and his mother-in-law, Mrs. Alice McAllister, and then shot himself through the head today. Allen is dying.

## WOODEN FLEET SOLD BY U. S. TO BAY SYNDICATE

San Francisco Attorney Buys 226 Vessels, Costing 300 Millions, for \$750,000.

The United States fleet of wooden steamers, 226 vessels in all, at anchor at an Atlantic port, which cost the government approximately \$300,000,000 to build during the war, was sold today at public auction for \$750,000 to George D. Perry, a San Francisco attorney.

First news that the sale was concluded was contained in despatches reaching here late today. It was confirmed by Perry, who announced that he had been carrying on negotiations. He is a member of the firm of Lent & Humphrey, of San Francisco.

The steamers will be brought here immediately for dismantlement, according to the terms of the sale.

A group of San Francisco and Oakland business men were behind the deal which was negotiated by Perry. Perry refused to make public the names of the men interested in the purchase, with the exception of one, W. F. Humphrey, a member of the firm of which Perry is an attorney.

"These men would prefer not to have their names made public at this time," the attorney said. "They are a group of men in this section, and have not yet been officially notified that the sale is closed."

He declared that the use of the 226 hulls was out of the matter of speculation on the part of their owners, but admitted that they might be used for barges, to carry lumber, etc.

Commenting upon the conditions on which the vessels were sold, Perry said: "These are the terms I expected. One of the reasons that the use of the hulls will be put to, is still a matter of speculation, is because we were not sure what provisions the government would make regarding their disposal. I expected that they would be for dismantlement."

"The ships will be brought here, where everything will be taken from them, leaving just the bare hulls. They will probably be started for the Pacific coast just as soon as the final papers can be arranged."

The fleet was built by the government during the world war for transportation of war materials to France. For the most part it is riding today in the James river, near Claremont, Va.

Perry was represented at the sale by William S. Humphrey, former president of the Olympic Club of San Francisco. After the sale, according to dispatches, it was stated that J. J. Tyson of the Charles Nelson company was associated with the deal.

There were only two bidders for the entire fleet, the purchaser and Dravo & Company of Pittsburgh. Dravo ceased bidding at \$749,000.

The sale brings to an end continued efforts by the government to rid itself of the wooden ships, which have often been described as a "white elephant" born and nourished by the war.

None of the ships sold are being operated, 211 of them being tied up at Claremont, Va. 13 at Orange, Texas, and two at Beaumont, Texas. The vessels range from 3500 tons to 6000 tons, and include nine of the composite type. The bidding started at \$405,000.

## Belgian Ultimatum Is Sent to Germany

By JOHN DE BANDT.

United Press Staff Correspondent.  
PARIS, Sept. 12.—Belgium today sent an ultimatum to Germany, demanding payment of 100,000,000 gold marks in six months bonds with cash security deposited in Belgian banks.

The penalty is to be that Belgium will report Germany to the reparations commission for punitive action.

The Belgian ultimatum, delivered by Foreign Minister Jaspar, marks complete breakdown of the negotiations between Germany and Belgium for payment of priority reparations claims.

A new crisis has been precipitated. The Germans, Bergmann and Fischer, arrived here this afternoon to explain their attitude.

## Los Gatos Grammar School Is Reopened

LOS GATOS, Sept. 12.—The Los Gatos grammar school reopened for the fall term yesterday, a record attendance marking the opening of the institution. Mrs. Cecile D. Hall, principal of the school, said she believes the registration will be even greater during the next week or ten days when many children will leave the fruit harvest to return to school.

## 'Strike Fence' Being Built at Riverbank

RIVERBANK, Sept. 12.—The Santa Fe Railroad company is building a "strike fence" around its yards and shops here. The structure is high and topped with barbed wire, well calculated to discourage the most enthusiastic climber. Several carloads of lumber have arrived and a large force of carpenters is at work. Several bunk houses have been completed for shop workers who have taken the place of strikers.

A stock exchange was recently opened at Kobe.

## New Church to Be Built at Livingston

LIVINGSTON, Sept. 12.—First Baptist church will soon be erected with Rev. Van Dyke Todd as pastor. He recently came here from Coalinga and bought a ranch. The new church will be built at the corner of Third and F streets, where a lot has been purchased for the site.
